ROBBERY AT RINGTOWN.

Two Hundred Dollars Worth of Clothing Carried Off.

Oscar Lindsmunth, who, three weeks ago opened a clothing store in the Mansion House building at Ringtown, this morning suffered a loss of two hundred dollars worth of clothing by robbery. Lindenmuth left the store shortly after midnight and went home. When he returned to the place at six o'clock this morning he found the front door ajar. It and been pried open and the robbers neg lected to close it when they departed. chisels were taken from Daniel Stauffer blacksmith shop at Kingtown last night and it is believed entrance to the place was effected with the tools. The stolen property four overcoats. There were some corduroy coats and pantaloons in the lot.

THE BANKRUPTCY LAW.

It Went Into Effect To-day-The First Case.

The new bankruptcy law went into full offect to-day, although it really took effect last July. The first case to come within its provisions has come up in the Pittsburg couris. Judge Buffington, of that city, issued an order stopping a Sheriff's sale. A Williamsport lawyer filed a bill in equity in the United States Circuit Court yesterday against H. E. Jacobs, of Williamsport, asking that the Shevill of Lycoming county be restrained from seiling goods belonging to Jacobs. The awyer represented several creditors and in the bill he alleged that Jacobs confessed udgment to his relatives for \$15,000 for the purpose of depriving creditors of their just dues. The lawyer asked that the Sheriff be restrained until the new law would go into effect to day and Jacobs could be forced into involuntary bankruptcy and the creditors get a pro rata share of the assets.

A Hunting Accident. The first shooting accident of the cotton tail season in this vicinity occurred near the Brandonville station at an early hour this norning. Samuel and Henry Brosins, brothers, and residing on North Gilbert street, were the principals in the affair. They left home early and had just reached the hunting ground when they spied three rabbits. Samuel, the oldest of the brothers, stood on the P. & R. railread tracks with the dog at his side. The gun was in charge of Henry Brosius, who was emerging from ushes and in the act of stepping from rost covered log when the gun was accidentally discharged. A portion of the charge entered the left foot and leg of Samuel while the dog was completely riddled with shot. Samuel did not realize that he was shot until he fell to the ground. His brother hastened to the spot and rendered assistance. The victim was placed on a farmer's wager and brought to town. Dr. M. S. Kistler was called and he said the injury was not serious

TO RETAIN **PHILIPPINES**

The Islands Will Be Held as United States Territory.

WILL NOT ASSUME THE DEBT

But Will Allow Spain For All "Pacific Expenditures."

WILL PROBABLY PAY THE CASH

For All Expenditures by Spain in the Philippines For the Advantage of the Islands manent Betterments and For Improvements, Both Physical and Mental.

Parts, Nov. 1.-Directly after the joint of Cuba." session of the peace commission was called to order yesterday Secretary Moore, upon the request of Judge Day, passed to Mr. Ferguson, the interpreter the formulated demands of the United States regarding the Philippines, which were read to the Spaniards in their own tongue by a rapid rendering from Girl." the English, in which they were written. Although the Spanish commissioners did not betray anxiety, their attention to the reading was keen. They had anticipated that the United the terms and details of the transfer had all along been a subject of speculation.

The reading disclosed the fact that the United States government had dethe United States government had de-termined to possess for itself certain Girl' will appear at Ferguson's theatre this territory and parcels of land bounded evening. Fifty cents in any part of the by and lying within such parallels of first floor, 25 cents for the gallery. latitude and longitude as mark the limits of the Philippine archipelago. The United States do not propose assuming the Philippine debt of \$40,000,-000, but they are willing to be respon-sible to Spain for a sum of money equal to the actual expenditures by Spain in the Philippines for the advantage of the Islands and for the good of their people, for permanent betterments and for improvements, both physical and mental

The reading of the presentment specifies that the United States will reim-burse Spain to the extent of her "pacific expenditures" made in the archi-pelago. This phrase "pacific expenditures" is employed to differentiate the expenditures by Spain in combatting insurrections in the Philippines. The one is felt by the American commissioners to be a fatr burden upon the acquiring power, while the other and latter class of expenditures is held to its own territory,

Such is the vital portion of the presentment made by the American comis clear and definite, many details have been left to the developments of the discussion between the two commissions. Thus, while the Spanlards are quite certain that the United States intend to reimburse them for "pacific expenditures," they remark that they are not enlightened as to whether the Americans expect to indorse the Span-ish obligations to the extent of "pacific expenditures" in the archipelago Spain's outlay so designated.

Possibly the American commissioners themselves are not at this moment fully determined on this point. It is slightest degree with Spain in her responsibility to her creditors. The clearer method seems to be to hand to Spain spot cash, or something as good, and to bid her apply it on her put it in her wallet for whatever use

While the United States have designated "pacific expenditures" as those they will reimburse to Spain the presentment of the American commission-ers did not demand either a schedule or an inventory of the same from the Epaniards. But the suggestion naturally raises an inquiry as to the kind and quantity of Spain's "pacific expenditures" in the Philippines, and some light may be given on that mat-

ter now.
There is considerable traffic between the islands, and some time ago a sys-tem of lighthouses became necessary. Spain set out to supply this and projected 48 light stations. Of these she tution, has already constructed 17 of the first service class and 16 of the second. What they cost is not yet known here, but in American waters those of the first class cost from \$25,000 to \$250,000 each, so that, on an average basis of the min-imum cost in the United States, Spain's 33 lighthouses may represent an outlay

Spain has constructed breakwaters at Manila, at an expense not yet known bere, and wharves of small value along the Pasig river. She has recently built barracks for 4,000 men, now occupied by the American troops

At Cavite Spain had built a naval pushed the other cars upon the derailed one, station, which, before it was sacked timbers were knocked out, top coal fell, and by the natives, was said to be equal to the Mare Island station, and may then have been worth \$2,500,000. Whether or not the last two items can be strictly designated "pacific expenditures" must be determined in confer-ence, but the lighthouses, water improvements, barracks and naval sta-tion are necessary to the United States as the owner of the Philippines and

> Spain has also built some school houses, which the Americans are willing to take over at cost.
