SOMETHING TO THINK ABOUT
Recently in the "International News" shown in the local theatre, was a broad line scene taken in New York City. Here thousands of strong men were shown getting a little bread, given out by some charity organization. In this long line were many young men; and the words were flashed with the picture that a part of them were soldiers of the late war—that it was "Something to Think About." Realizing that the camera was showing what was actually taking place, it surely is "something to think about," and that most seriously. It is bad enough to have bread lines of any sort, but when they include men who only three years ago were fighting the battles of all the American people at the risk of their lives and health, enduring sufferings and hardships, and who are now hungry and objects of charity, it is indeed something to think about. The thought came to us "how could anyone think about it, and still vote against adjusted compensation." While as a national issue it was killed for the present by the President, it will be a state issue here in Ohio at the election Nov. 8. If any one has been considering voting against it, do a little hard thinking with your inner self, then vote as your conscience dictates. If this rule is followed there will be no question about adjusted compensation carrying.

The Modern Victrola

The New Victrola as we have said of all Victrolas, is first, last and always a talking machine. Its purpose is to produce music—more strictly to reproduce music—in its purest forms, without sacrifice of any kind, without distortion, without detracting from the composer's or artist's intent.

All you have to do is to be sure the instrument of your choice is a genuine Victrola.

REMARKABLE CHANGE IN THIS MAN'S FAMILY

"I gained 12 pounds, my wife 26 pounds and my daughter is gaining day by day taking Tanlac. It's the biggest surprise of our lives and all our friends and neighbors are talking about it. This medicine has made a wonderful change in every one of us. Before I got Tanlac, I could hardly drag one foot after the other. I had indigestion perfectly awful. In fact we were all regular dyspeptics. We all swear by Tanlac now at our house. It ought to be in every home. It's the world's greatest family medicine."

The above statement was made by George L. Tenny, a well-known and highly respected machinist, living at 83 Downing St., Buffalo, N. Y.

Tanlac is sold by leading druggists everywhere.
