AND IT WAS THE SAME MULE HAD A TRICK WORTH WHILE

Friends Tell Good Story on Lawyer Who Has Risen to High Position in State.

Col. W. H. Holmes, state superintendent of game for the department of conservation, was admitted to the bar on reaching his majority. His first case was to prove that a certain mule belonged to a certain negro. He won the case.

Subsequently in another mule case he proved the animal belonged to another negro. Then he was elected district attorney, and the first case he had to prosecute was one concerning a mule. The mule had been stolen and was over the line in Mississippi. He was going to abandon the case, when one of his former clients approached him and said:

"Counsel, if I was you all, I'd go after that mule. Dat's de mule been suppositin' you ever since you was a lawyer."

And in all three cases it was the same mule.—New Orleans Times-Picayune.

Society Beggar Knew How to Get on the Soft Side of Mrs. Gobsa Golde.

"Charity begins at home," said Dr. Wilbur P. Crafts of the International Reform bureau of Washington, "but no truth is so disregarded as this one."

"Two beggar women met on the street one day."

"Fine coat you've got there. Where did you land it?" said the first beggar woman.

"Old Mrs. Gobsa Golde gave it to me," said the second beggar woman.

"Is that so? I've begged at Mrs. Gobsa Golde's hundreds of times, and she never gave me a cent. How did you work her?"

"Well, you see," said the first beggar woman, stroking her new coat complacently, "I didn't tell her I was begging for myself. I pretended I was begging for the heathen."

The Rural Cynic.

"Hiram," said Mrs. Cornstossel, "the boarders will soon be along enjoyin' the fresh air and admirin' the scenery."

"I suppose so. But my suspicion is that while they talk about air and scenery, what's on their minds is keepin' down the cost of livin'."

JEWELS THE MODE

Vogue for Ornaments Results in Use of Many Pieces.

Marked Demand for Novelty Decorations to Enhance the Beauty of American Women.

One might suppose that after the continued craze for the wearing of so much jewelry would be a reaction. But this reaction has not come. The vogue for a great deal of jewelry does not fit in with the present-day standards of dress, which are of the simplest. It would appear that the love of barbaric ornamentation of the cave woman must find expression today as it did long ago. Jewelry, both with the Parisienne and the American woman, becomes more and more elaborate and an increasing number of pieces are worn at one time.

The demand for novelties of all sorts as well as for jewelry still is great. It seems that no piece of jewelry can be too fantastic to find favor. The snake design still continues very fashionable. The newest snake bracelets are made of diamonds and colored enamel. It is considered smart to wear a set of snake ornaments consisting of a bracelet and a belt made of gold and enamel, or the belt may be made entirely of gold.

Beautiful necklaces also are shown in this same form composed entirely of diamonds with a huge diamond pendant suspended from the snake's mouth. The necklaces and bracelets are very flexible.

The ideas exploited in purses are legion, not only in regard to the shape, the size and the material but the way in which different leathers and silks are put together. Flat envelopes are made almost like small writing cases. These may be of the softest of leathers completely covered with elaborate

THE HARDING BLUE SWEATER

This winsome sweater, in the new Mrs. Harding blue, is very likely to be the craze this summer.

silk embroidery. Both sides of the purse are alike. Black and white combinations frequently are seen in this type of purse; that is, the case may be of white leather with a scroll embroidery in black satin, or of black embroidered in white.

SPRING FASHION NOTES

The newest riding habit has a fitted coat with flaring skirt.

Motifs of dull wood embroidery appear on tricotine dresses.

A suit of gray wool gabardine is trimmed with green linen.

Narrow patent leather belts are worn with the overblouse.

Double stitching is used as trimming on tailored serge suits.

Blouses and belted jackets of linen are worn with woolen skirts.

Waistcoats are elaborately embroidered, and in vivid colors.

Fancy checked linen and taffeta silks are combined for dresses.

The junior's gingham dress has a panel front and rounded neck.

The waistline of the suit-coat is sometimes marked by stitching.

Large plaids in three-color effects are seen among spring suitings.

The afternoon frock may have a V-shaped neck filled in with lace.

Blouse-gilets are made of brocade, and have high collars faced with satin.

Neckwear will be seen in such colors as rose, orange, henna and tomato.

Spring coats boast scarfs of self-material finished with looped leather fringe.

ECONOMY TO HAVE MANY HATS

Summer Headgear Given Time to Rest Between Times Will Make Better Appearance.

One thing to remember in the summer, even more than in the winter, is that several hats worn successively give much better results than one hat worn until it is gone and then another one. For, if you give your hats time to rest between times, they look far better. Brush them and sometimes wipe them off with a damp cloth and when they get damp dry them carefully, keeping the brim shape either by flattening it down on a table or by rolling it to the proper curve with the fingers.

Short Silk Coat a Novelty

Light Weight Outer Garment Fashioned Either in Tuxedo or Brief Coat Fashion.

Short silk coats lined with charmeuse and fashioned either in tuxedo or brief coat fashion are a novelty.

These coats belong in the category of bodices rather than of wraps, although they are worn over delicate blouses. Rarely, however, is the coat removed.

The sleeves may be set-in, raglan or kimono, according to the fabric employed and the length of the coat.

One pretty model is of bright blue Canton crepe. The coat just clears the top of the hip and is cut in flaring box shape. It has the high color characteristic of these modes, is lined with apricot charmeuse with the lining brought over as the outside facing instead of having the coat fabric turned in as the inner facing, and effecting a piping of the apricot against the blue.

A straight skirt of white vivella flannel with three-inch hem falling to within nine inches of the ground, and a blouse of heavy white crepe de chine on simple tailored lines with inch-wide streamers of jade green velvet pendant from the base of the rather high V-neck complete this typical costume scheme.

The hat shown with this model was a short-backed poke in a rough braid of jade and bright blue, trimmed only with a sash of apricot ribbon that was tied in a huge floppy bow on one side.

A similar costume for more mature

women—though maturity is dabbling recklessly this season into all color schemes that fashion's palette affords—had a tuxedo coat of tete de negre taffeta lined in silver gray charmeuse. The skirt was a side-plaited model of pearl-gray cashmere with three-inch wide rows of tete de negre silk braid running vertically from the waist to hem down the front breadth on either side of the narrow side plaits that gave ample room for the wearer's substantial figure.

Household Hints.

Egg yolk in warm water removes coffee stains. Pastry requires a hotter oven than any other food. Silk, not cotton, should be used when bastening velvet. Mushrooms and tomatoes stewed together are delicious. Linseed oil on a soft rag will polish fireplace tiles. Roller shades of printed chintz are best for the sun parlor. Beans will take the place of meat for two meals each week. Canned pimientos combine well with canned pears for a salad. When making cherry salad add cherry juice to the mayonnaise.

Figs Stuffed With Cheese.

Mash some cream cheese, moisten with heavy cream and season highly with salt and cayenne pepper, then make into balls three-fourths of an inch in diameter. Wash and dry some figs, make an incision in each, and stuff with cheese balls. Serve as an accompaniment to dressed lettuce or any light dinner salad.

The Responsible Party.

Jimmie's report card was full of distinctly poor grades and the mother was scolding him about them. She even threatened to deprive him of picture shows if they were not made better. "Why, just look at Teddy S—," she said. "Almost every one of his grades was excellent."

Jimmie's downcast face became even more so. "Well, it's your fault my grades aren't as good as his," he declared.

"My fault," ejaculated his mother. "What nonsense! How did you get that?"

"Well, his father is a widower and the teacher is looking for a husband," came back his perfectly lucid answer.

Remarkable Strata.

While drilling a test well for oil on the Turkey Track ranch near Spearman, Tex., W. Scott Heywood and associates discovered a deposit of salt which is 111 feet thick. This salt strata was encountered at a depth of 700 feet, and what is said to be the most remarkable thing about it is that no water was encountered. Neither has there been any water found anywhere else in the well, which is now at a depth of more than 2,700 feet. The fact that there is no water above the salt bed makes the mining of the product an easy matter, it is said.

Potash for Side Dressing

For side dressing cotton, corn and other Southern crops,

200 pounds Kainit, or
125 pounds 20 per cent Manure Salt, or
50 pounds of Muriate of Potash,

furnish the same amount of Actual Potash which is so profitable in preventing cotton rust and in increasing the yield of cotton, corn and general crops.

These are the three Standard German Potash Salts that have been used for generations to great advantage in the South.

Having planted the crop, one cannot afford to let it starve. A good side dressing may make all the difference between success and failure.
