### THE RACE PROBLEM

The race problem is now coming for an unusual amount of discussion, especially in the north. Statesmen are making it the basis of their remarks, Editorials being written upon it, and eminent divines are discussing it, all because an accidental president is trying to force social and political equality between the races upon an unwilling people. Abraham Lincoln, the great apostle of Republicanism, in a speech delivered in Charleston, Ill., on the 18th of September, 1858, said as follows:

"I will say that I am not nor ever have been in favor of bringing about in any way the social and political equality of the white and black races; that I am not nor ever have been in favor of making voters or jurors or negroes, nor of qualifying them to hold office nor to intermarry with white people; and I will say in addition to this that there is a physical difference between the white and black races which will ever forbid the two races living together on terms of social and political equality. And inasmuch as they cannot so live, while they do remain together, there must be the position of superior and inferior; and I, as much as any other man, am in favor of having the superior position assigned to the white race."

Thomas Jefferson, the great apostle of Democracy, said:

"I am certain that the negroes will be free, and I am equally certain that they can never live on the

same soil on terms of political equality with the whites."

Oliver Wendell Holmes says:

"No abstract principle of benevolence can reserve the great family instinct that settles the question for us. The creator has hung out the colors that form the two rallying points so that they shall be unmistakable, eternal; Nay there is hardly a single sense that does not bear witness to the indefaceable distinction of blood. The white man must be master in effect, whatever he is in name."

By the above we see that the present weakling in the White House, by his effort to establish equality between the races, is putting his intelligence against the intelligence of men whose fame will live long after the name of Roosevelt is forgotten; men who gave due deliberation to every important subject instead of blindly rushing to a conclusion which the facts in the case would not warrant.

But meanwhile is this affecting the good negro of the south? The answer is found in the cheery songs of the thousands of negro workmen in the fields, whose happy lives are undisturbed by the thoughts of the morrow, and who pay no attention to the idle vapors of the skunk-scented Washington Ethiopian who is crying for blood, or the fanatical Parkhurst who is denouncing the Anglo Saxons of the south as tyrants. Happy in the thought that the southern white man is his friend, and secure in the knowledge that so long as he properly conducts himself he will be accorded fair treatment, he has no cause for worry.

State Revenue Agent Wirt Adams made public this week the amount to which the state, counties and municipalities will be entitled to as a result of his recent back tax recovery from the I. C. Railroad, only those counties and municipalities through which the Y. & M. V. railroad runs are entitled to a share of the fund. DeSoto county gets \$6,922.21.
