What They were Going to do with Him.—A few days since, a party of eighty North Carolinian emigrants en route for Oregon, passed through Danville, Missouri. While stopping to make some purchases, one of them was pounced upon by a lawyer of the town, who indulged largely in the not exclusively Yankee recreation of asking questions. The emigrant was quite communicative, and told him that they were going to found a town; the pursuit of each person was already marked out, and there were no drones among them. What was this man to do? He was to open a store. And that? Start a blacksmith's shop. And the other standing behind him? Engage in sheep-raising. So they were nearly all inventorized, when a decrepid, white-haired octogenarian, ancestor of about half the company, and looking venerable enough for old Time himself was observed sitting in one of the wagons.

"Why, who is that?" asked the eager questioner.

"That's my father."
"What is he going to do? He can't be of any use to

THE AURORA BOREALIS EXPLAINED.—A scientific gentleman in Illinois thus gives the origin of this celestial visitor: When the molofygistic temperature of the horizen is such as to calorizise the impurent indentation of the hemispheric analogy, the cohesion of the borax curbustus becomes surcharged with infinitessimals; which are thereby deprived of their fissural disquisitions. This effected, a rapid change is produced in the thorambump or of the grasentes palerium, which causes a convolcular or of the gyascutos palerium, which causes a convalcular in the hexagonal antipathies of the terrestrium acqua veresli. The clouds then become a mass of deodorum-ised speculæ of cermacular light, which can only be seen

### SPECIAL NOTICES.

Important to Strangers, and others requiring

Medical Treatment.

On DR. YOUNG is the "Pioneer Advertising Physician" in California, and the only one now advertising who has received a regular Medical education which is requisite for the successful treatment of disease. Because of his unparalleled success, there have sprung, from time to time, into existence, imposters, without character or education, who, by boast ng, have managed to deceive the unwary sufferer into the belief that they were respectable and scientific men. In so doing, they have scattered broadcast their nostrums among the honest and unsuspecting, to the destruction of health, and, in some cases, of life itself. Beware of them as you would the Upas tree, for they are as destructive. DR. YoUNG'S Office is at No. 210 Clay street, opposite the Plaza Hotel, San Francisco, Cal.

The following letter which emphatically speaks for itself, was written by the Dean of the Faculty of the Philadelphia College of Medicine, to the editors of the Pacific Medical and Surgical Journal, San Francisco, for publication:

San Francisco, for publication:

Bill.ADELPHIA, January 17th, 1859.

To the Editors of the Pacific Medical and Surgical Journal—Gentlemen: My attention has been called to an article in the December number of your Journal, in regard to the ad eundem degree granted by the Philadelphia College of Medicine to Dr. L. J. Czapkay. When the application for the degree was made to the Faculty, it was accompanied by affidavits and testimonials to the effect that Dr. Czapkay was a regular graduate M. D. of the University of Pesth, had served as a surgeon in the Hungarian army, and was a regular practitioner of medicine. On the strength of these, the degree was granted. The ad eundem degree, as its name implies, is conferred on graduates only, and gives us new privileges. Had there been the slightest suspicion of irregularity, the application would have been refused. By inserting this in your Journal, you will do an act of justice to the College, and confer a favor on H. RAND,

Dean of the Faculty of the Philadelphia College of Medicine.

DR. L. J. CZAPKAY'S Medical and Surgical Institute is on Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office, San Francisco, California. The Doc-tor offers free consultations, and asks no remuneration unless he

effect a cure.

CERTIFICATE.

I, the undersigned, Governor of Hungary, do testify hereby, that Dr. L. J. Czapkay has served during the contest for Hungarian liberty, as Chief Surgeon in the Hungarian Army, with faithful perseverance, whereof I have given him this certificate, and do recommend him to the sympathy, attention and protection of all those who are capable of appreciating patriotic self-sacrifice and undeserved misfortune. KOSSUTH LAJOS, Governor of Hungary.
