Murder and Lynching in Tennessee — A Fatal Mine Explosion — Political and General.

St. Louis, April 30.—Annie Bourke has been on a visit to some friends at Twenty-ninth and Chestnut streets, rode down town in the Olive street cars on her return home to Seventh and Gratiot streets. At Fifth street while waiting for the cars going south she was in Pine street when she was accosted by a stranger who, she says, forced her to accompany him to No. 100 Pine street. There she was forcibly led up stairs to the third story, which is used as a poker room. The door was locked and she was confined in a room. The girl identified the prisoner and made an affidavit charging rape. McGuinness denies that he used force, but acknowledged that he took the girl to his room. McGuinness is in jail.

The Tewkesbury Alms-House. BOSTON, April 30.—The Tewkesbury investigation was resumed this morning. Timothy Kelleher, charged with the murder of a Tewkesbury inmate, was brought to court. The cases which had contained bodies from the state prison were sold and the money given Thomas Marsh, Jr. About eight cases remained when he left last Saturday. He had sold about half of them. The bodies were not so much as the Marsh's had had their kitchen supplied with chickens from the alms-house and their washing done by the inmates.

Killed by Mistake. BOSTON, April 30.—Albert H. Beals, of the firm of Beals & Fickett, spice dealers, Boston, shot and killed his partner, A. Perle Fickett, on the Fall River steamer Bristol Sunday night. Both men occupied a stateroom together, and about 1:30 a. m. Fickett got out of his berth and went to the window. Beals was awakened by the rattling of the blind thinking some one was trying to enter the room, he drew a revolver and fired. The bullet entered Fickett's forehead and passed out at the back of his head. He lived about an hour and a half. Beals was delivered to the police on the arrival of the boat at Fall River.

Prohibition in Ohio. CINCINNATI, O., April 30.—At a meeting of Methodist ministers this morning the subject of the duty of the church in regard to the present aspect of the temperance question in the state was discussed. Rev. J. M. Walden, a prominent prohibitionist, strongly condemned the plan of a separate political organization, but favored earnest work on behalf of the adoption of the prohibition amendment. This view was embodied in the resolutions adopted.

Star Route Trial. WASHINGTON, April 30.—When the star route trial opened to-day, Ingersoll announced that he was willing to submit the case to the jury for the Dorseys, provided the government would agree to proceed no further with the argument. The court then wished to hear from the government. Merrick answered that the government had not completed the opening of the case. That is enough," said Judge Wiley, and Ellis began his address to the jury.

EUROPEAN AFFAIRS.

The Car Driver on Trial for Murder—The Times on the Irish Convention Extradition.

ENGLAND. LEGISLATIVE. LONDON, April 30.—In the Commons this afternoon, Trevelyan, Chief Secretary for Ireland, stated he believed a widespread conspiracy to murder existed in County Clare. Trevelyan and Gladstone refused to answer O'Donnell's question. O'Donnell then laid on the table the evidence which he claimed would sustain his charge against Lloyd.

POSSIBLE EXTRADITION. LONDON, April 30.—It is stated that documents containing charges against the dozen persons now in America who are accused of the murder in Ireland of Kenney and Bailey, have been forwarded to Sackville West, the British Minister at Washington. Deposits will be lodged in the case of five more of the alleged murderers. Secret negotiations are now proceeding between the British and American Governments with a view to the extradition of these men.

LONDON, April 30.—Bullion withdrawn from the Bank of England on balance to-day £33,000.

THE THUNDERER. LONDON, April 30.—The Times, in an editorial, says the Irish convention at Philadelphia, began with the clap-trap of malignity and closed after the same fashion. The whole proceedings were in fact a farce, and it is not surprising that the only practical suggestion made by the convention for injuring Great Britain is the advice to the people of Ireland to buy nothing from England unless obliged to do so. It is a confession of impotence when Irish made is driven to such a policy expedient, which if tried would only injure its adopters. The lesson for Great Britain is to ignore Irishmen and abandon the hope of bringing them to a better frame of mind by the continuance of unmerited favors. The have already convinced the rest of the world they are unfit to have national independence, and they must be made to feel the strong hand of law.

IRELAND. DUBLIN, April 30.—The trial of Fitzharris, known as "Skin-the-Goat," one of the alleged principals in the murder of Cavendish and Burke, was begun this morning. The prisoner pleaded not guilty. The case for the prosecution was opened by Porter, Attorney-General for Ireland. He argued that, although Fitzharris did not personally stab Burke, yet he was cognizant of the act and was the implement of murder, as he drove off the assassins red-handed. The defense will endeavor to prove that Fitzharris merely drove the murderers in the case of his vocation as a cab driver and did not know what the object of the errand was.

MORE ARRESTS. CLIPDEN, April 30.—Two merchants in town, named O'Keefe and Conn, have been arrested, charged with being connected with the conspiracy to murder. According to information given to the authorities by informers, a number of apparently respectable persons are implicated in murder and conspiracy. The man Nevin arrested here Saturday on a charge of being concerned in the conspiracy to murder has turned informer.

THE PARNELL TESTIMONIAL. DUBLIN, April 30.—The testimonial which is being raised for Parnell has reached £26,000.

RUSSIA. ST. PETERSBURG, April 30.—The Czar and Grand Duke Constantine, uncle of his majesty, have become completely reconciled through the mediation of the Prince Dolgorouki.

FRANCE. PARIS, April 30.—Jules Goupil, the painter, is dead.

ITALY. ROME, April 30.—Earthquake shocks have again occurred in Sicily, near Mount Etna, which, it is believed, is on the point of breaking into open eruption.

TWO FAILURES. ST. LOUIS, April 30.—Nettie Roberts, a pretty brunette, applied at the Hotel Brown on Saturday evening for a room. Captain Brown gave her a room in the third story. Her absence from the supper table attracted no attention. On the morning the smell of gas in the corridor near the girl's room aroused suspicion, and the proprietor requested his wife to enter Nettie's room. The door was found filled with open gas. The girl lay on her bed, seemingly dead. A physician, after a hasty examination, said that Miss Roberts had been asphyxiated by the gas that had filled the room. The usual remedies were applied but without effect. It was then suggested that she had taken poison with suicidal intent. It was at length ascertained to be a case, one of poisoning with sugar of lead. Emetics were administered, and after a time the girl recovered consciousness and this morning is said to be out of danger. The second physician who was summoned said that he saved her life about two weeks ago under like circumstances in the western part of the city, and was so much interested with her sad history that he got a home for her with his mother where she lived until Saturday last, when she went away without a word to any one. She is said to be from Australia where both her parents died. She is only sixteen years of age; her address betweens education and refinement.

Cigarmakers' Strike. ALBANY, April 30.—The cigar manufacturers met Saturday and agreed to discharge all their men. The Cigarmakers' Union demanded \$2 per 1,000 advance, but the manufacturers are only willing to pay \$1. All the shops, save where girls are employed, and one shop where half a dozen union men who received the advance asked for are at work, are closed. The manufacturers say they will not accede to the demand.

Waring Officials. EAST ST. LOUIS, Ill., April 30.—P. H. O'Brien and George Goer, Councilman of East St. Louis, have entered suit against Mayor O. R. Winton and all the newly-elected members of the City Council, the four policemen that treated them, John B. Bowman and Frank Bowman. The suit is for \$5,000.

Murdered by Unknown Parties. PITTSBURG, Pa., April 30.—Phillip Maguire, an old man found in an unconscious condition on Penn avenue Saturday night, having been attacked by unknown parties, died Sunday night from the injuries received. Three brothers named Bilger have been arrested on suspicion of committing the murder.

Lynched for Murder.

CHATTANOOGA, Tenn., April 30.—A special from the government works at Muscle Shoals, near Florence, gives an account of the lynching of George Wires, colored, who murdered a white boy, aged twelve, to secure \$12. The boy had just been paid. After robbing the boy he threw him eight times into the river, but the boy swam back to the shore. After amusing himself by throwing the boy in the river he beat him and beat out his brains with a stone, and threw him in again. A man on the opposite shore witnessed the murder, but the river was too wide to make his presence known. A description of the negro was given the jail, who arrested him. The same night a crowd of workmen employed on the river improvements visited the jail and demanded the prisoner. Owing to the delicate condition of the jailer's wife at the time the mob was persuaded to disperse. This all occurred on the 20th inst. Saturday night the mob again visited the jail, carried the jailer's wife to another house and then took the prisoner and hung him to a beam in the depot building, and riddled the body with bullets. The negro confessed.

A Fatal Mine Explosion. NEW YORK, April 30.—An Ashland, Pa., special says a fearful explosion has just occurred at the Keystone Colliery Mines, by which several lives have been lost and a number of miners seriously, probably fatally, injured. The explosion was caused by the sudden collapse of a pillar, causing an immense fall of coal. The rush of coal forced down the gas with such velocity as to cause an explosion. The full extent of the disaster cannot yet be learned. Great excitement prevails at the mouth of the mine, where people gathered in large numbers. Charles Tyler, Patrick Hagan and Coney Walter have been taken out more dead than alive. The dead body of Andrus Jones has just been taken out. Three others are known to have been killed. A number of others are also badly burned. Physicians and priests are hurrying to the scene of the disaster.

Teachers Should Have Better Salaries. NEW YORK, April 30.—The New York Alumni of Cornell University have prepared a report to present to the Alumni at the next commencement in Ithaca. They are not satisfied with President White, who they say is too deep in politics to look carefully after the institution's interests, and who scatters his energies too much. They blame the trustees for paying such small salaries that the best educators will not stay at Cornell, which has been the decline for several years. They ask that the professors' salaries be raised from \$2,700 to \$3,800 a year, and favor the bill now pending in the Legislature to allow Alumni to vote by letter according to the Yale plan.

A Lady Lawyer in Jail. MILWAUKEE, April 30.—The decision of United States Commissioner Bran releasing Kate Kane, a female lawyer, on habeas corpus proceedings, because Judge Malory, of the Criminal court, committed her verbally for contempt in throwing water in his face, was this morning reversed by Judge Hamilton, of the Circuit court, who reversed the case on a writ of certiorari. Kate was remanded back to jail. Bail was offered, but Judge Hamilton decided the case was not bailable. The prisoner says she will never pay the fine of \$50 if she stays in jail all her life.
