GEORGE T. MITCHELL

E. S. CANDLER, JR.

The iron region around Birmingham is in the midst of a big strike which is on because of the failure of the unions and operators of the large plants to agree on prices. Rioting has taken place and the officials have found it necessary to call out the state troops.

Mr. Gompers, the head of the federation of labor unions has declared his intention to support Mr. Bryan and will take the stump in favor of the democratic ticket. It is up to the workingmen to show whether they have the manhood to exercise their inalienable rights to vote as free men. Mr. Gompers can only advise; it is left to every individual voter to say for which party his ticket is cast.

One of our exchanges calls attention to the fact that Moses was the first journalist because he wrote on the tables of stone, but Noah went him one better than this. He advertised. Noah built the ark and announced the day of sailing. He whooped things up lively and made a grand display. The non-believers scoffed at him and perished in the wet water. This again shows that the man who advertises will win out. You can't keep a good man down especially one who advertises.—Chisley Verdict.

We have just received from Hon. James T. Loyd, chairman of the democratic congressional committee at Washington, a copy of "Republican Extravagance" the hand book which will be used to expose the extravagance of the republican party during the coming campaign. The committee will send this book to anyone for twenty-five cents and as it sale is for the purpose of raising funds to defray the expenses of the campaign, every democrat should send in the amount without delay.

Federal Judge Kohlsaat, sitting at Chicago, declared illegal all contracts between newspapers and railroads where by the roads exchange transportation for mileage. This decision was rendered in a test case in which the Monon railroad sought to test the Hepburn act. The case in point only decided the question of interstate transportation, and will not affect the right of the railroads and newspapers to exchange mileage for advertising in states where there is no law against it.

In a message to congress in the early part of last session President Roosevelt said: "Instances of abuse in the granting of injunctions in labor disputes continue to occur." Yet, at the Chicago convention there was an overwhelming vote in opposition to putting a plank in the platform doing away with the evil features of injunctions. Mr. Taft will hardly follow the president in his speech of acceptance in calling attention to the fact that these abuses occur. Mr. Taft is on record as a federal judge on "injunctions" and will have to stand or fall by his judicial holdings when it comes to the test.

Land for Sale.

I will sell 320 acres of my farm on Mud and Town Creeks, all in bottom except about 20 acres 4 settlements, 2-3 cleared up and in cultivation, two good wells, lies 4 miles north of Tupelo, sell 1/2 and balance on long terms. Will sell in small blocks if desired.

Jno. Silas Thompson.

Late Cultivation of Cotton.

This is a very important time in the cultivation of cotton. With occasional showers and rains, giving plenty of moisture for the growing crop, will cause some neglect breaking the crust thus forming a dust mulch. The cultivation should be shallow and nearly on a level, keeping a loose blanket of fine earth all over the surface. This will prevent the too rapid evaporation of moisture and will allow an easy passage of air through the soil which aids in the liberation of plant food. By going shallow, fewer roots are broken and the plant is kept growing. If deep cultivation is practiced, the plant is checked in its growth by having a great many of its roots broken, thus cutting off its supply of plant food. It then becomes for the plant to throw off a portion of its fruit, because the roots being cut off, and consequently the supply of plant food is cut off, as well, the root system not being sufficient to support so heavy a crop.

Neglect in the cultivation will cause to shed. If the crust be not broken, the soil dries out rapidly, the air is excluded, and again the supply of plant food is not sufficient, because there is not enough moisture to supply it.

I would, therefore, urge late cultivation, going about an inch and a half deep with either a heel sweep or a light "V" harrow with a dust board attached to the back of it. If the cotton were cultivated in the above mentioned manner, the yield per acre would be greatly increased.

H. D. TATE.

Push.

An exchange suggests that if there were more push in the world there would be fewer hungry, half clothed, homeless, suffering children; fewer broken down, dissipated men and women less need of alms houses, houses of correction and homes for the friendless. Push means a lift for a neighbor in trouble. Push means a lift for yourself out of the slough of despondency and shiftlessness, out of trouble, real fancy. Push never hurts anybody. The harder the push the better, if it is given in the right direction. Always push up hill—few people need a push down hill. Don't be afraid of your muscles and sinews; they were given to use. Don't be afraid of your hands; they were meant for service. Don't be afraid of what your companion may say. Don't be afraid of your conscience; it will never reproach you for a good deed—but push with all your heart, might and soul. Whenever you see anything or anybody that will be better for a long time, strong, determined push.

Push! It is just the word for the grand clear morning of life; it is just the word for the word that is full of work as this is. If any body is in trouble and you see it, don't stand back, push!

If there is anything good being done in any place where you happen to be, push!

Resolutions of Sherman Normal.

Be it resolved, on behalf of this body of teachers, that we do hereby express our appreciation to Messrs. Donaldson, Schumpert, Newell, and Thompson for their very faithful and efficient work, and for the interest they have manifested in our behalf.

And we specially tender Mrs. Hardy our undying gratitude for valuable instruction and lofty inspiration prompted by her passionate love for her work. We surely expect great things from her untiring efforts in this Normal.

And all praise be to her for an unusually attractive and successful feature "The Story Telling Club" which was the first organization in Mississippi by a State Normal.

We feel confident that we voice the sentiment of all who have been privileged to attend this "Feast".

When we say the coming among us of these excellent instructors will ever be a sacred place in our memory, and we sincerely hope to meet oftener, know more of each other, and grow stronger in this noble work.

Furthermore we feel that these resolutions would be incomplete without expressing our thanks to the State Superintendent and all others concerned, who have been so instrumental in favoring us with this Normal.

Cans for Sale.

I have a few thousand solder hemmed caps, No. 3 cans for sale at \$2.50 a 100 or \$20.00 a 1000. G. T. HOWERTON, Guntown, Miss.

Resolutions of Thanks.

Whereas, in view of the fact that the first session of the Sherman State Normal, which closes today, has surpassed the most sanguine expectations of all concerned, not only attendance but also in the degree of serious and conscientious effort manifested, and

Whereas, great and lasting good will result to the school interests in the counties represented and

Whereas this success has been made possible to a great extent by the hospitality and interest shown by the citizens of Sherman, therefore be it resolved

1st, That we hereby extend to the Board of Aldermen, Trustees, and to Mr. Jno. B. Thompson our most hearty thanks for the use of school building, grounds and city.

2nd, That we, as a body, are sincerely grateful to the citizen especially to the ladies, for the many courtesies and attentions received; all of which have made even our work a pleasure.

3rd, That we unanimously endorse the plans of the state and county superintendents for the new and better the life, spirit and general conditions of education.

4th, That we hereby promise individually to do more for the schools, under our care and the communities in which we teach than ever before.

5th, That a copy of these resolutions be furnished to each of our county papers.

JNO. A. DONALDSON.

BAILEY T. SCHUMPERT

S. W. NEWELL.

Sherman State Normal.

We the people of the town of Sherman desire to make known to those in attendance at this Normal, what a great pleasure it has been to us to have these worthy and noble young ladies and gentlemen with us.

They have striven earnestly to make the best preparation possible for their great work in life and we are glad to have them in our homes and among us.

They give us an inspiration for the higher and better things in life.

They raise our moral and religious standing. They elevate us both intellectually and socially.

They encourage our children and show them that in order to meet competition and attain the more lucrative position in any line of business we must study we must toil upward in the right.

As to the instructors we are proud to know they have held one of the best and most successful Normals in the state.

Through their untiring efforts the young teachers have achieved great things. The instructors found they had no place in their curriculum for the Campus Course hence it has been left out. We now extend to every one a hearty welcome to return next summer. We also appreciate the compliment as well as the wisdom of the County Superintendents for selecting our little town for a permanent Normal.

Most respectfully submitted by the Mayor and board of Aldermen in behalf of the citizens of the Town and vicinity.

D. H. DAVIS, Mayor.

Call for Democratic Executive Committee.

A meeting of the Democratic Executive Committee, of Lee county is called to meet at the court house in Tupelo on Thursday, Aug. 6th 1908, for the purpose of organization and to select managers for congressional primary to be held on Aug. 20th 1908. Please be present.

R. S. THOMAS, Chairman.

Knights of Pythias Boston. Mass

For the above occasion the Mobile & Ohio Railroad will offer reduced round trip rates; tickets to be sold July 30th to Aug. 4, inc. limit 1. For return on or before Aug. 16th, 1908. A delightful trip, with the option of going and returning partly by water. For full particulars apply to your Ticket Agent or write to Jno. M. Beall, General Passenger Agent, Mobile & Ohio R. R. St. Louis.

"Hurry up that STAR"

No man likes to be without a plug of "Star" in his pocket. There's a generous treat in every bite—a wholesome satisfaction that has made "Star" the standard chew.

STAR

PLUG CHEWING TOBACCO

Just as chewing is the most economical form in which tobacco is used, so "Star" is the most economical chewing. Though the best the market affords "Star" is the cheapest because it is made in full 16 oz. plugs of choice, sweet, best-bodied leaf. It makes a more elastic and lasting chew than the flimsy, tender, light-bodied kinds that "chew up" so quickly.

Increasingly popular for forty years and to-day the standard chew.

150,000,000 roc. pieces sold annually.
