(Continued from last week.)

To the Hon. Board of Supervisors of Neshoba County:

Gentlemen:—I beg leave to report on the public roads under my supervision, as the law directs:

I have inspected the said roads and find them improving however a small per cent of my roads have come up short to what they should have been, although some of my contractors have done good work and to order.

I further report that the roads in my Dist. are gradually improving under the system which we now work them. I recommend to all contractors to look more closely after small bridges. Keep them repaired and rebuilt, also butments to large bridges, and keep causerways covered. So boys look after those small matters for they are necessary.

Respectfully,  
A E Harbour,
