A Fine Farm

TO LEASE FOR A TERM OF YEARS. I will lease my farm at Pulaski 16 miles from Cairo, to a good tenant for a term of years. The farm is rich bottom and timbered upland, good for fruit and early gardening; two living springs of water that have shown no signs of failing this present dry season; new two-story dwelling of 7 rooms within five minutes walk of railroad depot, postoffice and telegraph office; mineral water as good as the best can be obtained by driving. At a little expense a fish pond fed by living water can be made and stocked with native fish. The wheat crop this season yielded 15 bushels to the acre and corn will yield 30 bushels to the acre. As a dairy farm, the place is unequalled. New farm implements, cows, horses, etc. will be sold with the lease if desired. Parties are invited to visit the place or address me by letter. E. M. LOWE, Pulaski, Ills.

Enquiries may be made at THE BULLETIN office or of J. H. Metcalf, Cairo, Ills.

Can Oysters

at De Baun's 56 Ohio Levee.

The ice dealers have had an unusually long and lucrative harvest in this city during the past season. They are now nearing their rope's end.

The committee of gentlemen, who are about to organize a lecture club, will meet this evening, half-past seven, at the office of Linegar & Lanston.

The advance car of John Robinson's circus arrived in the city last night from Vincennes. The tent will be pitched in Cairo on the 26th inst.

The Cairo & Vincennes and Mobile & Ohio incline was used for the first time, Sunday morning, by a train of freight cars from the Iron Mountain railroad.

Barge No. 75, belonging to the St. Louis and Mississippi transportation company, has taken the place of the wharf-boat No. 2, which will give the necessary storage capacity for the present.

At three o'clock this afternoon the ladies of the Methodist church will meet at the residence of Mrs. N. B. Thistlewood, for the purpose of transacting business connected with their church.

The late rains are causing the grass to grow rapidly, and it looks as if an abundant fall pasturage would in a measure compensate our farmers for the corn they were forced to feed stock during the drought.

Captain Frank Harris has resigned his position in "The Halliday," and gone to Chicago. Mr. Harris is a genial, clever gentleman, who will make friends wherever he goes. Mr. Wright succeeds him in the office.

The quantity of water, which passes Cairo from the Ohio river, is four times greater than that which flows by through the Mississippi river. Will some highly-educated sanitarian arise and place upon record an emphatic denial?

Venor predicts a very severe winter for Great Britain. In this country, he says, the winter is likely to be open and mild, with a few brief but intensely cold "dips"—the first of these will probably be felt at the close of November or beginning of December.

We have received a beautiful song, titled "Write to the sad folks at home." The "Song Friends" says: "It is a good, plain, wholesome song, good words and expressive melody." Sent on receipt of 30 cents in stamps, by Theodor Wolfram, Mansfield, O.

The new office fitted up on wharf-boat No. 1 is exceedingly elegant, made so principally through the efforts of Captain Baughman, whose early apprenticeship to a carpenter in Pittsburg, while yet young, renders him very skillful in the use of the saw and chisel.

The telephone now being in running, or taking order, on wharf-boat No. 1, the chap who always wishes the exact time the Fowler will leave, is respectfully asked, in behalf of the clerical force of said wharf-boat, to put in an appearance and begin as early as possible to jingle the bell.

Officer Warren Wims is circulating a petition to the city council among the residents and property-owners on the north side of Fifteenth street, between Walnut and Cedar streets, asking that a sidewalk be built in front of the said property. The petition is being numerously signed.

A strip of street, between the tracks of the Illinois Central railroad on Ohio levee, below Fourth street, is being paved with broken rock. That particular part of the street has most always been in bad condition and in almost constant use; the improvement is therefore an important one.

The Illinois Central railroad company's wharf-boat was brought down from Mound City yesterday evening and was placed in position by Mr. R. F. Jones, the new clerk, with the assistance of ten men. The boat has been newly calked and otherwise repaired. It will be newly painted while lying here.

In the last sixteen years we have had two presidents assassinated, one tried by impeachment, and one fraud, who was never elected, and enough money stolen from the treasury by the whisky ring, star route ring, and other thefts, to pay the national debt. But all these guilty chaps have been loyal.

The item in the Argus of Saturday, in regard to the mule stolen from Smith Brothers' yard, was received, with all its details, direct from the man in charge of the yard, and was certainly thought by him to be correct at the time. Bulletin please copy and charge to the mule."—Argus.

Can't do it—the editor of the Argus has no account with us—must have "spot cash."

This, in the Jewish calendar, is the second week in the year 5642, and the following important days are yet to be celebrated: October 14th is Hoshaanah Raban, a day of prayer; 15th, Shemine Aseret (8th day); 16th, Simhat Torah, feast in honor of finishing the reading of the rolls; the 23d and 24th, Rosh Hodesh Hesban, beginning of the second month.

The agreement between the flying Dutchman and another well-known corporation having fallen through, the captain of the Dutchman folded his horses, zebras, eagles, etc., quietly into a two-horse wagon, Saturday afternoon, and took the Ste Genevieve for Cape Girardeau. The Cape people have the sympathy of those citizens of Cairo who resided adjacent to the show ground.

This statement from the Boston Transcript should be a star of hope and a spur of endeavor to Illinois farmers: "A farmer has recently died in Penobscot, Me., whose property exceeded \$100,000, every dollar of which was made in farming, and without speculating in real estates." When a farmer can thus succeed in the rocks and hills of New England, what might a farmer not accomplish in the matchless prairie soil of Illinois, by the same exertion and economy?

The disease known as "pink-eye," which has prevailed among horses throughout the country, but which has not victimized any in this city, is slowly disappearing. The ailment proves fatal in but few cases. There has been no loss of stock in this city. An old and experienced horse-man of this city, is of the opinion that "pink-eye" is a sort of second to epizootic, and that when it has run its course, the country will be free from disease of this nature for years to come.

The case of Laura Raymond who was charged, in an information sworn out some time ago by State's Attorney James M. Dameron, with being the patron of a disreputable house, has recently been decided in the appellate court of the Fourth judicial district of Illinois. The defendant was found guilty in the county court and fined fifty dollars and costs, but the attorney's for the defense, Messrs. Mulkey & Leek, not satisfied with the decision, appealed from it, which resulted in quashing the information and discharging the defendant.

A white man, whose name we could not learn, fell from the guard of the Illinois Central wharf-boat last evening and came near being drowned. Mr. R. F. Jones, of the wharf-boat, heard the noise, and after some search, found the man clinging to a chain. He requested one of the workmen to take a skiff and bring the man ashore; which was done, but not until a large quantity of water had found its way into the man's stomach and head. He was unconscious and speechless for a time, but revived soon and was alright again half an hour afterwards.

In this issue of THE BULLETIN will be found the name of Salmon Hazlewood announced as a candidate for the office of county commissioner at the November election. Mr. Hazlewood is an old resident of the county, counting the years by the score that he has helped in the good work to bring Southern Illinois out of its primeval wilderness and change the face of the country into farms, rich in the production of cereals and fruits. Mr. Hazlewood is a long-headed farmer of sound sense who will make a good county commissioner, if elected.

The latest swindle practiced among the rural people is that of the "Detroit Spring Bed company." If an agent of this company comes along and wants to store a dozen or more of these beds in your barn or some vacant room, and offers you a bed for the favor, don't you do it. An Iowa farmer had \$80 worth of them unloaded on him, and what he gave as a receipt for them, proves to be a valid note, which he will have to pay, and he is a pretty shrewd business man, too. The beds are actually worth about \$1.50, but no farmer wants a car-load of them at once.

The season of the year has arrived when the head of the family is obliged to lend a hand in putting up the parlor stove; so with thoughts of future comfort the task appears quite pleasant, but ere 'tis half completed, an inch and a quarter of skin peeled from the back of his right hand, three cinders in his left eye, and a quart of soot sprinkled over his shirt bosom and down the back of his neck causes him to forget the teachings of his younger days and indulge in a few remarks, which, though quite foreign to christian sentiment, gives ease to his injured feelings, and, for the time, bring contentment to his troubled mind.

A great blockade of freight cars at East St. Louis is causing much inconvenience and disappointment to St. Louis merchants who are out of certain lines of goods, which the cars contain. Two thousand freight cars have been standing for weeks upon side tracks in East St. Louis, awaiting transfer to the Union depot in St. Louis. The suspension of business, during the death and funeral of President Garfield, unfavorable weather and an unusual rush of passengers to St. Louis during the fair, necessitating the running of many extra passenger trains to the exclusion of freight trains, are assigned by the railroads as the causes of the freight blockade.

Dr. Todd, of Elgin, prophesied that the weather about the 1st of October would turn cooler and more cloudy than that prevailing during the last days of September, and so continue until about the 6th, from which, until about the 12th, clearer weather will prevail; from the 12th we shall have it warmer and cloudy for a few days; then dryer and clearer until about the 22d; then cooler until the end of the month. The storms, if any, will occur about the 7th, 12th, 25d or 26th—the heaviest about the 12th and 26th. The month of October will be generally warm, pleasant and rather dry. There will be very few gales of wind, a still, quiet state of the air prevailing, or which generally is called Indian summer.

It is gratifying to note that there seems to be no abatement in the zeal with which the people of Johnson county are pursuing the fiend Samuel Hazel, the murderer of little Mollie Dalton. Only a few

days ago a posse of men from Vienna, in the vicinity of which it had been rumored that he was roaming, went out to capture him, but failed to do it. The sheriff of Johnson county came face to face with him several days ago, but, Hazel being known as a very desperate man, failed to arrest him for fear of losing his own life in the attempt. Hazel has many relatives among the hills of Pope county, who would of course lend the scoundrel every assistance in his endeavors to elude the officers of the law. He is supposed now to be roaming along the road between Vienna, in Johnson county, and Golconda, in Pope county.

The ladies of the city are anticipating a grand treat in the form of a display of millinery at the elegant new establishment of Mrs. S. Williamson, on Seventh street. The display is to be made on Thursday and Friday next, and will be gorgeous in appearance and infinite in variety as Mrs. Williamson's stock is larger, newer and more complete and her establishment more spacious than it has ever been before. Years of experience in the millinery business in this city has taught Mrs. Williamson not only where and how to purchase the best and newest goods at the cheapest price, but has also enabled her to judge correctly of the peculiar wants of her customers. See may therefore be relied upon as being able to accommodate any one with everything desirable in her line at reasonable figures. Do not forget her grand opening next Thursday and Friday.

The Cairo board of trade met in the office of Mr. Charles Cunningham yesterday afternoon. It was a special meeting and some business of importance was transacted. As will be seen from special locals, it was ordered that a special meeting of the board be held next Saturday afternoon, at three o'clock, for the purpose of electing officers for the ensuing year. A motion was also adopted to the effect that the initiation fee for the organization be reduced from ten dollars to one dollar. This proposition will be finally voted upon at the next regular meeting of the board, which will be in about ten days. Several less important amendments to the by-laws and rules and regulations were made. It was also resolved that taking of the associated press dispatches by the board would be of great benefit to its members, and with this subject in view, Mr. C. Pink was appointed to confer with the newspapers of the city to see if they would share both the expense and benefits of such an arrangement.

The last official report concerning the crops of the state speaks of Alexander county, as follows: "The quality of fall wheat is good and the average yield per acre is something over ten bushels. Rye promises to make an average yield. Oats are light in weight and will not average twenty bushels per acre. Hay crop saved in good condition and will make about two tons per acre. The drought has seriously affected the corn and the prospects are not encouraging for over half an average yield per acre. Broom corn will make about two-thirds of an average yield per acre, and two-thirds of an average yield of sorghum. Tobacco is nearly up to an average in condition. Pastures are short and need rain badly. There will be about two-thirds of an average crop of Irish potatoes and three-fourths of a crop of sweet potatoes. Farm animals are thin in flesh, but generally healthy. Fruit prospects indicate about two-thirds of an average crop of apples and peaches, half a crop of blackberries, and three-fourths of a crop of pears, plums and grapes.

The United States senate met yesterday and a presiding officer of that body will be elected, who will be the successor of President Arthur in event of his death during this term. The senate stands 38 democrats to 35 republicans, with two senators from New York and one from Rhode Island—all republicans, to take their seats, which cannot be done until after the organization. Senator Bayard, of Delaware, will undoubtedly be the choice of the senate as it seems now, and cannot be removed during the present congress, as after the organization the senate will be a tie. The only way by which a republican could be elected, would be for two democrats to vote with the republicans on the organization, making 37 to 36, or for Senator David Davis to vote with them after the organization to replace Senator Bayard by a republican, neither of which contingencies will arise. Senator Bayard will probably be the next president of the senate—a just and honorable man, it is believed, who will not be likely to abuse his power, unless he ignores the record of his life.

Considerable indignation has been expressed of late at the manner in which billiard saloons have been conducted on Sunday. Persons passing by these institutions on any Sunday within the last few weeks or months would be sure to have their sensibilities shocked by the loud noises that emanate through the half open doors and wire screens. The saloon men of the city are being, and always have been, allowed privileges that are not guaranteed to them by the ordinances, and some of them have of late allowed these privileges to be shamefully abused by persons who frequent their places of business on Sunday to play billiards, and who do so in a most disorderly manner. There is nothing wrong in a quiet game of billiards, it is an innocent amusement in itself; but when the sharp click of the ivory balls
