A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a minister in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D., New York City.

Strength for Mind and Body.

There is more strength restoring power in a bottle of Parker's Ginger Tonic than in a bushel of malt or a gallon of Milk. This explains why invalids find it such a wonderful invigorant for mind and body.

For Dyspepsia, Indigestion, Depression of Spirits and General Debility, in their various forms; also as a preventive against Fever and Ague, and other Intermittent Fevers, the "Ferro-Phosphated Elixir of Calisaya," made by Caswell, Hazard & Co., New York, and sold by all Druggists, is the best tonic; and for patients recovering from Fever or other sickness, it has no equal. WORK GIVEN OUT. On receipt of your address we will make an offer by which you can earn \$3 to \$7 evenings, at your home. Men, Women, Boys or Girls can do it. H. G. Wilkinson & Co., 195 and 197 Fulton Street, New York.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Barclay Bros. (5)

At Appraised Value, Cheap Goods.

We shall offer on Monday and until closed out all the remaining stock of the New York store which consists of Dry Goods, Notions, Boots and Shoes, Ribbons and many other goods at the appraised value of 60c. on the dollar taken by us from the late firm of C. O. Patier & Co. This stock consist of over twenty thousand dollars worth of goods.

BARGAINS.

This will enable the trade to supply themselves from such goods as are left of this great stock, very cheap. Give them a rare chance to buy at one-half their cost. Call and see the bargains and goods offered. We are now receiving our fall stock all fresh new goods bought from first hands, which we offer to the trade at the lowest possible prices, consisting of Dry Goods, Notions, Boots and Shoes, Staple and Fancy Groceries, in fact all goods needed for family use.

To make room for our new goods we must close out the former stock of the old firm of C. O. Patier & Co. Call and buy these goods at one-half their value.

—"Celebrated Case" is a comedy drama which cannot but interest the ladies.

—Printing and ruling at THE BULLETIN job office.

—We are assured by the Paducah News that the Eckfords will be here to-morrow afternoon to play the deciding game with the Cairo club.

—Commercial printing at THE BULLETIN office.

—Magnificent dressing is among the many attractions presented this afternoon by the Huntley dramatic company at matinee. Admittance fifty cents.

—Wedding invitations at THE BULLETIN office.

—The executive committee of the Widows and Orphans Mutual Aid society was to have met Thursday night, but didn't. An interesting meeting is expected—when it transpires.

—Mr. Fred Teichman has a fine gold watch and chain, which will he give away soon. Go and see it. It

—Several days ago the little son of Mr. H. F. Goodyear had a finger crushed between the cog wheels of a machine belonging to Mr. H. A. Hanson. The finger had to be amputated.

—A gold watch and chain, 14 K, is to be given away by Fred Teichman at his billiard parlors some day in the near future. It is on exhibition at his parlors. It

—The boys became so troublesome at the Opera House door last night that arrests had to be resorted to, and several of them will probably have to appear in court to-day.

—The butcher shop on the south side of Eighth street, nearest Commercial avenue, is now run by Louis K. Koehler, sr., and Louis J. Koehler. Meats of all kinds and best quality always on hand. It

—We have had the pleasure of examining Geo. F. Cram's Unrivaled Family Atlas for which Mr. Wm. C. Hirte will make a thorough canvass of our city. He also desires to secure a few good agents to work

in Kentucky, Missouri and Arkansas. Any person wishing a light, pleasant and paying business would do well to call on or address Wm. C. Hirte, general agent, DuQuoin, Ill.

—Yesterday morning Magistrate Comings rendered a decision in the case of the city vs. the Wabash railroad switchman, deciding in favor of the city and assessing a fine of \$25 and costs against defendant. It is understood that an appeal will be taken in this as has been the rule in all former cases.

—A number of young people of this city have decided to tender a ball to three young ladies who are visiting friends in the city, next Monday night, at Temperance hall. The young ladies in question are, Miss Nellie E. McGrath, of Chicago; Miss Angela Watson, of Denver; and Miss Nellie Parsons, of Kennebunk, N. Y.

—In the parlors of The Halliday by Rev. Scarritt, Mr. M. E. Conger and Mrs. R. E. Campbell, of Chicago, were united in marriage in the presence of a number of ladies and gentlemen, guests of the house yesterday morning at 10 o'clock. They were both very handsome people and evidently well-to-do. They left yesterday on the southern Illinois Central train.

—It has been decided to put up an electric light also in the office room of The Halliday. An experienced electrician has charge of the construction of the apparatus and is now engaged in testing the lights to bring them up to the requisite power. Each light is to be of two thousand candle-power. The posts for the outside lights have already been erected and are thirty-five feet high.

—Mr. Louis Herbert has for a day or two enjoyed a visit from a friend of his younger days, Mr. Leo Ebert, of Ohio. Mr. Ebert was born and raised in the same town as Mr. Herbert; he is now a prominent business man and politician in Ohio, and during the late election in that state "stumped" the state for Hoadly, doing effective work. Prof. Goss' band serenaded him at Mr. Herbert's residence Thursday night. Yesterday Mr. Ebert, Mr. Herbert and Alderman Blake went out on a fishing excursion.

—We have received the first issue of the Golden Sentinel, a new paper published at Cobden, Union county, Ill. It is an eight page, five column weekly, published and edited by Mr. A. M. DuBois. It has every evidence of prosperity and of being gotten up by a practical newspaperman and a sensible fellow. The paper is a thing of beauty and a positive joy in everything but its politics. In this it is abominably Republican. But this fact, in view of the results of the late elections, only proves Mr. DuBois to be a man of extraordinary courage. May he succeed in everything but politics.

—Some time ago three members of the Widows and Orphans Mutual Aid society allowed their regular dues to lapse and they were declared by the secretary to be no longer members of the society. Subsequently they were reinstated as members of the society in the regular way. The secretary claimed that this reinstatement as members of the society did not reinstate them as members of the board of managers also, but upon this point the reinstated members take issue with the secretary, and this point is one of many submitted to the auditor of state for his opinion.

—The cave at the Tenth street sewer, caused by the extraordinary rain of Wednesday night, is not half so serious as some seem to think. It is true, the opening through which light penetrates to the workers was closed up, but only a few wagon loads of dirt would have sufficed to do this. A few hours' work with the wheelbarrows will clear the passage again of all obstruction. The work of building the sewer has not even been interrupted by the caving, but proceeds with the same vigor as before. Nevertheless the repeated cavings have caused trouble and some delay, but not enough to be of any consequence at all, viewed from a pecuniary standpoint.

—A very fair sized house greeted the Huntley dramatic company at the Opera House last night in Rip Van Winkle. The play is an old one and has, to a great extent, lost public interest, hence, probably, the failure of the people to turn out in such large numbers as a good troupe would merit. But the presentation, Mr. Huntley's part particularly, was above criticism. He was very amusing and very impressive, moving the audience to mirth or to sorrow at will. Miss Kennedy supported him as Mrs. Van Winkle or "Gretchen" with equal ability. At the conclusion of the first act, when the wife, driven to desperation by old Rip's drunken habits, drove him from the house, the parting scene was so realistic that many in the audience were moved to tears. Little Constance, as "Minnie," was also very good. The other members of the company who had minor parts enacted them well.

—Prof. Worthen, the state geologist, has taken possession of the bones of the mastodon recently found at Chester, and has had them removed to the state museum at Springfield. He furnishes the following measurements: The length of skull is 3 feet, breadth 2 feet, thigh bone 3 feet long, bones of the fore leg 3 feet long, diameter of tusk at base 8 1/2 inches, length of the longest tusk preserved, 5 feet and 6 inches. Then there is another tusk that was attached to the head, but was broken off three feet from the head. The shoulder blades are immense, and measure about 2 feet 9

inches across. The leg bones are from 5 to 7 inches in diameter in the center. The specimen is well preserved, but of course is not complete. Some pieces of ribs, and a few bones of the feet were not found, but sufficient of the remains have been found to construct or form an estimate of its immense size. Some idea may be formed by saying the bones so far preserved weigh nearly 1,000 pounds.

—Chester Tribune:

"Although a little early in the game quite a lively interest is already being manifested among Republicans of this congressional district as to who will be their nominee next year. Capt. Thomas, it is said, will endeavor to be his own successor. Judge Harker of Alexander county, Geo. W. Smith of Jackson, W. S. Morris of Pope, J. M. Kelly of Perry, and J. R. McFie of Randolph, are all said to have the congressional bee in their breeches, and will test the championship with Capt. Thomas in the next convention. If the Democrats have any prospective candidates they have not yet come to the surface. With no discussion in the party ranks this district ought to be good for 2,000 majority for the nominee of the Republican party. We hope that in the future peace and harmony will prevail."

The Tribune is not any more ahead of time than Capt. Thomas is, who has been for some time engaged in "settling up the pins" for the next contest. That Capt. Thomas will "endeavor to be his own successor," is a question about which we had no doubt ever since the captain's memorable speech in the Opera House here, in which he very plainly indicated his purpose to succeed himself as an infatuated. And Capt. Thomas is probably as strong a man as the Republicans can bring forward. It is true, that the captain was elected by a small majority, but this fact was due, to a great extent, to Barton and his gang. Barton and his gang are now, by a strange freak of political fortune, the captain's hearty supporters, devout worshippers, we may say, and this would insure the captain much easier traveling in the next campaign. The Tribune's speculation concerning Democratic candidates is premature.

—The London Lancet contains an exhaustive article on the "Therapeutical Drinking of Hot Water; Its Origin and Its Use." The article is written by Dr. E. Braun Cutter, an eminent physician of New York City, and contains some statements and suggestions which, to say the least, are certainly worthy of attention. Dr. Cutter says that the first use made of hot water as a medicine, or "health regulator," was made by Dr. James H. Salisbury, of New York, who by a series of experiments on men and various animals, demonstrated its efficacy. In his article Dr. Cutter gives directions for the proper use of hot water. In the first place, it must be hot, i. e., not less than 100 or more than 150 degrees Fahrenheit. This excites the proper action of the digestive organs. Cold water depresses and lukewarm water causes vomiting. For diarrhea the hotter the water the better. For hemorrhages it should be at blood-heat. The quantity of hot water drunk varies from one-half pint to a pint and one-half, according to the condition of the patient and the disease treated. The hot water should be taken one or two hours before each meal, and a half an hour before retiring. This gives the water time to operate before food enters the stomach or sleep comes. The water should be sipped slowly, and the swallowing of half a pint should take half an hour. It takes six months to wash out the liver and intestines thoroughly. If the hot water seems "flat," flavorings, such as lemon, sage or ginger, may be added. The effects of drinking are noticed in the improved feelings of the patient. The urine becomes clear as crystal, and perspiration is free. The digestion improves, thirst disappears, and there is no longer a craving of liquor. Taken as a whole, from Dr. Cutter's estimate, the hot-water treatment is the most complete remedy yet discovered for all the evils flesh is heir to.

—All the colored delegates from this city who attended the convention at Springfield, have returned and with few exceptions are not well pleased with the work done. Mr. Scott and Judge Bird went from here with the avowed purpose of contesting for the chairmanship, but they were met by two men from Chicago who had the same ambition, and one of whom proved, in the end, that he had the longest pole. This disappointment was one source of displeasure. But Judge Bird was elected one of the vice-presidents which somewhat soothed him, no doubt, while Mr. Scott was not only left entirely out in the cold so far as the honors were concerned, but was beaten by a man who came into the convention and made the contest for the chairmanship as a stalwart of the stalwarts, and therefore Mr. Scott's independent blood death circulate above the normal rate. The Cairo delegation introduced a resolution in the big convention, similar in purport to that Mr. Scott had caused to be introduced in the little convention here, though it was couched in language less open. The manner in which this resolution was received and disposed of is thus given by the Springfield State Register:

"The resolutions were adopted without special objections until the Cairo convention resolution was reached. Here there was a wild scene for a few moments. The opposition finally got in a motion through Secretary Brown's father, to table the Cairo resolution. The chair ordered a standing vote on the motion; Secretary Brown who was figuring to beat the resolution did the counting, and returned the vote as 25 in favor of tabling to 23 against, although the Register reporter thought it the other way.
