

THE CONSERVATIVE.

TWO DOLLARS A YEAR IN ADVANCE.

MCCONNELSVILLE: FRIDAY, SEPT. 16, 1870.

Prohibition County Ticket.

FOR THE TICKETS, JOHN H. MURRY, FOR PROSECUTING ATTORNEY, J. O. H. T. CREW, FOR COMMISSIONER, W. L. L. COOL, FOR INSPECTOR, SIMPKIN H. BROWN.

PROHIBITION MASS MEETINGS!

Major J. W. SYMONDS, of Logan, Hocking County, will address the people on the claims of the Prohibition Party, at

McConneville, on SATURDAY EVENING, September 25th, in front of the Court House.

ALSO, The Major will address the people of

Chesterfield, on FRIDAY EVENING, September 23d. TURN OUT! every one, and hear the Doctrine of Prohibition ably set forth. By order of

COMMITTEE, McConneville, Sept. 16.

DR. ISAAC PARKER, Prohibition Candidate for Congress.

The Prohibitionists, of this, the 15th District, have nominated Dr. Isaac Parker, of Chester Hill, this county, as their candidate for Congress.

Dr. PARKER is a practicing physician, located in Chester Hill, for about twenty-five years, and is well known and highly esteemed throughout that section of country.

He is about fifty years of age, and is a man of more than ordinary ability.

As a public speaker, he has probably had no equals in the District; and should he take the stump, as he probably will, he will make things hot for his opponents.

The Doctor's nomination will add great strength to the Prohibition cause throughout this part of Ohio.

Last Saturday, an examination of applicants for certificates to teach school, was held in the Malta school building, the result of which was as follows:

Number of applicants, 22

" Certificates granted, 16

" Failures, 6

" First-class certificates, 1

" Second class, 1

" Third class, 4

" Subscribers to Educational Monthly, 8

Applicants who had read no Professional works, 14

Applicants who are taking no Journal of any kind, 12

The above is rather a bad showing for those who aspire to become teachers of the youth of Morgan County.

More than half of the whole number of applicants had never read a Professional work! More than half of them do not take a newspaper or journal of any kind! Considering these facts, it is not strange that out of twenty-two applicants, only one was able to obtain a first-class certificate.

School teaching is a vocation that calls for more than a mere smattering of Arithmetic and Geography in those that design following it.

Even should an individual understand thoroughly the branches to be taught, yet he is not fit for a teacher unless he is acquainted with the best methods of teaching, and he can not be advised of said methods unless he is a constant reader of one or more of the Educational Journals of the day.

There is such a thing as progress in school teaching, as well as in all other professions and callings of life, and those who desire to take unto themselves the emoluments of the calling, should fit themselves to properly discharge the duties thereof. Further, it is a little remarkable to us that one who aspires to be an instructor of the American youth, should undertake to get along without keeping himself, or herself, informed on the current events of the world, as a knowledge of them can be obtained through the newspapers of the day.

It is a little singular to us that a mind capable of teaching school, can be content without the food that can only be obtained from a newspaper; or, rather, it is prima facie evidence that such a mind is not fit to preside over a schoolroom.

A man or woman who is deaf and dumb to the world outside his or her immediate circle, is not fit to instruct the youth of America. Had we space, we would publish the list of questions propounded to the applicants on last Saturday, just to show the character of the examination they had to undergo; but they are unimportant, and our limited space forbids.

Because we have seen proper to place the Prohibition County ticket at the head of the local page of our paper, the Herald attempts to convince the Prohibitionists that we are duping them. The people of this county, that read the county papers, know full well the causes that led to our supporting said ticket, and we will not occupy space with restating them. We take it for granted that the Prohibitionists are well pleased with any support the Conservative may see proper to give them; and we doubt not but that they would return thanks to the Herald, with all its whisky propensities, should it see proper to support any, even the least of their measures. The idea of such men as Dr. Branson, Dr. Parker, Arza Alderman, Wm. H. Cool, and numerous others, being duped by the Conservative is so completely ridiculous, that we forbear replying to it.

S. R. Kiddoo's Concert in the Town Hall, on Tuesday evening, deserved a more liberal patronage than it received.

Three individuals took quarters in the calaboose on Sunday.

Dr. W. A. Brown is visiting his relatives here. He has been living in Washington, D. C., for a year or two past.

Married September 8th, 1870, by Rev. J. M. Woodward, Mr. Adam Grandstaff and Miss Maggie A. Jaques, of Morgan county.

C. L. Hall started East yesterday morning. He will be gone a little over a week, and expects to bring back with him an extensive stock of goods.

A Small, red cow, with star in her forehead, and white spots on both flanks, the one on her right flank being the shape of the letter V, the property of C. W. Cromwell, McConneville, Post-master, strayed away on last Monday. Any information relative to her whereabouts will be thankfully received by the owner, and liberally paid for.

The Entry Books of the Morgan County Agricultural Society are now open for business at the Book Store of Adair Bros. All who intend competing for premiums, should make their entries at once, so as to save confusion during the first days of the Fair. So, make it your business, the first time you are in town, to make your entries.

The Zanesville Signal, JAMES T. IRVING handling the scissors, didn't come to hand last week. Wonder, now, if the Signal has suspended, or if the Democracy of Muskingum have concluded on ousting James T. I., or it may be that James T. I. has concluded to cut our acquaintance. Should the latter be the cause of our not receiving the Signal, we will feel real sorry on James T. I.'s account. It will necessitate the discontinuance of the Conservative to his address, and then he will not have an opportunity of stealing any more of our articles and palming them off as his own.

A sad accident occurred at Sulphur Springs, on Sunday Creek, Perry county, on last Friday, the 9th instant. Lewis McDonald, a store keeper there, kept powder for sale. A customer complained to him that his powder was not good - would not ignite. In order to show that this complaint was unfounded, McDonald poured some into a paper, and set fire to the latter. The powder exploded, and blew the paper up to the ceiling of the store-room. The paper exploded in a burning condition, and lit on the top of a keg of powder, on which was scattered a few grains. This caused the explosion of three kegs of powder, which caused the death of five persons, Mr. McDonald, and his little son aged four years, Geo. W. Gordon, son-in-law of McDonald, George Gaver, and a young man by the name of Priest. The store building, which was of brick, was blown in all directions, and the entire stock of goods was consumed by fire.

Morgan County Fair.-At a meeting of the Board of Directors of the Morgan County Agricultural Society, held on the 12th inst., the duties of the several Members of the Board during the Fair, to be held October 4th, 5th and 6th, 1870, were assigned as follows:

James A. McConnell - General Superintendence.

Edwin Sherwood, Sale of Tickets and F. M. Kahler, J. Finance.

John S. Adair - Entries.

David L. Jenkins - Floral Hall.

John S. Huffman - Cattle.

Eli S. Fawcett - Sheep and Hogs.

James C. Loughridge - Horses.

Samuel H. Scott - Farmer's Hall.

Joseph Reed - Teams.

J. B. Goudy - Marshal of the Riding and Driving Ring.

All exhibitors and other persons having business with the Society will please note the above arrangement, and that each member has special superintendence and jurisdiction over the department to which he is assigned, and govern themselves accordingly.

JAMES A. MCCONNELL, Sec'y.

We notice that J. B. Stone is in receipt of new goods of all kinds and qualities.

NOTICE is directed to John Ryan's Carl, found in another column. John is credited with being the best cobbler in town.

ONE of our liquor vendors was arraigned before Mayor McCarty, on Wednesday, for unlawfully selling "pizen," and waving an examination, he was bound over to Court.

Rev. G. J. Smith, of the McConneville Protestant Methodist Church, will deliver a Temperance lecture at the Grove Presbyterian Church, on tomorrow (Saturday) evening.

REV. KING, of Zanesville, preached in the Universalist Church, of this place, on Monday, Tuesday and Wednesday evenings of this week. He intends preaching here three nights every other week, during the Fall. A week from next Monday night, he will preach on the question: "Does the Bible teach the doctrine of endless punishment?"

An individual, living in McConneville, who, for some time back, has been in the habit of getting drunk, going home and beating his wife, tried the experiment to his sorrow, on last Monday. Some ladies, living in the neighborhood, who had become disgusted at such conduct, repaired to the scene of action, armed with broom-sticks and bean-poles, and gave the individual a whipping that he will not forget in all after years. Served him right!

The White Stocking Base Ball Club, of Chicago, beat the Red Stockings, of Cincinnati, recently.

Under the leadership of Major F. M. Kahler, a Concert was given in Shepard's Hall last evening, for the benefit of the Presbyterian Church. Every body was well pleased with it, and spoke of it as well worth the price of admission. To night, another one will be given for the same laudable object, and there's no doubt but that it will well patronized.

Equestrian Committee.-The following persons were selected by the Board of Directors of the Morgan County Agricultural Society, on the 12th inst., to serve as a Committee of Awards on the exhibition of Female Equestrianism at the Fair to be held on the 4th, 5th and 6th of October next: Rev. L. McVaire, A. S. Dickey, Jesse D. Thomas, Oscar L. Herwood, and Townsend L. Simpson.

As this promises to be an important feature in the entertainment of the Society, it is urged upon this Committee to put in a prompt attendance.

JOHN S. ADAIR, Sec.

R. L. JENKINS, the Maskingum Valley Queensware man, announces himself as an Independent Candidate for Congress. He says the reason he wants to go to Congress is, that he wants to procure the passage of a bill, in the shape of an Amendment to the Constitution, providing that no person shall use a set of china, stone-china, white or earthen ware, for a longer period than one year; and, further, that no person, except himself, shall be allowed to sell goods of that character on the Maskingum Valley, unless they pay into the Treasury of the United States twenty-five per cent. of their monthly receipts, duly made out and sworn to. He promises an Internal Revenue office to every man that will vote for him.

The Main election has terminated in a gain of 5,000 for the Democracy. "As Main goes, so will Ohio!" is an old-time exclamation; and, should it prove true this Fall, the Democracy will carry Ohio by a good, large majority.

A fire occurred in Pomeroy the fore part of this week. Five buildings were destroyed.

The land appraisement in Muskingum county shows an increase in value of \$3,188,913.

During the month of August, the number of beer, tobacco, and cigar stamps sold in the Third district, was as follows: beer, \$3,418; tobacco, \$14,806 40; cigars, \$3,797. This is an increase over the same month last year.

Hydrophobia is developing a new and alarming phase in St. Louis. Persons have contracted the disease and died of it without having been bitten, so far as the knowledge of the patient extended. The idea that the disease is liable to spontaneous generation in man is too dreadful to contemplate.

The city of Cleveland having developed the handsome figure of 93,000 people by the recent census, the old phraseology, intended in laws, to apply to Hamilton County alone - that is, to counties having over 100,000 people - will have to be changed to a much higher figure. The county of Cuyahoga, we presume, will have 130,000 people at least. Cleveland now has nearly as many people as Cincinnati had in 1850.

General Baker threatened to take charge of the Fitchburg Railroad and run it himself, if the Directors didn't arrange the trains to and from the Massachusetts militia encampment to suit him. He told the Directors "he had some experience in railroads." We thought it was experience in canals upon which the General plumed himself.

An exchange mentions it as a singular fact that all the rongs who have, at different times assailed Mr. John Morrissy, have died violent deaths shortly after. Bill Poole, Bowler, Bill Malligan and John Casey have all gone that way. The fact is encouraging, and it is a pity that some of the Washington tories in public places can not be persuaded to try the experiment.

Some leatherhead is trying to frighten the women by a statement that milk in a cup of tea, combined with tannin, forms leather in minute flakes, and that enough calf and sole will be imbedded in the course of a year's drinking to make a pair of boots. This chemical fact will probably account for the tanned and leathery appearance of a veteran tea-drinker's skin.

The most sensible thing the smiling Vice President has ever done in the publication of his retiring letter, unless, as we fear, he has published it in the hope of bringing out a violent protest. Like the frog in the fable he has scolded to his utmost capacity, and now the slightest thing in the world - even the tickling of a straw - would precipitate an explosion, followed by such a collapse as would defy the microscope in an attempt to discover what had become of him.

The returns of the census-takers reported up to Saturday evening to the United States Marshal, show the city of St. Louis, to have, with an incomplete enumeration, a population of 274,856. There are about six wards in which the enumeration has not been completed, and the total population may perhaps be brought to nearly 300,000.

What has become of the Alabama claims against England that the present Administration was going to collect? Answer, 30 Republicans!

Twenty-six German Professors of law and medicine at Munich, Bavaria, have added their signatures to the protest of the theological faculty against the results of the Ecumenical Council.

The French cable between St. Pierre and Duxbury is now repaired, and the tests are perfect. 711 three of the Atlantic cable are now in complete working order.

Subscribers for the CONSERVATIVE, if you want all the local, political, commercial and general news of the day.

Somebody, one day last week, stole three hundred dollars of the steamer Wm. Fox. Two men were arrested in Muskingum County on a charge of committing the offense, but we have not heard whether or not they were bound over to Court.

The Misses S. & E. Holbrook are making strenuous efforts to meet the demands of their approaching Fall trade; and, judging from their past success, we predict they will be able to do so. Already, they have bought extensively of the latest styles of Hats and Bonnets, and will be in receipt of them this week. Next week they will receive a large stock of other articles of female apparel - all purchased with a view toward satisfying the fancy of the most fashionable, as well as that of those who do not pretend to follow the fashions. Notwithstanding these large purchases, they started for the East on Tuesday morning, and design spending a couple of weeks in Philadelphia, New York and Boston, in which places they will endeavor to select the largest and most beautiful stock of goods ever brought into this market.

In a late number of the National Standard is an article from the pen of this gentleman on the next political struggle. Mr. Phillips may be regarded as ultra in his views, somewhat "ahead of the age," but it is a well-known fact that he leads the way, and the cautious and those who look to present personal advantage more than he, in due time have to come up to his mark. Read carefully what Mr. Phillips says:

"It seems now as if Temperance and the struggle between capital and labor would form the basis of the next parties.

"At one time, whether woman should have the ballot seemed likely to be the next political question. And no doubt, that movement is writing its own rapid victory upon every statute-book. Still no separate political party for that purpose is proposed anywhere. If any new and intemperate outrage on woman, like the contagious diseases, laws of Great Britain, should rouse popular feeling here, possibly on such a wave the movement might rise immediately to distinct political character. It is more probable that gradual changes in the laws will render any such mustering into political ranks unnecessary.

"Meanwhile several angry issues will crowd out old questions, and make the national election of 1872 turn largely on the claims of the working-men. This year Massachusetts will follow the old lead of Maine and divide at the ballot-box on the question of Prohibition.

"It is tall time that it should be so. The Temperance movement lies at the very root of popular government. This vice is the tool by which the men wield our cities for every vice purpose. The money power buys up legislatures. Incoherence to wealth is the greater danger in time to come, threatening to swallow up legislative independence. The struggle between that and the masses will yet be terrible, and how much popular victory in that struggle may destroy, will depend on the education and self-control of that day. Unless we are to be a calmer and more discriminating mass than any history shows, the victory will be a mad one and make a wide run. The growth of population of a few years ago is indication enough to warn the most listless. The government, or any other, cook-book built of lunatic notions, will find it hard to suit those fiery seas."

"But there is a lower tier than legislators - the masses at the ballot-box. The grog-shop is the ready means to manipulate these. You can not rest a ballot-box on a drunkard's people. Neither the wealth of New York nor its virtue will ever redeem the city from the control of its criminal classes while these last can undermine law, defy justice, and monopolize office by defying an election a drunken riot. Without the help of ten thousand grog-shops, crime could never put its agents in to the City Hall and police office - Paris is ruled by a depot, and London by a company of titled consuls. New York is ruled by drunkards. Men whom murderers serve that they may, and because they have, escaped the gallows, rule the city. The ribald crew which holds them up could neither stifle its own conscience nor rally its remnant for the help of the grog-shop. Republican institutions, undermined by this social vice, are obliged to confess that they have never governed a great city here on the basis of universal suffrage in such a way as to preserve order, secure life, and secure free speech.

"Temperance men in smaller cities have failed to see who go so shamefully up and down the streets of New York. Hence they have tottered to bring one and now another party to adopt their cause. The movement has been always cheated. At last it wakes up to the fact that it is warring with that which in many cases is the sole basis, and in all cases is to some extent the basis of party strength. The people have two enemies, wealth and rum. The first grinds them up into dividends. The second betrays them short to their enemies. The battle against this has begun. But the truth will never get frankly spoken till we launch the discussion in the political arena."

John S. Gaylord, formerly of this town, but now of Litchfield, Illinois, has our thanks for a copy of the "Regulations and Premium List of the Litchfield Agricultural Society," of which he is Secretary, for the current year.

Fin. R. Hanna, now of the firm of J. L. Hanna & Bro., Insurance Agents, at St. Joseph, Mo., has our thanks for Missouri papers at divers times.

We receive the *Mirietta Times* about once a month. It is a very good paper, truly; but, still, we think Mr. Hoop can afford to exchange with us on a basis nearer that of equality.

NEW ADVERTISEMENTS.

GIVEN UP!

That JOHN RYAN is the BEST COBBLER ever in MCCONNELSVILLE.

He has constantly on hand a good assortment of Fine and Stogie Boots, of his own manufacture, which he is offering at the lowest (ASH) rates. Give him a call at his establishment on North-west corner of Public Square, McConneville, Ohio.

Notice. The undersigned has been appointed and qualified as Executor in the estate of J. H. Burkholder, late of Morgan county, deceased. JOHN C. M. BARKHURST, Sept. 2-3w.

TO TEACHERS! A CHANGE.

During the school year beginning September 1st, 1870, examinations for certificates will be conducted in writing. There will be only one examination in each month. The examination will be held on the second Saturday of the month, beginning at 10 o'clock, A. M. in the school building at Malta. Certificates, or notices of failure, will be sent to applicants, during the week following the examination.

N. M. McLAUGHLIN, ARTHUR FOND, JAS. M. RUSK, Board of Examiners. September 2, 1870-2w.

EDUCATIONAL GAZETTE, \$2.00 THEE \$2.00

is warmly welcomed by all classes as a monthly periodical, embracing the sphere of useful and elevated knowledge on the 15th of July last. This journal, untrammeled by any ordinary influences, is a National Educational in its broadest sense. It is progressive, instructive, and entertaining, and cannot fail to please all who take an interest in scientific research, in the best literature, or in educational improvements. As a journal for the family circle it has no superior. For only TWO DOLLARS A YEAR its publisher, G. H. TRUSSE & Co., 415 Locust St. Philadelphia furnish over 23000 book pages of very excellent reading, which, if bound in decorative form, would make a volume seven inches in thickness, making it not only the BEST but the CHEAPEST paper of its class in the world.

In order to favor our readers, and increase the circulation of the Conservative, we have made arrangements with the Publishers of the EDUCATIONAL GAZETTE to send that excellent family paper and the Conservative, each for one year, for \$2.00 to each subscriber. We hope our friends will show this liberal offer to their friends and neighbors and send to G. H. Trusse & Co., 415 Locust St., Philadelphia, for a sample copy, and receive the rest of the year, the money returned to them by the publishers. Address Conservative, McConneville, Ohio. September 2, 1870-6m.

Sheriff's Sale in Partition. William Campbell, et al., vs. Elizabeth Campbell, et al.

By virtue of an order to sell and to be directed from the Court of Common Pleas of Morgan County, Ohio, in the above entitled action, I will offer for sale at public auction, at the door of the Court House in McConneville, in said county,

On Monday, the 3d day of October, A. D. 1870.

At 1 o'clock P. M., of said day, the following described real estate, situate in Union Township, Morgan County and State of Ohio, to wit: Being a part of section 24, township 8, range 13, north of Zanesville, Ohio, and bounded as follows, to-wit: Beginning at a point on the North boundary of the Southeast quarter of said section sixty [60] perches from the Northeast corner of said quarter, thence South 16 [16]-1-2 degrees, three and a half [3 1/2] degrees, thence South 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a point eight [8] perches South of said boundary, thence North 81 [81] degrees to a point on the East bank of Wolf Creek in the Northern boundary of lands conveyed by James Campbell to Elizabeth Forster, thence a W. & N. by direction with a rocky soil to the Western boundary of said quarter to a
