

## A Painless Cure of Curable Pain

Never resign yourself to suffer pain. Women's pains are curable. They are the sign of dangerous conditions of the female organs, which should be promptly attended to or dangerous results will follow.

# Wine of Cardui

IT COMES TO WOMAN'S RELIEF

whenever she suffers from any of woman's biting and weakening pains. It not only compels the pains to stop, but it follows up and drives out the cause of the pains, which prevents them from coming back.

It makes you well. Try it.

Sold everywhere in \$1.00 bottles.

### WRITE US A LETTER

freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

### "WITHOUT A PAIN,"

writes Mary Shelton, of Poplar Bluff, Mo., "I can do my housework, although, before taking CARDUI, two doctors had done me no good. I can truthfully say I was cured by Cardui. I want every suffering lady to know of this wonderful medicine."

## CALAMITY LIARS ARE LOCKED UP

JACKSONVILLE HEALTH AUTHORITIES WILL PUT STOP TO FALSE REPORTS

Jacksonville, Sept. 6.—On a charge alleging that they circulated untrue reports concerning a contagious disease, Chief Sanitary Inspector W. A. Brazier yesterday arrested Annie Joyce of 613 Madison street, G. A. Henry, of the corner of Duval and Catherine streets, W. V. Henry, of 611 Main street, Lillie Shear of 613 Madison street, and J. L. Hanks of room 7, 20 Main street.

Messrs. Hanks and the two Henrys were released on bonds of \$25 each for their appearance in the Municipal Court this morning. As this is a case for the state to handle the defendants will probably be turned over to the county authorities for trial before a justice of the peace this morning.

All of the defendants claim their innocence. They say that they did not circulate reports of a contagious disease existing in Jacksonville, but heard that it did and merely asked other parties for information.

When Lillie Shear was looked up near Annie Joyce, the latter was heard by policemen to say: "You had kept your mouth shut we would not be locked up."

For several days past parties have

## STILL WORKING ON COOPER CASE

ATTORNEY PRESENTS MASS OF EVIDENCE IN PLEA FOR COMMUTATION OF DEATH SENTENCE.

Tallahassee, Sept. 6.—Colonel J. V. Brady is again obtaining a revocation of the death warrant for his client, Isaiah E. Cooper, has accomplished what appeared to be almost the impossible. Colonel Brady is a tireless and able worker, and has devoted himself to the task of saving the life of the condemned man, shown, he firmly believes, innocent of the crime for which he has twice stood in the shadow of the gallows, and has twice been respited.

For more than a year he has been working on the case, and has placed before the Board of Pardons a voluminous mass of evidence that he feels justifies him in asking a commutation of the death sentence.

The evidence upon which Cooper was convicted was entirely circumstantial, and circumstances have developed which may prove that there are strong grounds for doubt of the infallibility of the evidence upon which he was convicted.

A year ago, when Cooper sat waiting to be led out to be executed, he stoutly asserted his innocence—asserted it when he had abandoned all hope of a reprieve.

In a letter to the governor written last week, again in expectation of death upon the gallows, he maintained his innocence. Accompanying his letter is a photograph of himself, his wife and children, taken in the De Soto county jail at Arcadia. "Do you think," he said, "that a man with this responsibility would deliberately seek such a trouble as came upon me?"

been maliciously spreading untrue reports to the effect that contagious disease existed in Jacksonville, and Dr. F. D. Miller, city health officer, is determined to stop such reports if he has to lock up everybody in Jacksonville.

Dr. Miller has a list of several other parties who, it is said, have been spreading such reports, and they will be located today and sent to jail.

The law in regard to circulating false reports of contagious disease is as follows:

"Any person or persons who shall falsely or maliciously disseminate or spread rumors or reports concerning the existence of any infection of contagious disease, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished as provided by section 769, which provides that such person shall be fined in a sum not less than \$100 nor more than \$1,000 or be imprisoned in the county jail for not less than three nor more than six months."

All parties are white.

### EMPTY BOTTLES.

Fifteen cents per dozen paid for empty Besso bottles at Nick's restaurant.

### Victor Hugo's Double.

Victor Hugo had a real double in flesh and blood who exploited his physical resemblance to the man of genius. He cut his beard like Hugo's, copied the master's dress in its smallest details and so for eighteen years divided with the master the admiration of the public. His especial delight was to pose in a poetic attitude in front of a Punch and Judy show. He did this at a particular spot every Thursday afternoon for years, thoroughly enjoying the murmurs of curiosity and applause proceeding from the gaping crowd which he deceived. We do not hear that he reaped any other reward but his pleasure.

### A Race of Stewarts.

The study of the improvement of the human race by selected breeding has in recent times been dignified by science. The glib argument is applied that, as we improve the race of race horses by selection of parents, we might produce similar effects by supervising human marriages. There are several fallacies in this reasoning. We are able to breed fast race horses because we want fast race horses, but the difficulty is that we do not know what ideal of man we should aim at—London Medical Press.

## SIT STEADY IN THE BOAT SAYS STORRS

Editor of DeFuniak Breeze Gives Wise Counsel to Fever Alarmists.

In yesterday's issue of the DeFuniak Breeze, Editor R. W. Stors, writing editorially under the caption "Sit Steady in the Boat," says:

The announcement of the outbreak of yellow fever in Pensacola last week, which much to be regretted should not be the cause of any wild or needless alarm. A few years ago such a report would have put a shot gun quarantaine on every cross road in this section, but modern medical science has proven its capability to deal with the disease, as the reports from New Orleans show, where the Marine Hospital Service, during the time of year when previous outbreaks have been the worst, and under the most unfavorable weather conditions has decreased the number of new cases from nearly one hundred a day to less than thirty, and is still cutting them down.

Dr. Joseph Y. Porter, the state health officer in Pensacola, and has full control of the situation, and there is every reason to believe that he will have the outbreak there under full control in a very short time. Of course there will be all sorts of wild rumors abroad, but bear it in mind that these things never lose anything in the telling, and that it is a good idea never to give circulation to any reports of this kind unless you know absolutely that they are true.

Under the present restrictions on travel we do not anticipate that there is any danger whatever of the disease reaching here, nor do we believe that it would spread if it did, but if there should be that a case should develop anywhere in this county the Breeze stands pledged to let the fact be known, and that at once.

In reference to those who came here last week from Pensacola, we would state that they left town at once, and none of them will return until all possible danger of a case of fever developing among them shall have passed.

### Palatka a "Wet" Town.

Palatka, Sept. 6.—The rainy season is certainly getting in full time in this section. A down-pour every afternoon is the result of a cloud the size of the traditional man's hand, while on Sundays, for the past two weeks, it rained continuously all day and practically all night. The streets are flooded and the lower outlying districts of the city are inundated. Never in the history of the town has there been known to be so much water at this time of year as now. It is claimed, however, that Palatka's extreme healthfulness at present is greatly due to this condition.

## MERCURY WORSE THAN THE DISEASE

The effects of Mercury and Potash are worse than the effects of Contagious Blood Poison, for which these minerals are generally used. They cannot cure the disease, and in addition set up a poison of their own, producing dyspepsia, by drying up the gastric juices, salivation, sores, mercurial rheumatism, and often necrosis of the bones.

Bowling Green, Ky., Mitchell House. Gentlemen:—For over four years I suffered greatly from a severe case of Contagious Blood Poison. I went to Hot Springs, staying there four months at a big expense. I then consulted physicians, who prescribed Mercury. Nothing did me any good, in fact the treatment proved more harmful than beneficial. Thus I continued to suffer for four years. I mentioned my case to a friend, who told me that S. S. S. had certainly cured him. I at once commenced its use, and in six months could find no trace of the disease whatever. This was about two years ago, and there has been no signs of return. D. M. SANDERS.

S. S. S., a remedy made from roots, herbs and barks, is the only known antidote for Contagious Blood Poison. It thoroughly and permanently eradicates the poison from the blood so that no sign is ever seen of the disease in future. S. S. S. builds up instead of tearing down the system, as do Mercury and Potash, and when it has cured the disease every part of the body has been toned up by its purifying and tonic effects. S. S. S. also removes any effects of the mineral treatment from the blood. We offer a reward of \$1,000.00 to prove that S. S. S. contains a particle of Mercury, Potash or any other mineral. Home treatment book and any medical advice will be given without charge.

## TURPENTINE IS GOING UP

DEMAND CONTINUES FROM ALL SOURCES IN SAVANNAH MARKET.

The Savannah News of Wednesday says: The demand for spirits of turpentine continues from all sources and in a volume that yesterday caused another advance in the Savannah market. The opening was firm at 61½¢, the closing price at Saturday, with sales of 360 casks, and the close firm at 62¢, with further sales of 600 casks. In the trading after the close the demand continued good and offerings were taken at the closing price. The receipts, two days, were 1,420 casks, and the shipments, 9,095, making a very material reduction in the stock. The New York market was reported steady at 64½¢ and London at an advance of 46—1½¢.

The rosin market opened and closed firm and unchanged from Saturday's closing figure, as shown below, with sales, at the opening of 1964. None was reported at the close. In the late trading, however, practically every thing offering was taken at an advance of 5¢ on M. K. I. F. E. and 10¢ on H. G. The receipts were, two days, 4,591 barrels, and the shipments, 11,339. The New York market was quoted steady at \$3.70.

## JACKSONVILLE TO SEPARATE RACES

ORDINANCE PROVIDING FOR DIVISIONS IN STREET CARS WILL BE DRAWN.

Jacksonville, Sept. 6.—Separation of races on street cars will be accomplished in the opinion of the special committee of the city council appointed to draft an ordinance, if the ordinance recommended by the committee is passed.

The committee submitted its report last night, through Councilman R. F. Bowden, chairman, and stated that the bill presented was constitutional, in the opinion of the committee.

The bill is entitled: "An ordinance regulating, requiring and providing for the furnishing of separate accommodations for and the separation of white and colored passengers on street cars."

The bill provides for separate cars or divisions of cars, and requires signs in the end of each such car or division, indicating by the words "white" or "colored," as the case may be, that such car or part of car is provided for passengers of the color named. When open cars are provided, additional signs are to be provided and placed conspicuously on the sides of the car, so as to indicate thereby the portion of the car for whites and the portion for colored.

Any company, person, firm or association operating street cars in the city of Jacksonville without such signs so provided and placed shall thereby forfeit its municipal franchise to operate street cars in the city of Jacksonville.

The penalty for violation of the provisions by any person, company, officer, superintendent, motorman, conductor or any other employee is a fine of not more than \$500, or imprisonment for not more than ninety days. The penalty is the same for any passenger who refuses to obey the provisions of the ordinance and who may wilfully occupy as a passenger any car or part of a car not so set aside for such person, white or colored.

The law is similar to the state law, with the exception that no provision is made for nurses to occupy the white portion of the car.

The bill was passed on its first reading and referred to the committee on laws and rules.

## PENSION BOARD NOW HAS BUSY SESSIONS

Many Claims are Filed Some of Which Have to Be Rejected. The State Law.

Tallahassee, Sept. 6.—The State Board of Pensions, which consists of Governor Broward, Commissioner Croom and Attorney-General Ellis and C. H. Dickinson, secretary of the board, is busily engaged, now from 8 to 10 p. m. daily considering pension applications, of which there are all sorts and conditions.

Notwithstanding the fact that the law states clearly the qualifications entitling persons to pensions, many groundless claims are filed and are rejected upon examination.

The roll of pensions is now, approximately, 3,000.

The provisions of the law are as follows:

"Any person who enlisted and served in the military or naval service of the Confederate states from this state during the war between the states of the United States, and did desert the Confederate or state service, and who was a bona fide citizen of the state January 1, 1885, who has since continued to be a citizen of this state, who lost a limb or limbs, an eye or eyes, or who is permanently disabled by reason of wounds or disease to gain a livelihood by manual labor, or who, being more than sixty-five years old, is, by reason of age, incapable of providing a living for himself, shall be entitled to receive each per annum, in quarterly payments, the following amounts, to-wit: For total loss of sight.....\$100 For loss of one eye..... 25 For loss of a foot or leg..... 80 For loss of a hand..... 80 For loss of both hands..... 100 For loss of both feet..... 100 For loss of one hand and one foot of same person..... 100 For personal injuries, disease or age, whereby the person is unable to earn livelihood by manual labor..... 96

"The widow of any soldier or sailor who was receiving a pension under this act, or from the state by any former act, at the time of his death, or who would be entitled to apply under this act, shall receive such pension during her widowhood, provided, she was lawfully married to such soldier or sailor prior to January 1, 1885, provided such widow was a resident of this state on January 1, 1880, and who has since continuously resided herein.

"No person who, or whose wife, or any widow who owns property, real or personal, to the value of eight hundred dollars, or is otherwise enabled or in a position to earn a livelihood, or who has an income from any source sufficient for support, shall be entitled to the benefits of this act.

"That from and after July 1, 1903, the widows of any deceased soldier or sailor who enlisted and served in the military or naval service of the Confederate states, or this state, during the war between the states of the United States, and did not desert the Confederate or state service, shall be entitled to receive the sum of ninety-six dollars per annum, in quarterly payments, provided, that such widow was lawfully married to such deceased soldier or sailor prior to January 1, 1885; and provided such widow was a resident of the state of Florida on January 1, 1890, and has since continuously resided therein, and provided further, that no widow who owns property, real or personal, or real and personal, to the value of eight hundred dollars, shall be entitled to the pensions hereof. The provisions of this act shall not apply to any widow after her remarriage."

### NO DIFFERENCE

Old People Just as Happy as Young  
Age cannot wither nor custom stale the infinite variety of life.

When the right food makes one new each day there seems as much simple happiness when one is old as when young, but bounding health is the requisite and right food produces that.

A happy woman of 77 tells her experience: "For three years," she says, "I was greatly troubled with a nervous affection of the stomach, which at last brought me to such a condition that I could neither eat nor sleep with any sort of comfort. I grew very despondent and felt that my hold on life was very uncertain. It was difficult for me to find food that I could digest. My doctor kept me on a diet of rice for a long time, but it did not seem to give me any strength.

"I am glad that at last I decided to try Grape-Nuts food, for it has done a wonderful work for me. Before I had used up the first package I began to take a new interest in life, and I rapidly increased in health and strength. My stomach has regained its normal tone and in the two years that Grape-Nuts has been my only food, I have not had a sick day. I am 77 years old and Grape-Nuts has restored to me the pleasure of living. I am sorry I did not begin sooner to use it. I cannot praise it too highly." Name given by Postum Co., Battle Creek, Mich.

There's a reason.  
A 10 days trial is sufficient.
