Joe Bailey of Texas has been "mentioned" as the Democratic nominee for President.

According to newspaper reports, the crop outlook in some parts of the State is gloomy.

Spain has made Admiral Cervera a life senator. He is a brave and courteous naval officer, and is deserving of the honor.

The Mexican Pavilion at the World's Fair, St. Louis, is nearing completion. It will be the first government building finished.

About every working man in Chicago is on a strike—except the bartenders. The strikers can't afford to go without that "eye opener."

Let us all go on a strike until our delinquent subscribers send in their ducats. The strike fever seems to be in the air, and we might as well take a hand as not.

The barbecue and speaking at Macon next Tuesday promises to be a big affair. Most of the State candidates will be there, and an enormous crowd is expected to be in attendance.

It is estimated that the eruptions of the volcano Santa Maria, Guatemala, will cause a shortage in the coffee crop this year of 25,000,000 pounds. Look out for a corner in the coffee market.

Advices from Berlin state that Germany will send a fleet of her finest war vessels to participate in the naval display at Hampton Roads in connection with the opening of the World's Fair, St. Louis, May 1st, 1904.

Steps are being taken by a number of Protestant clergymen looking to a union with those of the Catholic faith in a war to be waged on the fast growing divorce evil. It is about time for the different churches to take the matter up.

A tornado struck Gainesville, Ga., on Monday, and at least one hundred people were killed and one hundred and fifty injured. Two thirds of the killed were women and children employed in the cotton mills, which were struck and two stories carried away.

The flood situation in Kansas is alarming. The territory affected stretches from Brookville, Kan., to Kansas City, a distance of two hundred miles, by from three to fifteen miles in width. Almost the entire territory is submerged in water from one to fifty feet in depth. Many of those rendered homeless are suffering for food as well as shelter, but everything possible is being done to relieve their distress. No reliable estimate can as yet be made of the loss either in life or property, but both promise to be enormous.

A mysterious tribe of white men and women are said to have been discovered in the interior of the Philippines. They are tall, light of complexion and have blue eyes, and take to the jungles in flight on the approach of strangers. They are supposed to be descendants of the survivors of a shipwreck centuries ago. The war department will send an expedition to make investigations.

The grandeur and power of Niagara Falls has been enlisted in the manufacture of cheap breakfast foods. It is only a step from the sublime to the ridiculous.

Manila is now said to be the cleanest city in the world. Before the advent of the Americans it was the dirtiest.

The Czar of Russia can close the columns of the newspapers of his own land against unfavorable comment upon the massacre, but he has no control of the press across the seas, nor can he be wholly indifferent to what it says. Unless the censor seizes his exchanges to tatters, he will be sure to find some highly interesting opinions these days. —Uncle (Ind.) Star.

The present investigation of the Panama canal route to ascertain its sanitary condition may show that it will be difficult for white men to live on the isthmus and prosecute the work, unless large sums of money be expended. It will be well, however, to reserve judgment until the official report has been received. —Red Wing (Minn.) Republican.

It is said that the scandals in the post office department are causing Postmaster General Payne so much worry that his health is breaking and he may resign. Payne was a man accustomed to handling large business interests prior to taking this position, but it was his misfortune to take hold just at a time when there had been such an accumulation of corruption that house cleaning could not longer be deferred. The scandal is by no means peculiar to this administration, but was going on throughout the McKinley regime and became especially flagrant when the conquests of the Spanish war afforded some extra choice picking. —Bloomington (Ill.) Bulletin.

READ IT IN HIS NEWSPAPER.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volks-Raum. He knows that this paper aims to do nothing but the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pain in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering like-wise will find relief in her wonderful recovery. This valuable liniment is for sale by M. E. Ward, druggist.

Roosevelt has captured some of the Populist vote, which reminds us that he looks like a Populist, talks like a patriot and acts like a Republican. —Memphis (Tenn.) News.

Senator Hanna has thrown up the sponge and Roosevelt gets the endorsement of the Republican convention in Ohio. We rather looked for the Hon. Marcus to do a little of the strenuous kick, but his kicker seems to be out of joint.

An exchange says it fails to understand why Missouri should have been so particularly favored by those baking powder bribers, when there were statesmen in forty-four other States and several Territories waiting to be thus insulted.

Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they tonic the liver instead of purging it. They never gripe nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, biliousness, jaundice, headache, malaria and ward off pneumonia and fevers.
