McELEE'S WINE OF CARDUI, a Tonic for Women.

To show the importance one crop  
has in the local market of Iuka, the  
following will illustrate what could  
be done in other lines of vegetables.  
John D. Hubbard, raises and sells  
in Iuka, from two to three thousand  
water melons yearly, and the melons  
net him about ten cents a piece, which  
gives him the nice sum of two to three  
hundred dollars yearly. Other farmers  
sell equally as many during the season.  
The melon crop nets the farmers  
about \$2500 yearly.

McELEE'S WINE OF CARDUI for Weak Nerves.

Our people should take into consid-  
eration that there are many days of  
warm weather yet before white frost.  
Cholera and Yellow fever are diseases  
that have no respect of persons or  
places, and we should prepare "for  
war in time of peace," is a good old  
maxim that we would all do well to  
heed. Look around the back alleys of  
our town and see if they are in a good  
sanitary condition. It is the duty of  
the health officer to see that the town  
is cleaned from all impurities, and  
those who do not heed his mandate to  
clean up and remove all filth from and  
around their premises should be fined  
for refusing to do so.

A meeting of the Board of Trustees  
of the Iuka free school district, was  
held Monday, August 21st, and Prof.  
H. A. Dean was re-elected as principal  
for the next seven months, school  
commencing September 5th, 1893. Mr.  
Ross and Miss Minnie Robinson elected  
as assistant teachers. The rules and  
regulations governing the last  
term of free school were readopted by  
the Board. The laws specifying the  
duties of the Board will be strictly  
adhered to. Educable children from  
adjacent territory and the county have  
the privilege of attending the Iuka  
School for as many months as the  
county free schools are run, and the  
county pay the bill.

Try BLACK-DRAUGHT tea for Dyspepsia.

## Hillside Items.

We had a fine rain, the first to  
amount to anything since June.

The order of the day, through this  
part of the country is planting turnip  
seed, into Irish potatoes, saving of  
hay and fodder.

Brother H. C. Davis, Elder of the  
Christian church, and among one of  
our best citizens leaves here Monday  
the 28th for Hill county Texas. While  
we regret to give him up, we hope he  
will do better there than he could here.  
But we know that he will not have any  
more or better friends than he has  
here.

## PEGING AWAY.

McELEE'S WINE OF CARDUI for female diseases.

Florence, Ala., Aug. 19.—A tele-  
gram received here today from the  
city marshal of Decatur to Sheriff  
Hines, says "Cap" Hicks was found  
dead on the railroad bridge this morn-  
ing. It was thought his death was  
caused by foul measures. From pa-  
pers found on his body it is thought  
his name is Sherill. Hicks is the man  
arrested here last week with Annie  
Warwick, a notorious character from  
Huntsville, and made a daring escape  
from the train while en route to Hun-  
tsville on Thursday night. He was sup-  
posed to be from Nashville.

This same man Hicks was in Iuka  
several weeks ago as advance agent  
for minstrel troupe, which disbanded  
while here.

Give Dr. Tichenor's Antiseptic a fair  
trial and you will thank us for calling  
your attention to so valuable a remedy.

FOR DYSPEPSIA,

# DR. PRICE'S Cream Baking Powder.

The only Pure Cream of Tartar Powder.—No Ammonia; No Alum.  
Used in Millions of Homes—40 Years the Standard.

## Home.

This is a word dear to all, it is sa-  
cred in the memory of all who cherish  
a home. Home is the first place in the  
hearts of all—home is the first place  
to be provided for, as this is not only a  
necessity but a duty to ones own fam-  
ily and their posterity. A home should  
be made attractive so it would be the  
most interesting place of any other to  
its occupants. A town or city, is a  
home of those who dwell there; its of-  
ficers are its parents and should look  
to its surroundings and see that com-  
fortable provisions are made for their  
welfare. The home paper is their  
sentinel, and is on continual duty and  
gives the alarm at the first approach  
of an enemy to the peoples interest.  
The home people should help home  
interests and home enterprises, when  
this is done they are helping one of  
their own family. "Yet too many  
forget their duty to home interests  
and yield to the oily-tongued repre-  
sentatives of foreign concerns every  
time they come around." The county of-  
ficers know that the county printing  
should be given to home offices, es-  
pecially where they are prepared to do  
the work at reasonable rates. We  
know of instances in more cases than  
one where work has been given to  
foreign concerns and higher prices  
paid, and the material furnished of a  
poorer quality than could be had at  
home for less money. Why do the  
officers and business men show such a  
discrimination in favor of foreign con-  
cerns? It is to the advantage of the  
business men to see the home office  
prosper.

The Democrat Star, is perfectly safe  
in declaring—"as a general thing the  
manner in which the country news-  
papers are treated by those who are  
recipients of the editors favors is an  
outrage on justice and neighbor cour-  
tesy."

Horses, Cattle, Dogs etc.—The Hum-  
phreys' Medicine Company of New  
York, will mail on application a com-  
plimentary copy of Dr. Humphreys'  
Veterinary Manual (500 pages) on the  
treatment and care of horses, cattle,  
dogs, hogs, sheep and poultry.

## A Great Public Library.

Any book you want, loaned to you,  
in city or county, anywhere in the  
United States, for as long or as short  
a time as you want it, at an average  
cost of only one cent a day, is the of-  
fer of The American Co-operative  
Library recently organized in New  
York. This undertaking successfully  
carried out will give book-readers  
everywhere better facilities than heret-  
ofore enjoyed outside of the reach of  
less than a dozen of the largest librar-  
ies in the principle cities. Books can  
be ordered direct from New York,  
through neighborhood Book Clubs or  
from country Postmasters, Newsdeal-  
ers, Booksellers or others who will  
act as agents. A 160-page catalogue  
is sent free to any applicant enclosing  
a two-cent stamp; members of the Li-  
brary are not limited to this, but  
may order any book in current litera-  
ture suitable for general circulation.  
Any further information desired will  
be sent free on request. Address  
The American Co-operative Library,

Don't be a croaker. You destroy  
confidence by it, and dull business  
must follow. If you are a victim of  
the shibboleth of hard times, do not  
seize every opportunity to pass it  
around and discourage your neighbor  
because you are displeased with the  
outlook. Times are very much what  
we make them, and generally when  
some little calamity befalls us we are  
too ready to give up, and the cry of  
hard times goes from mouth to mouth  
until the situation has been magnified  
ten-fold.—Tupelo Journal.

It is estimated that 55 per cent of the  
gold produced in the world is taken  
from the silver mines, and that the en-  
tire production of gold is now being  
used in the arts. With the closing  
down of the silver mines the arts will,  
of necessity, be forced to use the gold  
that is already coined, and the gold  
will be disappearing year by year.—  
Silverton Col. Miner.

## The Southern Farmers.

It is gratifying to note that in the  
midst of the stringency prevailing  
throughout this country the Georgia  
farmers boast that as a class they are  
better off than they have been for  
years. At the meeting of the Georgia  
Agricultural Society a few days ago  
this is what the vice president, Mr.  
Barry, said, declaring that the farm-  
ers of Georgia have had of late more  
home raised bread and meat, fewer  
debts and fairer average crops than  
ever before. Mr. Barry's remarks  
were greeted with wild applause,  
showing that his views were accepted  
by those present, and the other speak-  
ers echoed his sentiments.

The Augusta Chronicle agrees thor-  
oughly with him that the farmers of  
Central Georgia are in excellent con-  
dition. The warning they received as  
to raising too much cotton has had its  
effect, and they are growing more food  
crops, and are, therefore, more inde-  
pendent. The lesson of economy,  
moreover, taught them in the last few  
years has not been without its effect.  
They have been more careful and  
more saving. They cultivate better  
and more thoroughly, and, conse-  
quently, secure a larger yield per  
acre.

What is true of Central Georgia is  
relatively true of a large portion of  
the South just now. There is, of  
course, a financial stringency every-  
where, but the Southern farmers are  
in as good a condition to weather the  
storm as any class in the country.—  
Times-Democrat.

## No Right to Laugh.

so heartily, is informed that a new

printer's dress too closely while wear-  
ing silks purchased with money due  
him. Tell your husband to send us
