#### \$5.00 REWARD.

The Journal will pay \$5.00 reward for evidence sufficient to convict any boy or person found stealing subscribers' papers after delivery of same by carrier.

Several members of the Knights of Robin Hood, the association of older employed boys of the Y. M. C. A., enjoyed a hike under the leadership of Gerald Herdier yesterday afternoon. They found a good spot to camp, built a fire and listened to a story read them by their leader.

Dr. M. E. Casena of Santa Rosa, was among the arrivals in the city, coming to the city to spend a few days.

Mr. and Mrs. V. P. Conway of Sault Ste. Marie, Mich., are among the arrivals in the city who are registered at the San Carlos.

Mr. and Mrs. F. Keller, Jr., of New York, and Mr. and Mrs. Charles Strong of Minnesota, arrived in the city yesterday afternoon and registered at the San Carlos.

Peter Kuntz, of Chicago, who has large holdings of land in this section is in the city on a short business visit.

J. Edgar Winn, a traveling salesman of Virginia, is in the city on a short visit and is registered at the San Carlos.

William Samuels, of New Orleans, traveling salesman for a plumbers supply house, arrived in the city yesterday and will remain for a few days. This is Mr. Samuels' first visit to Pensacola in twenty years. He said that the electric lights installed in the parkways on Wright, Palafox and Garden streets add greatly to the beauty of these streets and that the scene presented at night surpasses anything of the kind he has yet seen. Mr. Samuels was high in his praise of the San Carlos hotel and said that it is one of the things that will help to advertise Pensacola throughout the country.

Fire on the roof of the dwelling occupied by Burr Redd, No. 620 East Salamanca street about 5 o'clock yesterday afternoon destroyed several shingles. An alarm sent by telephone to the police station called out the fire department.

## STRANGERS ON A NEW SERIES

CLUB TAKES UP STUDY OF SOCIALISM—FARMERS SEND TO THEM FOR MEN TO WORK.

R. T. Steele, father of O. L. Steele, Pensacola manager of the Zimmer Coal Company, of Mobile, and president of the Strangers club, of the Y. M. C. A., yesterday led that organization's discussion on the opening of a series of Sunday-afternoon talks about socialism. The series will take up the month and the purpose is merely to become familiar with all the arguments of both sides in regard to socialism.

Mr. Steele defined socialism and was followed in debate by A. Bookke, Lieutenant F. H. Young and General Secretary J. H. Sherrill.

Mr. Sherrill said that he had communications from three parties wanting help. Two farmers have written to him, through the Y. M. C. A., and asked if he could send them help. One wants several men who desire to earn living wages and keep and learn scientific farming and another wants a man and wife to live on his place and learn farming.

It was decided to ask all the ministers to announce the meeting from their pulpits hereafter.

### SIX NEGROES ARRESTED FOR CRUELTY TO ANIMALS

Three negro men, Frank White, Oliver Everett and Rufus Gant, were arrested about 7 o'clock last night and taken to the city jail, where they were locked up on the charge of cruelty to animals and fast and reckless driving. The proprietor of a livery stable charges the men with having treated two of his horses in a cruel manner by over-driving them. They rented two buggies from the stable, but the proprietor claims that after they had gone some distance one of the buggies was turned over to three negro women, who continued to drive the horse at a very fast rate for a considerable distance.

The police last night made warrants for two of the women, Evelyn White and Katie Green, but the name of the other one was not learned.

## WHY WE CURE MEN

"Years ago," said the Chief Physician of the German-American Doctors to the writer in a short interview this morning, "I used to be a General Practitioner of Medicine; I treated every thing that came along with the result that I cured once in a while, failed in many cases and gave general dissatisfaction all around; one day, talking with an older doctor, he said to me, 'If I had this life to live over again, I would treat nothing but lung fever, typhoid fever and malaria.' Why? I asked him. 'Because, Doctor, I know all there is to know about those diseases.'"

That is where I stand today: I have limited my endeavors to certain diseases of men and women; those diseases that the family doctor don't cure; can't cure, or don't know how to cure; and I succeeded where others have failed; I never in the last twenty years have treated a trouble that had not been through the hands of from three to fifty physicians, and any amount of Patent Medicines.

"I cure men, because I first give them a thorough, searching examination. I learn the exact condition of the whole pelvic system; I examine the Urethra, the Rectum; I test the urine and the blood; about my diagnosis there is no guess work. I know what the matter is before ever I take the case; then I treat it; there is mighty a slim chance of failure under my treatment; I have every proven instrument to work with; every remedy known to do good work. You will find no Calomel, Potash or Morphine on my drug shelves.

You are sick and run down, and not the man you once were, but there have been other men in the same fix whom the Chief Physician has restored to healthy, happy vigorous, hustling men, because they came and opened up their hearts to him, and gave him a chance to cure them. When will you come?

## REORGANIZE ARMY ON TACTICAL BASIS; FOUR DIVISIONS—THE EASTERN, CENTRAL, SOUTHERN AND WESTERN, ARE CREATED

Top row, left to right: Maj. Gen. J. Franklin Bell, Maj. Gen. William H. Carter, Maj. Gen. Arthur Murray. Bottom, left to right: Major Gen. Thomas H. Barry and Brig. Gen. Tasker H. Bliss.

Washington, March 1.—Reorganization of the entire United States army on a tactical basis, effective February 15, is provided for in orders issued recently by Secretary of War Stimson with the full approval of President Taft. The most important feature of the reorganization is the creation in the territorial limits of the United

States of three infantry divisions and one cavalry division of the army. These divisions will be located in what will be known as the eastern, central, southern and western departments, with headquarters at New York, Chicago, San Antonio and San Francisco, San Antonio being the headquarters of the cavalry division.

The commanders of the tactical divisions will command the departments in which their divisions are located. Maj. Gen. Thomas H. Barry will command the eastern department; Maj. Gen. William H. Carter, the central department; Brig. Gen. Tasker H.

Bliss, the south department, and Maj. Gen. Arthur Murray, the western department.

In addition to the departments within the territorial limits of the United States, there are also created the Philippine department and the Hawaiian department, with Maj. Gen. J. Franklin Bell in charge of the former and Brig. Gen. Frederick Funston in command of the latter.

Numerous changes in assignments of general officers are also provided for.

Hitherto there has been no tactical army organization higher than a regiment. There have been no brigades or divisions existing in time of peace. Upon the outbreak of war, when an army was needed, it was necessary to create such an army under all the stress and hurry and excitement of such an occasion.

Discussing the proposed tactical reorganization, Secretary Stimson said: "At the outbreak of any war or upon any emergency requiring the use of a brigade or a division of regular troops, instead of it being necessary for the authorities at Washington to gather together and create such a force it will only be necessary to issue a single order, addressed to the commander of the division or brigade in question, directing him to mobilize his force at the desired point. The importance of this single phase of the reform can be appreciated when it is remembered that in 1911, it required sixteen days to create, gather together and mobilize a single division of about 12,000 men at San Antonio, Tex. In 1912 it required the Bulgarians eighteen days or two days more, to mobilize an army of approximately 270,000 men to cross their enemy's bor-

der and beat into helpless ruin the Turkish army." The new plan will not involve the immediate movement of a large number of troops. The department is studying the problems, and orders for such transfers as are necessary will be issued later.

Secretary Stimson believes that the plan of reorganization is as thoroughly in accord with the views of the army as it is possible for any such plan to be.

### WOMEN THAT MEN ADMIRE

It is true men admire a pretty face and a good figure, sooner or later they learn that it is the healthy, happy woman that is most of all to be admired. Women who are troubled with nervousness, backache, the blues or other symptoms incident to female ills that drag a woman down to despair, should not forget that Lydia E. Pinkham's Vegetable Compound has brought health and happiness to more women in America than any other remedy and should at least give it a trial. (Adv.)
