 The Great Southern Remedy for  
**RHEUMATISM, GOUT & NEURALGIA.**  
 These terrible enemies of human happi-  
 ness, Rheumatism, Gout and Neuralgia,  
 heretofore seemingly unconquerable, have  
 indeed found their master in Jenkins' An-  
 nihilator. We have the testimony of men  
 of the highest standing in Louisiana and  
 other States, that after suffering intoler-  
 able pains for years, from which they  
 sought relief in vain by visiting the Hot  
 and Warm springs of Arkansas and Vir-  
 ginia, and by using dozens of remedies  
 more or less highly praised, when, in fact,  
 hope had almost died out, they have found  
 relief from pain by the use of the Annihila-  
 tor, and by continuing it for a short  
 time, have been perfectly cured. The An-  
 nihilator is a preparation purely vegetable,  
 agreeable to the taste, and may be taken  
 without fear of any injurious results by  
 the delicate as well as the robust in con-  
 stitution.

**"Old Si."**  
 HE HAS IDEAS ABOUT THE QUAR-  
 ANTINE.

Atlanta Constitution.  
 Old Si laid down the morning  
 paper and remarked:  
 "Ef I members myself, I red de  
 odder day dat de yer Missippy  
 town, Meridian, hed kurrenteend  
 'gin de yaller feeber!"  
 "So it did."  
 "But I sees now dat de skurge

 tered hitself in de villige whedder

 "That is true, and I am sorry to

 "Why not?"  
 "Kase Ise bin down in dese yaller

 "You are about right."  
 "Yes, sah; my 'sperience ar' dat

 "And that is your experience?"  
 "Yes, sah; de fact is, de only

And the old man went on down  
 stairs delivering a eulogy on water  
 and clean back yards as "de bes'

**Sheep-Killing Dogs.**  
 Mr. D. C. Richmond, of Ohio,  
 relates—in an article at large with-  
 out credit—the results of observa-  
 tion and experience of sheep-killing  
 dogs, from which he was quite  
 sufferer during twenty-five years.  
 They slaughter their victims by  
 tearing open the large veins of the  
 neck and sucking the blood, they  
 never can be broken of this trick.  
 A single dog will sometimes kill  
 sheep, but generally there are two  
 —often a large and a small dog.  
 A sheep-killing dog will teach  
 others. The first time a dog kills  
 a sheep he will suck the blood, and  
 then eat some and be satisfied. He  
 will soon learn to kill several, suck-  
 ing the blood until he is full, eating  
 no flesh the first night. Any dog  
 that will chase sheep when out  
 alone, will sooner or later kill them.  
 A green dog will sometimes kill a  
 sheep in the daytime, but this sel-  
 dom happens. Nearly all the sheep-  
 killing by dogs is done in the night;  
 they are very cunning about it,  
 often going long distances from  
 home when there are plenty of  
 sheep close by. As a preventive  
 measure, bells are good; not small  
 ones, but three good-sized bells for  
 each hundred sheep. If, in spite of  
 this precaution, a sheep is killed,  
 say nothing. Skin it and let the  
 carcass lie in the same place. The  
 first night after killing the dogs will  
 not come, but the second night they  
 will be on hand. Cut four or five  
 gashes in the shoulder of the dead  
 sheep, put a small amount of first-  
 class strychnine in the gashes, and  
 have dead dogs. Mr. R. has  
 sometimes killed four dogs in one  
 night. He adds that "it is well to  
 keep the mouth shut," and concludes  
 with mention of a curious incident:  
 "One morning I found a small year-  
 ling killed, with a small round hole  
 eaten out of his fore shoulder. It  
 puzzled me. I knew it was not a  
 common dog. I told my neighbors  
 to shut up their dogs. The second  
 night after killing, I put in the  
 strychnine, and the next morning I  
 had the largest red fox I ever saw."

**Milk as a Vehicle for Quinine.**  
 Mr. R. L. Batterbury, M. D.  
 Lond., Berkhamstead, Eng., writing to  
 the British Medical Journal, observes:  
 "It is not, I believe, generally known  
 that milk is an elegant and convenient  
 solvent for quinine, and that it dis-  
 guises to a great extent its bitterness.  
 One grain of sulphate of quinine be-  
 dissolved in an ounce of milk, we shall  
 find that the bitterness of the  
 draught is hardly perceptible; with  
 two grains there is rather more bit-  
 terness, but it is not at all marked.  
 A dose of five grains may be taken  
 in two ounces of milk without an  
 unpleasantly bitter taste; and if the  
 same quantity be put into a tumberful  
 of milk the bitterness is all but lost.  
 This method of administering quinine  
 must in some cases be preferable to  
 the ordinary way of dissolving it in  
 acid or spirit, especially where the bitter  
 taste is objected to—as in the case  
 of children—or where the required  
 dose is large; and it will doubtless  
 be found to possess other advan-  
 tages."

**A Corrupt Pair.**  
 New York Sun.

That Henry Ward Beecher should  
 be a Grant man is in perfect ac-  
 cordance with the fitness of things.  
 It is eminently fitting that the  
 most corrupt preacher who ever  
 stood in an American pulpit should  
 be found advocating the re-election  
 of the most corrupt president who  
 ever sat in the chair of Washing-  
 ton.

**Definition Defined.**  
 Washington Post.  
 In the bright lexicon of radical-  
 ism a repudiationist is a man who  
 is unwilling to pay two dollars for  
 every dollar that he owes; and a  
 "knavish demagogue" is a man  
 who advocates such legislation as  
 will give to honest labor a fair re-  
 turn, not permitting a moneyed  
 aristocracy to be built up and fattened  
 on the toil of the masses.

Mrs. Henry Ward Beecher has  
 in press a new book, called "How  
 to Make Home Happy." Mrs. Henry  
 has had considerable experience,  
 but she has failed in the main work  
 required to make a home happy—  
 the training of a husband.

A Dutchman was seated in a shoe  
 store trying his best to get his un-  
 fair-like foot into a number 9 slip-  
 per. Said he to the clerk: "Say,  
 Mr. Clerk, dis varm vedder ish  
 shrinkin' up der slippers like der  
 tuiel. Dond it?"  
 "Dond it?"  
 "Dond it?"  
 "Dond it?"

Dean Stanley was surprised re-  
 cently at a station by a lean person  
 with a tuft of red chin whiskers  
 putting his head in at the car win-  
 dow, and shouting: "Hello, Stan-  
 ley! Howrah! How's Afrika?"

Scientific men say that a person  
 is half an inch taller in the morning  
 than he is in the evening. In spite  
 of this we all know that men get  
 fearfully high in the evening some-  
 times.

A clergyman asked some children  
 "why do we say in the Lord's prayer,  
 'who art in heaven,' since God  
 is everywhere?" A little drummer  
 boy answered, "Because his head-  
 quarters."

In the make-up of the modern  
 small boy there is altogether too  
 much whistle for the amount of  
 boy. It is most too much like using  
 a two-quart funnel in a three ounce  
 vial.

Secretary Evans has a farm in  
 Vermont. He keeps seven men to  
 work it—two to blast out the rocks  
 and the other six to haul 'em off  
 on another man's land.
