READY FOR THE CROWN.

An Explosion in the Wash-stand of the Czar's Room.

The Grand Procession and the Triumphal Entry into Moscow —Other Important Foreign News.

RUSSIA.

LONDON, May 22.—A dispatch from Berlin says the report, which is not yet confirmed, comes to St. Petersburg, that previous to the departure of the Emperor for Moscow an explosion occurred under the wash-stand and in the fire-place in his dressing-room, but nobody was injured, the Emperor and Empress being in the dining-room at the time.

THE CZAR'S ENTRY.

MOSCOW, May 22.—The weather this morning for the entry into Moscow of the Czar is splendid. The whole route from the Petroffsky palace to the Kremlin, four and a half miles, is crowded with people. At every point the imperial standards are displayed and the balconies hang with gaily colored materials and the Russian colors. The only foreign flags allowed to be displayed are those over the various embassies.

Along the road which the procession traversed a hundred Venetian masts, from which banners are flying. All the domes and spires of buildings in the city are decked with flags. Thousands of persons passed the night out of doors as they might secure good places to witness the procession. Multitudes of others thronged the churches prating for the safety of the Emperor.

THE CZAR'S UNIFORM.

MOSCOW, May 22.—The Emperor wore the uniform of a General and was mounted on a splendid charger. He rode a little in advance of the four Generals who were directly attending him. He maintained a calm demeanor, although he often smiled graciously in response to the wild enthusiasm which greeted him at every point.

THE PROCESSION.

MOSCOW, May 22.—The Czar left the Petroffsky palace at noon and reached the Kremlin at 1:25 o'clock. There was a slight fall of rain during the march of the procession, but otherwise the affair was a complete success. The enthusiasm of the people all along the route was unbounded.

Cheer upon cheer followed each other incessantly from the densely packed multitude on the streets, and from the thousands of people in the balconies and windows. The Empress was greeted with every mark of enthusiasm and loyalty. Her daughter, the Grand Duchess Xenia, threw kisses to the people. The Grand Duke formed a very brilliant group. The Asiatic deputations were also magnificently attired. The state carriages were splendidly decorated and the whole effect was most gorgeous. The entire route was lined with troops. At the moment the cortège entered the city a salute of seventy-one guns was fired from the Tsarskaya place. The Governor-General received the Emperor at the city boundary and joined the cortège with his suite.

HAPPY NASHVILLE,

The Southern Historical Society and the Military Encampment.

NASHVILLE, TENN.

NASHVILLE, Tenn., May 22.—The Tennessee Soldiers' Association and such members of the Southern Historical Society as were in the city met at the State Capitol this morning. Hon. A. J. Caldwell Congressman elected from this district delivered an address of welcome. A response on behalf of the Historical Society was made by Colonel H. D. Capens. Brief addresses were also made by James Smith, of Glasgow, Scotland; Governor Bates, General Frank Cheatham, Hon. F. M. Cockrell, of Missouri; Colonel Riley, of Georgia; Maj. C. W. Frazier, of Memphis, and Col. John H. Savage, of Hattiesburg. Jefferson Davis was unable to be present on account of his indisposition. The regular session of the Southern Historical Society was postponed until October. The city is full of visitors to the competitive drill and the hotels are crowded. The weather is still raw and cloudy. The ceremonies with an address of welcome by Governor Bates at the encampment, at 2 o'clock, the drill at 3 o'clock. Not less than 10,000 people are assembled. In the toss-up, the Lawrence (Mass.) Light Infantry got first place, the Crescents thirteenth. All the companies entered not arrived. There will be about forty companies in the contest.

The drill promises to be the grandest military carnival ever held in the South. All the decorations blown down by the storm of Sunday have been replaced. The Nashville's narrow streets are again open and the processions are favorable for the grand-street parade to-morrow.

Among the distinguished visitors Prince Augustus, Heribert of Mexico; Hon. Blackburn, Governor of Kentucky, and staff; and Senator M. C. Butler, of South Carolina.

Religious Gatherings.

NASHVILLE, May 22.—The General Assembly opened with prayer by Rev. Dr. Brauns, of Buffalo. The Hermann, Penn., church case was indefinitely postponed. The appeal of Dr. W. McLean from the Steubenville Presbytery suspending him from the ministry for heresy was laid aside temporarily. Rev. Dr. George D. Baker read the annual report of the Board of Home Missions. He said there was a great field for work beyond the Mississippi among the Indians, Mormons and Spanish-speaking people, and along the Northern and Southern Pacific Railroads and in Alaska. The report stated that 1,387 missionaries are supported by the board and 133 teachers by the Woman's Auxiliary Societies. The report recommends the General Assembly to raise \$60,000 for the imperative wants of the board for the coming year. The receipts last year were \$64,000. Rev. Dr. Henry Kendall, secretary of the Board of Home Missions, followed in a lengthy address, describing the field of labor and the work accomplished and what now confronts the board. The report adopted, after being amended by striking out the recommendation that President Arthur and the Secretary of the Interior be asked to establish a civil government in Alaska and to grant aid to the schools established there by the church.

FRANCE.

PARIS, May 22.—Cardinal Lavergne, Arch-bishop of Algiers, has been authorized by the Pope to call the attention of the French Government to the difficulty the Pope has in preventing a tension between the Vatican and France from becoming an open rupture, and to show it how impotently he could do it. The Republic would accept a result. The Government made an amiable reply to the Cardinal's communication.

ANARCHIST ARRESTED.

PARIS, May 22.—The anarchist, Morphy, having returned here after being expelled, was arrested. He had intended to found an anarchist journal.

IRELAND.

DUBLIN, May 22.—A quantity of arms and cartridges has been discovered under the bridge at Sligo.

ANOTHER MURDER CONSPIRACY.

DUBLIN, May 22.—An inquiry is proceeding into the murder conspiracy which has been unearthed in County Mayo. The first clue to its existence was obtained from a person arrested with suspicious papers in his possession. He was then released to act as a spy in the interest of the police. In this capacity he attended several meetings of the conspirators, at which a number of persons were named to be murdered. The assassins were appointed by lot. In the course of the plots concocted by the conspirators, two farmers were shot and wounded. Six of the plotters are arrested and are undergoing examination.

Cave-in.

SHENANDOAH, Pa., May 22.—Another cave-in occurred at Raven Run, on the Lehigh Valley Railroad, last evening. The hole is sixty feet long and eighty feet wide, leaving the railroad ties bare. A freight train had just passed over when the break occurred. Trains were delayed all night. Hugh Murphy was fatally and Hugh Kennedy seriously injured by the fall of the rock to the coal at the Girard, mammoth colliery, at Raven Run Monday evening.

Bloodless Duel.

NEW ORLEANS, May 22.—David Todd, son of Justice Todd, of the Supreme court, and Joseph Levesey, of the Mascot, fought a duel this morning near the city. After exchanging harmless shots at fifteen paces both parties declared themselves satisfied. The trouble grew out of articles published in the Mascot, reflecting on Todd's father.

Chloroformed and Robbed.

BOSTON, May 22.—The house of Alfred Cole, Beckfield village, Maine, was entered last night. Mr. and Mrs. Cole were chloroformed and \$5,000 in currency stolen.

Fire Losses.

DETROIT, May 22.—The loss at Hammon, Standish & Co.'s fire at midnight is \$4,000 on buildings and \$6,000 on stock; insured.

AT Henrietta, Texas, on Sunday, W. C. Curtis, a wealthy cattle man, shot and killed C. M. Burgess. Both drew their pistols but Curtis was quicker than Burgess. Curtis gave himself up.

Marital Infidelity in Chicago.

CHICAGO, May 22.—Sid. France, the actor, who is representing Missouri's most distinguished son, Jerry Coffey, in a theater here this week, has filed suit for divorce. Mrs. France deserted him last year while he was ill. He charged that two years before she had acquired intemperate habits, and while in the Far West formed an intimacy with another man.

Mrs. Ella Weber contradicts the charge of adultery made by her husband she desires to baffle in his cross-bill. She can't forgive or forget his stinginess, particularly as on one occasion when she invited a clergyman to dinner, Dr. Weber slipped into the dining-room, snatched the roast turkey off the table and locked it up, preventing the divine from enjoying his favorite dish.

Alfred Miller asks a divorce from Isaac, who surrendered a farm on a liquid mess of potato and then staggered out to the Golden Gate, leaving her to stitch the "Song of the Shirt" with a needle and thread.

Emma Wheatcroft was given a legal release from Thomas, who, doting her son, had indulged in personal violence, tearing her child from her arms, and had also rioted in some thousands of her money.

Alfred Ormsbee was given the privilege of resuming her maiden name, as it was proven that her legal representative, a commission man, indulged in Mormon pietantries without the pretense of going through the "celestializing" process.

Anti-Monopolists.

ST. LOUIS, May 22.—At the meeting of the Central Anti-Monopoly Club, of St. Louis, last evening, encouraging reports were made as to a canvas now being made of the department of the Emperor for Moscow an explosion occurred under the wash-stand and in the fire-place in his dressing-room, but nobody was injured, the Emperor and Empress being in the dining-room at the time.

THE Czar's ENTRY.

WESTERN UNION.

SPRINGFIELD, Ill., May 22.—The seven winter deals a heavy blow to growing wheat, and immediately following this point the stalks usually weaken and fall to the ground before maturing. The army worms operate on the surface, stripping off the blades and sometimes cutting off the wheat heads. They are very destructive to meadows, oats, etc. They thrive best during cool, cloudy weather. Wheat is not fresh, many fields are developing into cheat. The prospect is indeed gloomy. It is generally believed that not more than one-fourth of an average crop will be raised on the prairie lands. Much of it will be plowed up, and much that remains will not be worth harvesting. The timber and bottom lands are much better, and will probably yield one-half of a crop.
