CITY COUNCIL.

Special Meeting. COUNCIL CHAMBER, CAIRO, Ill., Dec. 24th, 1881. Present—His Honor Mayor Thistlewood and Aldermen Blake, Halliday, Hinkle, Hughes, Kimbrough, Saup and Wood—7.

The mayor stated the object of the meeting to be for the transaction of general business. Whereupon the following resolution and report of finance committee was submitted.

Resolved, That the city treasurer is hereby authorized and directed to transfer the balance now in the city treasury in the railroad strip fund \$6,483.88 from that fund to the general fund, the same to be paid out under the appropriations made payable from said general fund.

Resolved, That the said balance so transferred, as above, shall be returned to said railroad strip fund from moneys to be paid into the treasury on account of the corporation taxes 1881, and the city treasury is hereby authorized and directed to that effect.

Your finance committee respectfully recommend the adoption of the foregoing resolutions, in order to adjust the funds in the city treasury so as to be available for the purposes of the city.

THOS. W. HALLIDAY, PETER SAUP, B. F. BLAKE, Finance Committee. Alderman Hughes moved that the report of finance committee be received and resolutions adopted.

Motion carried unanimously. Mayor reported having received communication from W. M. Williams, agent of Cairo & St. Louis R. R. at this place, asking if said road were to change their line of road from the inside of New Levee street to the outside, would objections to crossing Washington avenue north of cross levee and cross levee be withdrawn.

Alderman Hughes moved to refer communication to the joint committee appointed to consider matters relating to above. Motion carried.

On motion of Alderman Saup meeting adjourned. D. J. FOLEY, City Clerk.

The End of the World. The age of the earth is placed by some at five hundred millions of years; and still others, of later time, among them the Duke of Argyll, places it at ten million years, knowing what processes have been gone through. Other planets go through the same process. The reason that other planets differ so much from the earth is that they are in a much earlier or later stage of existence.

The earth must become old. Newton surmised, although he could give no reason for it, that the earth would at one time lose all its water and become dry. Since then it has been found that Newton was correct. As the earth keeps cooling, it will become porous and great cavities will be formed in the interior, which will take in the water. It is estimated that this process is now in progress, so far that the water diminishes at about the rate of the thickness of a sheet of writing paper each year. At this rate, in 6,000,000 years the water will have sunk a mile, and in 15,000,000 years every trace of water will have disappeared from the face of the globe.

The nitrogen and oxygen in the atmosphere are also diminishing all the time. It is in an appreciable degree, but the time will come when the air will be so thin that no creatures we know can breathe it and live; the time will come when the world cannot support life. That will be the period of old age, and then will come death.—R. A. Proctor.

The Montezuma marshes in Cayuga county, New York are likely to become as valuable as a coal mine. The marl is being shipped to France by the thousands of tons, being used as a deodorizer and entering into the manufacture of fertilizers.

One intoxicated man said it was a bundle of rags that lay on a window sill two hundred yards away, at Austin, Tex., and his companion said it was a woman's head. They made a bet, and decided it by shooting at the object; but neither won for it was a boy's head which the bullet grazed.

A new solution of the growing perplexities in the question of public libraries, how much and what kind of fiction they should furnish, is offered by an English gentleman, a member of parliament, who thinks the best way is to establish children's libraries which shall aim to form a correct taste. He offers \$500 toward a trial of his scheme.

The Liverpool Daily Post publishes of a religious census-taker on Sunday morning, Oct. 16, in the various churches and chapels of that city: There are 318 places of worship in Liverpool, with sitting accommodation for 169,792. The actual attendance on Sunday amounted to 63,576, out of a population of 552,000.

The lasts for a pair of shoes for Fannie Mills, of Sandusky, O., are making in Albany, N. Y. They are 18 inches in length and 7 1/2 inches in width. The size is 27 1/2. The contract for making the shoes has been taken by an Albany firm, and without doubt the shoes will be the largest ever made for a human being in the world.

A Massachusetts school teacher was recently fined \$25 and costs by a district judge for intemperately beating a young boy, one of her pupils. The judge took occasion to pronounce the assault one of the most outrageous cases of cruelty to a child which had ever come under his observation. The teacher appealed, and was held in \$300 for trial in the next term of the superior court.

The treasury department will not accept mutilated coin. Absolute and persistent refusal of such coin by each individual will, therefore, force the loss upon those who most deserve to bear it—viz., those who mutilate the coin for the purpose of gain, and those who may be so unfortunate as to hold such which has been mutilated for the above or any other reason.

The Detroit Free Press declares, without the shadow of authority, that "when Senator Logan heard that he was a grandfather, he shed tears." This shows how these "literary fellers" can lie without provocation. The fact is, when Gen. Logan was informed that he was a grandfather, the first question he asked was, "Is the papoose an Indian or a squaw?" And he was a very happy man in either event, and smiled all over.

One of nature's gem-cabinets has been discovered in Alexander county, Ill. Sinking a shaft a cavity was reached where were found nine of the finest emeralds ever discovered in the United States. The largest was eight and a half inches long, with an average diameter of one inch. Though these stones were not in all respects satisfactory, it is believed that deeper mining will reveal emeralds of greater value.

"How many times captain," said Miss Gush at the breakfast table on board an ocean steamer, "how many times have you been shipwrecked?" "Three," said the captain, as he knocked his egg with a spoon. "And you were never drowned?" went on Miss Gush, who was deeply interested. "Never completely," replied the commander, while everybody laughed and Miss Gush made haste to seek the seclusion her stateroom granted.

President Grover is a man of much simplicity and bonhomie. His good sense and his kindness are proverbial. It is notorious that he holds in horror capital punishment, and looks as carefully in the cases of wretches asking for pardon as if he were an advocate engaged to urge in their behalf extenuating circumstances. He was never known to turn his back on an old friend who had not succeeded in life, and as president he is accessible and courteous. His determination that his daughter should have no showy wedding, and that the money that one would cost should be sent to the relief bureau, has been much applauded in France.

THE BEST REMEDY KNOWN TO MAN!

Twelve Thousand Bottles Sold Since 1870!

This Syrup possesses varied properties: It stimulates the pyloric in the saliva, which converts the starch and sugar of the food into glucose. A deficiency in pyloric causes wind and souring of the food in the stomach. If the medicine is taken immediately after eating, the fermentation of food is prevented.

It acts upon the Liver, It acts upon the Kidneys, It regulates the Bowels, It purifies the Blood, It quiets the Nervous System, It Promotes Digestion, It nourishes, Strengthens and Invigorates, It carries off the Old Blood and makes New, It opens the Pores of the Skin and Induces Healthy Perspiration.

It neutralizes the hereditary taint, or poison in the blood, which generates Scrofula, Erysipelas, and all manner of Skin Diseases and internal tumors. There are no spirits employed in its manufacture and it can be taken by the most delicate babe, or by the aged and feeble, care only being required in attention to directions. Galva, Henry County, Ill.

THE EQUITABLE LIFE Assurance Society.

120 Broadway, New York, DOES THE LARGEST BUSINESS of any Life Insurance Company IN THE WORLD.

Why?

Because It alone issues Incontestable Policies, stipulating that the contract of insurance "shall not be disputed" after it is three years old, and that such policies shall be Paid Immediately, on receipt of satisfactory proofs of death.

Because Its policy is clear and concise, and contains NO ARDUOUS CONDITIONS.

N. B.—READ YOUR POLICIES. Compare the short and simple form used by the Equitable with the long and obscure contracts loaded down with technicalities issued by other companies!

Because Its CASH RETURNS to policy holders are Unprecedented.

N. B.—See the many letters from policy holders expressing their gratification with the returns from their TONTINE SAVINGS FUND POLICIES.

Because of its Financial Strength. Outstanding Insurance 190 MILLIONS. Assets Securely Invested 43 MILLIONS. Surplus Securely Invested, nearly 10 MILLIONS.
