DRESS I

"It is not every man that can afford to wear a shabby coat; and worldly wisdom dictates to her disciples the propriety of dressing somewhat beyond their means, but of living somewhat within them; for any one can see how we dress, but none can see how we live except we choose to let them. But the truly great are, by universal suffrage, exempted from these trammels, and may live or dress as they please."—LACON.

FLOOD IN TEXAS.

Great Loss of Life and Scenes Indescribable at Waco.

General Grant Passes a Bad Night.

Fire at the Studebaker Works, South Bend, Indiana.

Flood at Waco, Texas.

Waco, Texas, May 29.—The violence of the late storm here is overshadowed by rain and the tornado, Wednesday night. Rain-fall did not cease until yesterday morning. All streams in and close to the suburbs of the city, the banks of which were dotted with hundreds of residences overgrown and transformed their surroundings into a vast sea. People fled for their lives from their homes, in the midst of a raging storm. Thomas Derinoff, his wife and three small children, remained in their house which was washed away and all were drowned. Howard Lewis, his wife, his sister and three small children, lost their lives in a similar manner. Eleven persons are known to have perished, and five others are unaccounted for and reported drowned. The total damage to the city is estimated at \$50,000. The Brazos river rose two feet above high water mark. The grain crop is destroyed, beaten to the earth by wind and terrific rain. East Waco has been inundated since Sunday. The scenes there yesterday were indescribable. Seeing that the waters of Brazos river threatened them with water gates the population, about two thousand persons, fled from their homes in the midst of the storm, aided in escaping by light vivid lightning and hundreds of lanterns. No lives are reported lost in that portion of the city.

Between nine and twelve o'clock at night the rain fell in blinding sheets and was blown against large buildings, producing a sound like the distant roar of Niagara. Everybody in the city was up all night. Many colored people thought a second deluge was upon them and prepared themselves to go, by vigorously praying.

The General Assembly. CINCINNATI, O., May 29.—At the Presbyterian General Assembly, this morning, a special committee on the bequest of Archibald Falconer, reported that the money should be placed in custody of the Board of Education.

GERONIMO'S RAID.

More Than Thirty Citizens Reported Killed and Many of Them Mangled Beyond Recognition.

The Indian Scouts With the Troops Reported as Deserting to the Hostiles.

FRANKLIN ATROCITIES OF THE RED BEARD.

DEMINO, N. M., May 29.—The Indians are scattered in small bands in different parts of Southern New Mexico, mostly near the Black Range. More than thirty citizens are reported killed and many of them mangled beyond recognition. Wednesday night the Indians were reported to be near Cook's Peak, fifteen miles northwest of Demingo. The greatest excitement prevails here. The settlements on the Gila. No Indians have been killed or captured since the outbreak.

General Crook is on his way here to relieve General Bradley and is expected Saturday morning. Miners and ranchmen are coming in from all directions. Much dissatisfaction is expressed concerning the action of the military.

Reports from Lake Valley are that a band of about forty Indians came in sight of the settlement. The citizens armed themselves and went out to hold the redskins in check. The Indians then went toward the settlement. A courier brings a report of a battle in the Gila valley, through which the Indians were retreating to Mexico. Four soldiers and eight Indians were killed. The Indians were driven back, but the troops were too few in number to pursue them.

TUCSON, A. T., May 29.—The present raid of Geronimo is already more disastrous to life than that of two years ago, when Judge McComas was slain. Then but seventeen persons were murdered, while five have been killed in Arizona so far, and twenty-five in New Mexico, with thousands in favor of the number being doubled before Geronimo reaches the Sierra Madre Mountains in Mexico, where his band is doubtless going.

A NEIGHBORHOOD WAR.

Two Factions at War in Knott County, Ky.—Five Men Already Murdered—Terrible Accident on an Incline Railway—Four Persons Killed.

CATLETTSBURG, Ky., May 29.—A gentleman, who arrived here Wednesday night, brings the news of a neighborhood war, on the headwaters of Beaver Creek, Knott County. The leaders in the trouble are John Hall on the one side and Glabe Jones on the other. Each had from twenty to thirty desperate followers.

The origin of the trouble is said to have been the killing of a man named Salyer some time last March, in Floyd County, when Jones charged Hall with being responsible for the murder. The trouble was started by Jones killing two or three men in his time, to go on the war-path for Jones. The latter, apprised of his danger, rallied his friends, and Hall was put on the defensive.

A few days ago the Hall party were driven into a house by Jones and his men, and since then the war has been waged in earnest. Hall and his crowd are still fortified in the house, which is surrounded by Jones and his followers. On several occasions the Hall faction have made a sortie, but were driven back and up to last accounts five men have been killed and several wounded.

No person is allowed to pass through the neighborhood, and the people living in the vicinity are fleeing for safety. The greatest excitement prevails. Hall and his men cannot get any assistance from their friends, while Jones' party are being re-enforced daily, and it is only a question of time, and a short period, too, when Hall and his adherents will be exterminated.

CATLETTSBURG, Ky., May 29.—At the Kanawha colliery Wednesday a car containing 158 miners was being drawn up the incline to the mine on an inclined railway, when a brake band broke. This drove the car and another car loaded with coal which was being lowered on another track.

The heavy coal car began to descend with great velocity, but the engine driver jumped up the incline side, and was rescued by some of the men who were on the incline. The car and another car loaded with coal which was being lowered on another track.

EMPEROR WILLIAM.

His Illness Regarded as Serious—The Imperial Family Summoned—From Potsdam.

Taking Precautions to Prevent an Outbreak During Victor Hugo's Funeral—Anglo-Russian War Believed to be Inevitable.

MISSIONARY WORK IN CENTRAL AFRICA. LONDON, May 29.—A dejeuner was given to Mr. Henry M. Stanley yesterday by prominent Baptists who are attending the May meetings. In referring to the efforts of the Baptist missionaries in Africa, Mr. Stanley spoke in eulogistic terms of the efficacy with which the work of spreading Christianity was performed. The reply to Mr. Stanley's address was complimentary and contained the assertion that to him was due the credit of making mission work possible in Central Africa.

Prof. Arminius Vambury in an interview states that he believes an Anglo-Russian war to be inevitable, but he thinks England will not be ready for it for a year or two, when the Indian railways and military roads will have been completed. He has perfect faith in England's ability to repel an attack and predicts that the whole of Central Asia will eventually come into the possession of England.

A Vienna paper ridicules Russia's expressed intention to publish an Afghan Blue Book, and remarks that in a country where there is neither a Parliament nor a free press, such books escape criticism and are therefore valuable.

The Vienna Telegraph says that even if the Russian version of the dispute differs from the English, it would unhesitatingly believe the English account.

The Marquis of Hartington, Secretary for War, who purposed employing the Whitsuntide holidays in political work in Ireland, is ill at Dublin. His intended speeches at Belfast and elsewhere in the North of Ireland have been abandoned.

The Standard, ostensibly sympathizing with Lord Hartington, intimates that his illness is opportune in view of the difficulty of explaining the Government's policy concerning the Crimes Act.

Mr. Chamberlain, President of the Board of Trade, is in Paris with his family. He is on a tour of recreation simply, and makes no political visits.

BERLIN, May 29.—The condition of the Emperor forms the chief topic of conversation among all classes and affords another proof of how strongly the aged monarch is entrenched in the affection of his people. The summoning of the Imperial family from Potsdam is regarded by the press as indicating a serious illness than any bulletins of the Emperor's health would seem to justify. The Emperor's death is such a critical moment in European affairs that it is doubly deplorable.

The authorities have issued a decree ordering the priests stationed at the Pantheon to quit within forty-eight hours. This order has created much feeling and indignation in Roman Catholic circles, and several of the organs of the Church contain bitter articles denouncing this action of the Government as sacrilegious and tyrannical.

In the vote of confidence in the Government by the Chamber of Deputies, two-thirds of the Reactionists voted for the Government, the remainder being neutral. The members of this party openly declare that they prefer to retain the present Ministry with all its shortcomings rather than take any step which would open the way for the return of M. Ferry to power.

Virginia Municipal Elections. NORFOLK, May 29.—The local election here for City Treasurer passed off very quietly. The Democrats had about one hundred majority in this city.

LYNCHBURG, May 29.—The municipal election here progressed quietly. The effort of the Mahone party to put a ticket in the field for City Council was a complete failure and most of the negroes voted Democratic.

RICHMOND, May 29.—The only officer voted for yesterday in the local election here was Samuel C. Greenshaw, for City Treasurer. There was no opposition and Mr. Greenshaw, of course, was elected.

Pennsylvania High License Bill. HANNSBURG, May 29.—The high license bill commanded the attention of the House yesterday morning notwithstanding an earnest declaration from Mr. Spontner that it would endanger the passage of the General Revenue bills for the House longer to fritter away in a measure which could not be enacted into a law. His motion to postpone the bill was lost—yeas 70, nays 94.
