

COUGHS SYRUP For the Cure of Coughs, Colds, Hoarseness, Bronchitis, Croup, Influenza, Asthma, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 Cents.

HOPSTETTER'S CELEBRATED STOMACH BITTERS The kidneys act as purifiers of the blood, and when their functions are interfered with through weakness, they need toning. They become healthily active by the use of Hopstetter's Stomach Bitters, when falling short of relief from other sources. This superb-stimulating tonic also prevents and arrests fever and acute constipation, liver complaint, dyspepsia, rheumatism and other ailments. Use it with regularity. For sale by all drug stores and dealers generally.

POISON OAK Some to yield every time to treatment with Swift's Specific. Spartanburg, S. C., March 19, 1884. Your most valuable medicine (Swift's Specific) has done me so much good that I feel like saying this for the benefit of those who suffer like I did. I was pained by Poison Oak, and saw not a ray of light for six years. I tried every kind of medicine, but none had the desired effect. After using six bottles of Swift's Specific I am restored to perfect health—with not a sign of that awful poison!

POISON OAK. I had for thirty-eight years suffered every spring and summer with Poison Oak, which I contracted in bathing when a boy. I tried every thing for it, including many physicians, but without any benefit. I took six bottles of Swift's Specific (S. S. S.) four years ago, and it cured me sound and well. The summer has passed, and I have had no return of it. JOSEPH BEASLEY, Columbus, Ga.

REMARKABLE RESULTS. I have had remarkable success with Swift's Specific; have cured several cases, particularly in a very short time. One case which I am now treating was given up to die, and after using three bottles is so far recovered that I think one more bottle will cure her. The most remarkable case of all was a lady with medullary cancer of the womb, for whom I had no hope whatever. After using one bottle I am satisfied she will soon be cured. J. WYLLIE QUILLIAN, M. D., Raleigh, S. C.

Treatise on Blood and Skin Diseases mailed free to applicants. THE SWIFT SPECIFIC CO., Drawer 3 Atlanta, Ga. N. Y. Office, 159 W. 23d St., between Sixth and Seventh avenues.

Dr. BATE 85 S. Clark St., Opp. Court House, CHICAGO. A regular graduate, and the Oldest Specialist in the United States, whose LIFE LONG EXPERIENCE, perfect method and pure medicine insure SPEEDY and PERMANENT CURE in all cases of Nervous Diseases. Affections of the Blood, Skin, Kidneys, Bladder, Emotions, etc. All Diseases, including the following: Catarrh of the Throat, Hoarse Voice, permanently cured and radical cures of all other ailments. NERVOUS Debility, Impotency, Seminal Losses, Sexual Decay, Mental and Physical Weakness, Failing Memory, Weak Eyes, Stunted Development, Impediments to Marriage, etc., from excess or any cause, speedily, safely and permanently cured. When inconvenient to visit the city for treatment, medicine can be sent everywhere by mail, or express free from observation. It is self-evident that a physician who gives his whole attention to a class of diseases attains great skill and experience through their study, and the Oldest Specialist, by whom every known good remedy is used. Dr. Bate's Age and Experience make his opinion of supreme importance. For those who call on or consult the Doctor, consultations free and sincerely given. Cases which have failed in obtaining relief elsewhere, especially in the West, are cured. Call or write. Hours from 9 to 4 1/2 to 8 on Sundays. 10 to 12. GUARANTEE TO HEAL OR SENT FREE. Address as above.

HOP PLASTER This porous plaster is absolutely the best ever made, combining the virtues of hops with gum, balsam and other ingredients. It is especially beneficial in curing diseases where other plasters simply relieve. It cures Rheumatism, Kidney Troubles, Headaches, Neuralgia, Muscle Aches, Affections of the Hoars and Larynx, and all other ailments in any part cured instantly by the Hop Plaster. For Try, Mail on receipt of five for \$1.00. Made on receipt of five for \$1.00. All druggists and country stores. Hop Plaster Company, Proprietors, Boston, Mass.

LAME BACK For Constipation, loss of appetite and diminished vitality take Hawley's Stomach and Liver Pills. Agents,

DANGER IMPENDING. A Serious Labor Riot Thought to Be Imminent at Quincy, Illinois. The Mayor of the City Publicly Expresses Himself in Sympathy With the Strikers.

Non-Union Men Egged by Women—The Bosses Will Call on the Governor for Military Protection.

QUINCY, ILL., April 25.—A labor riot is undoubtedly impending, and there is extreme alarm throughout the city in consequence. Last evening 3,000 persons gathered at the foundries, and again this morning there was another large throng in the vicinity. The women—mothers, wives, daughters and sweethearts of the striking molders—were especially clamorous, and whenever a "scab" appeared going to or from the workshops the women threw stale eggs at them, and a few hurled stones.

The Mayor's course had given the strikers renewed courage, as that official publicly announced his sympathy with the union molders, and leaves the further protection of the foundries to a special meeting of the council, which is called for to-night. It is proposed by the bosses to demand militia from the Governor, as they fear bloodshed. Serious trouble will be had to-day or to-morrow. City Marshal John Kroner was assaulted last night by an unknown man whom he attempted to arrest. He was seriously cut on the head with an ax.

James Harris of LaGrange, Mo., died last night of knife wounds inflicted by R. Beckel. The murderer is still at large.

THEY WANT PROTECTION. Chicago Newsboys Developing Strong Protective Tariff Proclivities. CHICAGO, ILL., April 25.—The newsboys and bootblacks are being worked up to a high pitch of excitement over the proposition to license them, and, in imitation of the saloon-keepers, have commenced to meet and discuss the situation. Their first gathering was held at the Newsboys' Home, at which about one hundred put in an appearance. They were noisy, as a matter of course, but at the same time there was a spirit of earnestness among them. They did their own speech-making, and their views proved to be as greatly at variance as if they were an indignant ward gathering. Two of the speakers had visited the Mayor and Comptroller during the day and expressed great surprise that they were not present.

"They are snide," replied a small boy's voice from a back seat. "They're afraid we'd stone 'em," yelled another. The chairman, who proved to be the proprietor of a down-town polishing establishment, replied by saying: "Boys, yeas wouldn't throw bricks at 'em, would yeas?" "No!" was the deafening reply, after which business proceeded. One of the speakers touched upon the revenue question in advocating a license. "We boys who's here wants protection from the traps, don't we?" he said, which was applauded to the echo. Another gamin, in expressing himself, said: "De question is high license or low license. De price out to be 'bout ten shimes," which created a hurrah of approval.

"I want to push the little fellows under 'twelve years of age out of the business," said a youth who was nursing a tuft of hair in front of his ears, "to keep 'em from getting run over." "I sees it all," said a little fellow on a front seat. "Yeas big uns wants to drive us little uns out. Now, go on!" The matron of the home at this juncture put in a word against the little ones, and said that of those in her charge under twelve years of age, only one had been able to save as much as twenty-five cents a week. His name, she said, was Tommie Burns, and he made the most of his money by begging. Tommie was occupying a seat near her, and indignantly denied the charge. The matron insisted that she was right, however, and the little fellow became so abashed at her expose that he finally gathered up his "kit" and left the meeting, crying as he went, followed by the jeers of the crowd.

After this discussion, if it might be called such, partook of a general hurrah character, to which the boys paid very little attention. At the close, however, it was given out that the crowd were in favor of paying a license fee of about \$1; of requiring residence in the city a year before being able to procure a license; and of refusing licenses to boys under twelve years of age. Jack Mack, Thomas Hutton, John Kenna, Arthur Johnson, and J. A. Miller were subsequently appointed to lay these views before the Mayor.

FROM WASHINGTON. Postal Telegraph. WASHINGTON, D. C., April 25.—Today the House Committee on Post-offices and Post-roads appointed a sub-committee, composed of Rogers (of Ark.), Ward (of Ind.), Taylor (of Tenn.), Bingham (of Pa.) and Wadswell (of Minn.), to draft a bill providing for postal telegraphy by contract. The sub-committee begins work to-morrow morning.

Going to Hurt Somebody. WASHINGTON, D. C., April 25.—Mr. Dorsey arrived here to-day, but at his request, it is understood will not be called before the Springer committee for some days yet. This committee is said to be working a new lead with a view to ascertain the exact relation existing between the Star-Route contractors and their bondsmen. Important developments are anticipated, as Dorsey is just in the mood to hurt somebody.

To Secure Per Diem. WASHINGTON, D. C., April 25.—In the investigation of the charges of irregularities against United States Commissioners before the Springer Committee to-day, G. B. Perkins, of the United States Service, stated that the United States

Commissioners at Ripley, N. Y., in the case against Randal, charged with counterfeiting, prolonged the hearing, occupying thirty days when but two days was necessary. The Commissioners did this, he said, to continue their pecdium, which is five dollars each. Other witnesses will be called in the matter.

Seventy Thousand Dollars for a Junket. WASHINGTON, D. C., April 25.—The House Committee on Foreign Affairs to-day instructed Mr. Stewart (of Texas) to draft a bill to be substituted in lieu of all others on the subject of providing for the appointment of three Commissioners to visit Mexico and Central and South America, for the purpose of ascertaining the attitude of those countries toward the United States as regards commercial matters, and report suggestions for the purpose of enhancing these relations. The bill appropriates \$70,000. The object is to see if the United States cannot secure some of the trade now going from South America to Europe.

You Tickle Me and I'll Tickle You. WASHINGTON, D. C., April 25.—General Rosecrans, of California, whose vote in favor of the consideration of the Morrison tariff bill has been criticised by the papers of the Pacific coast as tending to prevent legislation restricting Chinese emigration, says: "We depend on a body of Democrats for the consideration of our Chinese bill. To have voted against the consideration of the tariff would have been a refusal to listen to the appeals of their constituents for tariff revision. I could not expect them to consider the Pacific coast's wants without showing consideration for the feelings or views of my Democratic brethren, without whose favor we cannot succeed. Instead of preventing, I think my vote will secure favorable action on the Chinese bill, which was not otherwise probable."

Commissioners Differ. WASHINGTON, D. C., April 25.—President Comstock of the Mississippi River Commission to-day continued his statement before Representative King, of the Mississippi Levee Committee. His opinion was that the levees were not needed, but a deeper channel for commerce. Major Harrod, of the Commission, positively declared that the levees are an essential feature of the plan of improvement, and said the fact had been clearly demonstrated "to confine the water in the channel." He continued: "Levees must be constructed. This is the opinion of every commissioner except Comstock." He said a rough estimate of the Commission was that twelve million dollars would construct a complete line of levees some feet above the highest water from Cairo to New Orleans.

Good News for the Crescent City. WASHINGTON, D. C., April 25.—To-day the House Committee on Appropriations agreed to report favorably Ellis' bill to loan \$1,000,000 to the World's Industrial Cotton Centennial Exposition at New Orleans next December, one-third of the amount to be appropriated immediately after the passage of the act and the remainder in four monthly payments. The bill provides that no greater amount shall be expended upon buildings, grounds and preparations than the aggregate amount that may be secured by subscription or the capital stock and the amount of the loan. In the distribution of amounts that may remain in the treasury of the Board of Managers after the payment of current expenses of the administration, the amount of the appropriation by the Government shall be paid in full into the Treasury of the United States before a dividend or percentage of proxies shall be paid to the stockholders.

Senato. WASHINGTON, D. C., April 25.—In the Senate the Naval appropriation bill was reported from the House. Mr. Hale moved for a committee of conference on the bill. The action of the House, he stated, had been to reject all the Senate amendments with the exception of the appropriation of \$50,000 to provide for the armament of the steel cruisers.

The resolution providing that the silk flag presented to the Senate by Joseph Newman, of California, be deposited in the Smithsonian Institute was agreed to. Mr. Call reported favorably from the Committee on Education a bill to encourage Indian education in Dakota. Mr. George reported favorably from the same committee a bill to protect American laborers. Mr. Cameron (of Wis.) introduced a bill to sell certain public lands in the Arizona Mineral Belt Railway. Mr. Ingalls introduced a bill to provide for the sale of the New York Indian lands in Kansas.

When the bill to make the Department of Agriculture an executive department was reached, Mr. Kennan offered a substitute creating the Department of Industries, with a division of agriculture to be presided over by a commissioner. The substitute also creates other divisions to attend to labor statistics, mines, mining and other matters relating to trade and commerce. Mr. Bayard, objected to the consideration of the measure, accordingly it went over.

House. In his prayer this morning the Chaplain invoked Divine protection on the Greeley relief expedition and Divine aid for the successful termination of its mission.

THE SCUDDER IN DISTRESS. Her Hull Stove In and a Portion of Her Cargo Damaged. NEW ORLEANS, La., April 25.—The Picoigne's Vicksburg special says: "The Anchor Line steamer John A. Scudder, St. Louis to New Orleans, while making a landing at Bradford's Point, eight miles below here, yesterday afternoon, swung in broadside on the point and stove in thirty feet of her larboard hull. Finding the steamer making water Captain W. W. Baker landed at Warrington and commenced discharging her cargo, much of which was in the hold, and is more or less damaged. The steamer's commonwealth has gone to her assistance. The boat and cargo will be saved."

Heading for Tophet. WILKESBARRE, Pa., April 25.—Four acres of the surface above the working of the Black Diamond Colliery at Luzerborough have settled several feet. It is feared the mine is much damaged.

IN THE SWEET BYE-AND-BYE. The English Government Has at Last Decided to Send Relief to Gordon—Next Fall.

The Pall-Mall Gazette Waxes Sarcastic at the Delay, and Makes a Facetious Suggestion.

How Aguerro's Filibustering Expedition was Fomented in America—Self-Government Promised.

England. LONDON, April 25.—It is stated that large numbers of emigrants are going to Canada this year from the Continent.

ABANDONED THE PARNELLITES. John O'Conner Power, member of the House of Commons from County Mayo, has abandoned the Parnellites and joined the Independent Liberals. He will contest for an English constituency at the next general election.

GOING FOR GORDON. The Post says the Government has decided upon an autumn expedition for the rescue of General Gordon.

EARTHQUAKE SUFFERERS' FUND. The Lord Mayor is raising a fund for the relief of the sufferers from the recent earthquake.

THE GAZETTE'S OPINION. The Pall Mall Gazette expresses a belief that the Government will not relieve Berber, but will wait for the rebellion to spread to Khartoum. The Gazette urges the dispatch of the reinforcements of 5,000 men to Egypt, or England's withdrawal from the country. "Any other course," it continues, "would be madness. The transports, after bringing the English troops home, might restore entente cordiale by conveying the French army of occupation to save Egypt from anarchy."

JUDGE DENMAN THREATENED. LONDON, April 25.—Judge Denman of the Court of Queen's Bench, who presided at the O'Donnell trial, has received a letter in which the writer says that his damaging statement to the jury as to total lack of intention to shoot on Carey's part, and his determined efforts to secure O'Donnell's conviction, will cost him his life; that he had better prepare to meet death at any moment. On receipt of the letter the Judge communicated with the police, who advised that detectives be detailed to guard him, which was done. The detectives mingled with the crowd in the court room where the Judge presided, closely scrutinizing all comers.

WANT TO COMPROMISE. LONDON, April 25.—The Government has announced that it will accept the decision of the House of Commons in rejecting Dodson's motion to restore the cattle bill to its original form, which was introduced in the House of Lords, provided the Government be empowered to allow the import of cattle from untainted parts of suspected countries.

Spain. MADRID, April 25.—While Aguerro's expedition was in course of preparation certain Spanish Republicans of extreme views sent an agent to America for the purpose of fomenting the movement. Their hope was that the movement could be made to assume such proportions that its reaction would be felt in Madrid. The Republicans promised Cuba self-government and declared that the relations between Spain and Cuba would be made similar to those between England and Canada.

Ireland. DUBLIN, April 25.—Fenian circles are greatly excited over a report that the police have made an important capture, and that the prisoner is none other than P. J. Sheridan. Inquiry at police headquarters failed to elicit any information beyond the fact that the detectives had arrested a man this morning having in his possession a quantity of dynamite. The detectives put on a mysterious air and vaguely hint that the arrest is an important one, and that other arrests are likely to follow, as letters were found in the prisoner's possession in which the names of several prominent Irishmen are mentioned. DUBLIN, April 25.—The man arrested this morning, who the detectives thought to be P. J. Sheridan, was taken before the Magistrate where an examination resulted in his discharge. A number of witnesses who identified him as a commercial gentleman, testifying that the dynamite in his possession was for commercial purposes.

Egypt. DON'T LIKE THEIR COMPANY. CAIRO, April 25.—The English soldiers dislike the idea of serving alongside the Egyptians in the expedition to Khartoum. The Thirty-fifth Regiment (British) stationed at Assiout is suffering much from fever and heat. There have been many cases of sun stroke.

Black Blood and White. LA GRANGE, Mo., April 25.—There is considerable excitement and bad blood here between the negroes and a number of white men, mostly Irishmen, working in the quarries and the rolling-mills. During a melee in front of Tom Archer's barber-shop last Friday evening Jim Harris, a negro, was severely cut by Bob Becktol, a white man. The trouble originated between Becktol and Flem Robinson, Harris' stepson, and Harris interfering threw a brick at Becktol, who in turn closed upon Harris and inflicted two ugly gashes with a pocket-knife. One cut was given across the cheek and ranging down toward the neck, and another and more serious one was across the abdomen. Harris was taken home and his wounds dressed. At first he was supposed not to be dangerously hurt, but his symptoms daily grew more alarming until Wednesday he died. Becktol was arraigned before Esquire Millon immediately after the affray, but the evidence going to show he acted in self-defense, he was released from custody. Since the death of Harris there is a demand for a new hearing, and officers are now in pursuit of Becktol, who, learning of the death of his victim, procured a skiff and crossed to Illinois.

Saw-Mill Burned. WILLIAMSPORT, Pa., April 25.—The large saw-mill of Woolvorton & Tensin was burned to-day. Loss, \$40,000; insurance, \$15,000.

Clothing Store Burned. AKRON, O., April 25.—Early this morning fire in the basement of the extensive clothing store of J. Koch & Co., of South Howard street, caused a loss of \$40,000. Fully insured.

Hotel Burned. ROCK ISLAND, ILL., April 25.—The Howard House at LeClaire, Iowa, was completely destroyed by fire last night with several adjacent buildings. The loss is not far from \$15,000.

Arthur and Lincoln. NEW YORK, April 25.—The Evening Telegram of this city to-day places at the head of its editorial page the following ticket: For President, Chester A. Arthur, of New York; Vice-President, Robert T. Lincoln, of Illinois.

A Cock Fight. FLEMING, L. I., April 25.—A cocking main between New York and Long Island birds occurred yesterday. Each battle was for \$100, and \$500 depended on the main. Long Island won by four battles to three.

Gath's Book. NEW YORK, April 25.—It has been revealed in literary circles that the title of Geo. Alfred Townsend's long promised romance is "The Entailed Hat, or, Patty Cannon's Times." It is sufficiently odd to excite curiosity. It will be issued soon by a prominent publishing house.

Bees-Keepers. INDEPENDENCE, Mo., April 25.—At the second day's session of the Western Bee-keepers' Association, now in session in this city, Jerome Twitchell, the leading honey merchant of the west, delivered an address on "Marketable Honey," giving a number of new and practical hints of value to bee keepers.

A Hundred Thousand Dollar Blaze. NEW YORK, April 25.—The losses by the fire at an early hour this morning in the six story building, 20 and 22 Pell street aggregate \$100,000. The principal losers are Jacob Levy, owner of the building; J. B. Thomas, cabinet maker, and the Scoville Manufacturing Co. The property was well covered by insurance.

One Hundred and Twenty-one Rounds. PITTSBURGH, Pa., April 25.—A soft-glove contest between Jack Clifford and Bilson Jack, last night, brought together a large crowd of the sporting fraternity, together with about fifty ladies. One hundred and twenty-one rounds were fought. Clifford was declared the winner. The stakes were one hundred dollars.

Strikers' Movements. PITTSBURGH, Pa., April 25.—The laborers shearmen, firemen and blacksmiths employed in Brown & Company's rolling mill struck to-day against a ten per cent. reduction, and the mill closed down. NEWCASTLE, Pa., April 25.—The strike of furnace-men, inaugurated over a week ago, is over, and the men have returned to work at all furnaces at old wages.

Rugg's Confession. LONG ISLAND CITY, L. I., April 25.—In the trial of the negro murderer Rugg, the confession made by Ruff February 11 to his jailer was read. In it he confesses to having choked Mrs. and Miss Maybee to death and having beaten Mr. Maybee. The confession is signed by Rugg. This is the strongest evidence offered by the prosecution. The case is expected to go to the jury to-night.

MARKET REPORTS. FRIDAY, APRIL 25. ST. LOUIS. COTTON—Steady; middling, 11 1/2 @ 12. FLOUR—Steady; XXX choice, \$4.00 @ 4.15; patents, \$5.75 @ 6.00.
