THE SECRET OF JAZZ FEEDS ---

Good breeding and good management are important, but the best bred strains cannot produce profitably unless they receive the right feed. The secret of Jazz Feeds is that they produce more pork, more beef, heavier fowls and more milk per pound of feed... therefore greater profit.

Each Jazz Feed is a tested, balanced ration... rich in proteins... rich in vitamins... rich in minerals. As each is blended in exactly the right proportions, the proteins increase weight amazingly, the vitamins maintain healthy vigorous growth and the minerals build strength and vitality into bone and frame.
