### BERNARD SHAW

whose name needs no introduction, says:
"The crying need of the nation is not for better morals, cheaper bread, temperance, liberty, culture, redemption of fallen sisters and erring brothers, nor grace, love and fellowship—but simply for enough money."

The way to get enough money is to save a little from time to time and deposit it with us. Start with a little. Don't wait until you have much. The acorn grows into an oak; the oak never grows back into an acorn. If every one who reads these words will take them to heart, he will number this day among the red letter days of his life. Why not call and see us?

The second primary election passed off in Alcorn county yes-terday very quietly, without friction or mishap—except by some of those who were candidates and were defeated. The very best of order was maintained throughout the entire day.

The county vote shows about 2,700 votes polled—about 100 less than that of August 3.

There was quite a great deal of attention given to various offices, and especially, was that interest strong in certain county offices, tax assessor, cotton weigher and

The returns from state offices are incomplete, and nothing dependable can be received at the hour of closing the form for today's issue.

From the returns received, P. E. Matthews leads L. Q. Stone for penitentiary trustee from the 3rd listrict, of which Alcorn is a part. Stokes V. Robertson appears to be leading his opponent; Chas. J.

Moore for revenue agent. Wood leads Brown in the race

for land commissioner. There are many counties in the state yet to report which may alter the positions as shown above. In fact there is nothing definite, and it is presumed that it will be probably tomorrow before any-thing reliable will be given out.

The vote throughout Alcorn county held its own, each box possibly falling behind a few votes. Interest was high at every precinct, and the voters exercised their right of suffrage in every

you will do too much to it either, for "There is no excellence without great labor."

W. T. Pollard, County Agt

### FIRST BALE OF COTTON

We have had several inquiries about the first bale. Corinth cotton merchants usually look for the first bale of Alcorn county cotton anywhere between August 25 and October 1, but the average time for the appearance of the 3 first bale being about Sept. 15.

Other towns, located further down the state, are reporting the first, but we have some twenty days yet. However, the record may be broken and the first bale is liable to bob up any day.

The crop is reported normal, and the cotton season is due to open soon and fast.

People interested in cotton are guessing that the first bale will bring a fairly good price.

### CANNING CLUB WORK

Miss Brown asks that the presidents of the Canning Clubs will each call a meeting of their club, 3 discuss and make difinite plans for the Fair, and find out the number of labels needed in your Club. Have secretary write minutes of meeting and mail to county agent. Miss Brown appoints each president as a member of her marketing committee, to as-sist her in finding sales for club ..... 196 goods.
