Inspector Smith was sent for, and, after being refused admission, he battered in the door. Hayes refused also to open the inner door, and the men had to jump over the counter and burst it open.

Formal possession was taken of the office, and a policeman was left there to guard it during the night.

There is much fear and trembling among the employees of the different Boards as to how long they will be in office. This is especially true of those who have fatted on the soup of the Board of Works. President Somers assured me last night that there will be no immediate changes, and that perhaps there will be none at all.

the new officials were on hand early, and in possession of their offices. A constant stream of visitors poured in upon them with congratulations, and not a few dropped a hint as to the position in which they would like to serve the city of the usual rate.

I learned, however, from a person in a position to know, that the two factions had made an agreement whereby the old Boards and officials promised to quietly give up all offices now in their possession, open the safes which are now closed, and surrender all books, papers and other matters in their possession relating to the business of the city. In return for this the new charterites will waive all technicalities and offer no legal obstacle to a speedy hearing of an appeal from the decision of the Court sustaining the charter.

same amount, and those of the Deputy City Comptroller at \$50,000.

Mr. German's salary was fixed at \$1,500 a year until further orders, and the clerk was directed to communicate with each member of the old Board, and request him to turn over to the Board all papers he might have relating to the business of the Board. The clerk was also directed to request the various city depositories to send to the Board at once a statement of the city's balances, with a particular statement of the 'temporary loan bonds held by them against the city up to and including today. The various Boards were requested to send in their estimates for the next fiscal year by June 20.

Monday was fixed as the regular meeting day of the Board, and 500 copies of the new charter were ordered printed. Commissioner Kenny introduced a resolution which sent a shiver down the spinal column of the clerks and officers of the city appointed by the Board. The resolution directed the clerk to prepare a list of such persons, together with the salary they receive, and the date of their appointment.

Messrs. Kenny and Hillier were appointed a committee on rules, and then the Board turned its attention to the Board of Street and Water Commissioners. The clerk was directed to notify that Board that no resolution passed by it to pay any claim for work done or materials furnished would be concurred in by the Finance Board unless the same were accompanied by a certificate from the Chief Engineer giving an approximate estimate of the cost of each improvement.

I am more than surprised at the response the children have made to my address. They will make a good show; many have brought as high as \$2 each: others will by Monday bring more. I have received also, so far, about two tons of parcels, brought here by the children, for Johnstown's sufferers. I myself gave \$5, and the teachers have also contributed." Number 2, Principal Denis B. Kirby:—"I addressed the children last Monday, prior to the official notice I have since received. I spoke to the children on each floor about the calamity. I told them of children leaving their homes in the morning to go to school, and before the noon recess they, their parents, their homes, their schools, their churches, had been swept away in death and ruin. The children have already given more than I expected, and before the lists close I believe we will have a good showing." of the mixture to paint the hall of the cottage.

Another "iceman" has been arrested by the police on suspicion of knowing something of the Cronin murder. The man lives on the Southside, and is an ex-employee of McGinnis, the ice dealer, with whom he enjoyed a good position. His wife, as the result of a quarrel, has reported very important information to the police, and detectives were scouring all the divisions of the city for the man last night.

The arrest was ordered to be carried out with the greatest secrecy.

At half past eleven last night a man was locked up in the East Chicago Avenue Station whose name was said to be King. He is wanted in the Cronin case, but in what connection could not be ascertained. Chief Hubbard denies that King was the name of the iceman whose arrest was ordered. He said the iceman was an Irishman, but his name had slipped his mind. By some it is said King is Woodruff's famous companion and that his identity is well established. GOOD WORK AT NO. 4 SCHOOL.

You can say," added Miss Stanley, "that Public School No. 7, children and teachers, will not be found lacking in their answer to the call for aid."

Mr. Kirby, the principal of No 2, has received \$52 for the fund and expects to double that sum. Among the stately pupils of the High School the relief fund was a complete suc-cess. Contributions are still coming in.

A HANDFUL OF PENNIES. Principal J. H. Brensinger, of No. 3, as-sembled his scholars the other morning sembled his scholars the other morning and made an appeal to them for the relief fund, and they responded nobly. Large childish eyes grew dim as Miss Outwater, the principal of the Primary Department of No. 3, told her little charges the story. And how they worked!

"I got twenty-five cents from papa and twenty-five cents from manning and

"I got twenty-five cents from papa and twenty-five cents from mamma and some from auntie and ten cents from baby," cried one little fellow, as he rushed in pell mell with his contribution, not the least part of which was the haidful of tightly clasped pennies that he haidful of tightly clasped pennies that he had taken from his own bank.

One hour after speaking to the children Miss Outwater had \$24. "All that money in an hour," murmured a bluegred girl, to whom it seemed large enough to pay the city's debt, and a chorus of "Ohs" echoed her wonder.

The following letter from Principal Brensinger, of No. 3 School, explains itself:-

I have just paid Dr. L. J. Gordon my first installment of money for the Johnstown sufferers—School No. 3, \$123.43. School No. 17 has just

sent \$20 as their contribution. Little May Per-kins collected \$5.

A LITTLE POETESS. At No. 11, on Bergen avenue, Principal William B. Du Rie, there are 1,055 children, and Mr. Du Rie greeted the News reporter cordially, as he said that the children had, in response to his address, brought in their dollars, halves, quarters, dimes and pennies so liberally that he and the teachers were all proud of their young scholars.

Miss Frances Soper, the principal of the primary department, was justly proud of a simple, pathetic composition, entitled "The Valley of Death," written by little ten-year-old-Jennie Davis, of No. 332 Delaware avenue, of the Seventh Grade.

SCHOOL NO. 12. One of the largest contributors to the fund among the public schools is a chool No. 12, of which Mr. A. D. Joslin is the principal. But No. 12 is a big school and a rich one. GAVE UP THEIR PRIZE MONEY.

One of the most prominent of these was made by the Fourth class, which is taught by Miss Devanny. For some time past the class has been saving money for the purpose of purchasing prizes to be awarded to those of its members who pass the best examination. The class had saved \$8 in this manner, but when they heard of the distress and suffering in the Conemangh Valley their little hearts were moved with sympathy. A meeting of the class was held and a proposition was submitted to the members to contribute the money saved for the prizes to the Johnstown sufferers' fund, and when a vote was taken it was found that everyone present had voted in favor of the contribution being made.

NEWSBOYS SPERAD THE STORY.

At No. 21, Principal Joseph H. Evans said:—"This is a poor community, yet we have about \$800 children. Many of the boys sell newspapers, and it is astonishing how much those little fellows know. We have some who sell THE JERSEY CITY NEWS, and I think it is becoming a favorite among them. I addressed the children on each floor in regard to the Johnstown calamity, but the newsboys had already spoken a great deal on the subject, and in every one of the classes I found that the children knew a great deal about it.

Johnstown, June 11, 1889.-Another twenty-four hours has passed, and, after a trip over the entire flooded district, it is a trip over the entire flooded district, it is apparent that a vast amount of work has been accomplished. Piles of ruins that appeared to be insurmountable are gradually fading away before energetic work. Owners of houses have commenced cleaning out their own residences.

Storekeepers are also commencing to take their goods from the general wreck to the creek to clean them and see what they can recover from the effects of the flood.

HENNESSEY'S ALL RIGHT.

Charges of the Judge in the Two Cases Now Ended.

When THE JERSEY CITY NEWS went to press yesterday afternoon, counsel in the case of Freeholder Hennessey on trial in Judge Lippincott's Court for forgery, were summing up.

Allen McDermott, for the defense carefully went through the indictments, and fully went through the indictments, and claimed that the Grand Jury exceeded its jurisdiction, and should be condemned for its action in framing an indictment against Michael Hennessey for forging the name of James O'Neil to enable him to obtain warrants. He claimed there was no testimony to show that Freeholder Hennessey had committed a forgery, and that any Freeholder has a right to take a warrant, after signing it, to the County Collector and have it cashed, and then turn over the amount to the person he represented, and to whom the money was due. There had been no evidence offered to show that the county or James O'Neil had been defrauded. To show forgery the Jury must show that Hennessey signed the name of James O'Neil on the warrant, and no proof to that effect has been offered.

There is nothing to show that the James O'Neil, of 156 Steuben street, is the James O'Neil, of 156 Steuben street, is the James O'Neil whose name is on the warrants and there are thousands of James O'Neils in this county and on Steuben streets. This is a presumption of a Grand Jury to endeavor to fasten this on this young man who has often been elected to office and who has been faithful to his trusts, "and gentlemen," Mr. McDermott concluded, "you can not find evidence sufficient to convict him."

Prosecutor Winfield said that when the bill says "No. 156 Steuben street," it naturally means this city. The record shows that Chairman McDonough ordered these goods, which were received. It is plain to be seen that Hennessey was the mover in the act. Now Hennessey may escape conviction for forgery, but he is guilty of having furnished goods to a Board of which he is a member contrary to law.

Counsel went over the evidence to show that Hennessey received the warrants. claimed that the Grand Jury exceeded its

Judge Lippincott said he would not charge the jury until this morning. THE JUDGE'S CHARGES.

The JUDGE'S CHARGES.

The Judge began his charge when court opened today, and said:—"This case, gentlemen, has received the attention of the Grand Jury, or else the indictment would not have been before you for consideration. The defendants are indicted for malfeasance in office. They are part of the Chosen Freeholders of the county, and as such are responsible for their conduct."

After referring to the bills for asphal-tum and turpentine and their alleged il-legality the Judge continued:—"The money apparently found its way to the hands of Freeholder Hennessey through a check given by the County Collector. The warrant given the Collector was drawn to the order of O'Neil and endorsed by Hennessey

drawn to the order of O'Neil and endorsed by Hennessey.

"The Court now asks:—First, was it a false and fraudulent claim in the way of being excessive or exorbitant, for if not found so there can be no verdict against the defendants; second, if the claim is false, did the defendants know it was fraudulent?

"You have heard the evidence concern-ing the asphaltum, and it brings the

ing the asphaltum, and it brings the nty in debt You may leave th

ing the asphaltum, and it brings the county in debt. You may leave this out of the case, for there could scarcely have been fraud in selling the county at a lower price than the market prices.

"And right here there may be a little difference in price, but that may not be fraudulent, for market values vary. If they had no knowledge of fraud, then these defendants cannot be held. There must have been a corrupt intention. The first thing for you to consider is whether the defendants had a corrupt knowledge of fraud when the alleged offence was committed. If you find the bill a true, honest and just bill then your verdict must be for acquittal."

The Court then said about the same of the turpentine bill, and said that both bills must be taken together, and if so done it would still leave the county so better off than if market prices were paid.

The Court concluded the charge by informing the jurors that they may find a verdict for or against any one or all of the defendants.

CHARGE IN THE HENNESSEY CASE.

defendants.

CHARGE IN THE HENNESSEY CASE.

Immediately after the Court charged the jury in the Freeholders, cases it called the jury in the Freeholders, cases it called the jury in the case of Freeholder Hennessey, indicted for forgery.

"Bills were presented in the name of O'Neil," said his Honor, "and warrants were ordered drawn and given to Hennessey, who is charged here with having forged O'Neil's name. The right to use a fictitious name to defraud is denied and if done would constitute a guilt, and defendant would be guilty of forgery with attempt to defraud some other person than the ficticious person. If the defendant made use of the name O'Neil with intention of defrauding any one he would be guilty."

The Court then told the jury that it must ascertain whether O'Neil's name was that of O'Neil, of Steuben street, in order to learn whether the name used was fictitious or not. Every reasonable doubt must be given the defendant and the jury must be satisfied that fraud was intended.

The Court said that if a fictitious name was used to defraud the county Hennessey would be guilty of forgery. A member of the Board of Freeholders is prevented from furnishing supplies to the Board he belongs to.

"The Court has a right to ask you here," he continued, "whether there has been the slightest evidence that fraud has been committed, and to tell you, if you have not found any, then this defendant is not guilty."

It was fifteen minutes past eleven this general and the court finished.

have not found any, then this defendant is not guilty."

It was fifteen minutes past eleven this morning when Judge Lippincott finished his charge to the juries in the Freeholders, and Hennessey casey. The courtroom was well crowded by politicians who watched the Court attentively while the charges were being delivered. The indicted men did not lose a word that was said and Counsellors McDermott and McGrath looked satisfied and happy.

The jury in the Freeholders case were out about twenty minutes when they returned, and to the great joy of the indicted Freeholders rendered a verdict of not guilty.

The jury in the case of Freeholder Hennessey brought in a verdict of acquittal this morning.

President Somers said that he anticipated no trouble. If the members of the old Board should attempt to enter the place for the purpose of holding a meeting they will be ejected.

The first meeting will be held at nine o'clock Wednesday morning, when routine business of the old Board will be wound up speedily.

Two policemen were on duty at the building all night and they were cared for by Janitor Charles Conway.

BREAKING IN THE DOOR.

At a few minutes before six o'clock a raid was made on the office of City Comptroller Love. Mayor Cleveland, Sheriff Davis and President Somers, of the Board of Works, knocked at the door and demanded admission. John Hayes, a clerk in the office, left there by Mr. Love to grand then laces and resisted them admission to consult the places refused them admission.

Considerable comment was occasioned among those who were about the building when ex-Mayor Collins and ex-Judge Seymour, the counsel for the old Boards, came up the street and met Senator Edwards in the hall near the Mayor's office.

NEW TERMS MADE.

The three went back to the City Clerk's office where they were closeted together for some time. When they came forth I asked Mr. Collins and Senator Edwards what the object of the conference was, and they replied that it amounted to nothing.

The clerk was ordered to call upon the members of the old Board of Assessors to turn over all books, maps and other papers or property in their possession relating to the business of the city, and the clerk was directed to receipt for the same

and the cierk was directed to receipt for the same.

A resolution offered by President Lawrence was adopted, which set forth that as the time for making the assessment of all real and personal property in Jersey City is at hand, the Board would respectfully request all persons who desire to bring any alleged inequality or undervaluation of real and personal property heretofore existing to the Board for reconsideration and review and present their complaints, personally or in writing, to the Board at its office in the City Hall between ten a. m. and three p. m.

The immediate attention of all persons interested is urged in the matter. Messrs. O'Donnell and Prigge were appointed a Committee on Rules and the Board adjourned subject to the call of the chair.

NO MORE BOARD OF WORKS.

It Was the Street and Water Commission Which Sat Today. Yesterday it was the Board of Works in the city's big brick building on Jersey avenue and Mercer street.

Today it was the Board of Street and Water Commissioners under the new charter.
The three new Commissioners held numerous private consultations prior to the meeting, and Sheriff Davis seemed to act in the capacity of a private counsellor. Ex-Clerk Martin Finck was also present and volunteered to assist Clerk Bou-ton, but his services did not appear to be in demand

Patrick Connelly's petition for a water pipe in Nelson avenue was ordered to be referred to the proper committee when appointed, and petitions from P. J. Condon, C. H. Binder and H. Newman for masons' licenses, from Henry Schufflebotham for plumber's license, from J. C. Appleby and others for permission to lay an eighteen inch pipe sewer in Harrison avenue, were received and referred to Committee of the Whole.

Resolutions were subsequently passed in each case granting the desired privileges and also one making July 15 the time for hearing remonstrances on applications heretofore made for improvement of Griffith street and construction of a sewer on Cambridge avenue.

The resignation of D. J. Cambreling as Inspector of Neptune avenue sewer was received and accepted, and on motion, the president appointed Commissioners Dugan and Var. Keuren a committee to formulate new rules for the government of the Board.

The Anti-Charterites Say the Others May Be Impeached or Indicted. When Chief Justice Beasley made his de liverance on the charter question yesterday afternoon, Senator Edwards entered judgment, but so far as can be learned the judgment of ouster has not yet been

signed by any Judge of the Court.

Ex-Judge Seymour, on behalf of the old Boards, immediately served a writ of old Boards, immediately served a writ of error in the Supreme Court. If the charter people will consent, he says, the appeal may be heard at the term of the Court of Errors to begin next week.

A number of city officials under the old Boards whose offices were taken violently from them last evening were in consultation with their counsel this morning. City Collector Love and City Treasurer Nugent were in an especially anxious frame of mind. They are under over \$100,000 bonds each for the careful custody of moneys in

ench for the careful custody of moneys in their possession, and when they left their offices last evening they left large sums of money in their safes. During the evening new Collector O'Neill secured an entrance to the City Collector's office, and Police Inspector Smith leaped over the railings and took possession of the place, after turning Messenger Hayes out. Both Mr. Love and Mr. Nugent fear that this descent upon their offices may lead to trouble that may make their sureties responsible.

The old charter people say that, while possession tould have been secured in an orderly way if they had waited for the writ of ouster, the New Jersey officials have made themselves liable to impeachment and indictment for taking forceful possession. RESPONSIBILITY OF BONDSMEN.

ALL JUDGES CONCURRED. Senator Edwards said when I talked with him this morning that "the decision handed down by Chief Justice Beasley was concurred in by Justices Depew and Knapp and will be filed in a few days. The decision was rendered on our statement of the case and every point we raised was sustained. That we will come to some agreement with the old Boards in order to facilitate the appeals is not only possible but extremely probable.

quarters, corner of Ocean and Bramhall avenues, last evening. Two hundred new shares were sold, making a total of 1,500 shares now outstanding. This association, it will be remembered, adopted the system of selling money at so many cents premium, payable monthly, instead of the old plan of bidding so many dollars premium as an absolute sum.

The latter system deducts the premium immediately out of the whole principal sum bought by the purchaser, while the former does not deduct the premium, but allows it to be paid in monthly instalments. allows it to be paid in monthly instalments.

This is the only association in the city which has adopted this method, though two or three of the old style associations are now considering the advisability of remodelling their constitutions to conform to the latter and better plan. Two sales were made last evening; one of \$2,000 at a premium of twenty-five cents per month, and one of \$800, at a premium of 24c. per month on each share bought on by the purchaser. The success of the association thus far has proven the wisdom of its founders in adopting the new plan of premiums. TOMORROW'S

The ladies made a rush for the front door, regardless of how they got out, and they went out screaming and tumbling over each other. In a twinkling the car was in possession of the two men. A big crowd had gathered in the vicinity, attracted by the cries, yells and curses of the men and the crowd who were trying to cartives them. the men and the crowd who were trying to capture them.

Three policemen came on the scene, and they had a tussle, but they soon dragged the men from the car, and they had a circus all the way to the Library Hall Station House. There they gave their names as Frederick Richter, of Avenue E, and Albert Johnson, of Bayonne. Several of the men are said to have received black eyes and several scratches in the melee.

The couple were quite penitent when they were introduced to Justice Wanser this morning. The Judge gave them the choice of handing up \$20 or spending a month in the County Jail. They paid the money. Policeman Gassman is nursing a black eye which he received in the scrimmage.
