

William Leland Stowell of New York describes the results of the feeding of the children of some of the wards of the City Hospital for Children on Wards Island on milk from a city herd that was afterward ascertained to be tuberculous. The herd was tested and all the animals in it had to be killed, as the test showed some degree of tuberculous infection in all. All the children who had been fed on this milk were tested by the ophthalmic reaction, 77 in all. Of these 19 reacted; 13 were surgical cases of tuberculosis, and 3 were not suspected of tuberculosis. The author concludes that fresh, sterilized milk is more wholesome than pasteurized milk. The danger of infection from tuberculous milk is very slight. Less than 10 per cent mortality in the whole hospital was due to tuberculosis.—Medical Record, June 20, 1908.

The burden of my song must be praise, and the teaching of every lesson has been trust. Bishop Huntington.

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maudie E. Forgie, of Leesburg, Va., writes to Mrs. Pinkham: "I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

PEOPLES SCHOOL
FRANKLIN, TENNESSEE
E. G. and E. H. PEOPLES, Principals
This school teaches the child to live and makes them independent. The very best advantages in literature, development, teaching, training, and preparation for the future. Training in citizenship, bookkeeping, shorthand, typewriting, stenography, and other practical subjects. For beautiful prospectus, write to the school. Address, Franklin, Tenn.

DICKSON COLLEGE
ATTEND
The school that teaches the child to live and makes them independent. The very best advantages in literature, development, teaching, training, and preparation for the future. Training in citizenship, bookkeeping, shorthand, typewriting, stenography, and other practical subjects. For beautiful prospectus, write to the school. Address, Franklin, Tenn.

FOURTEEN HUNDRED AND SIXTY-FIVE MEN
with teams are selling our products to farmers in thirty-four different States. Seventy useful articles that country people need. We furnish the goods and give agents time to turn them into money. Address, J. R. WATKINS CO., Winoona, Minn.

Libby's Food Products
Peerless Dried Beef
Unlike the ordinary dried beef—that sold in bulk—Libby's Peerless Dried Beef comes in a sealed glass jar in which it is packed the moment it is sliced into those delicious thin wafers.
None of the rich natural flavor or goodness escapes or dries out. It reaches you fresh and with all the nutrients retained.
Libby's Peerless Dried Beef is only one of a Great number of high-grade, ready to serve, pure food products that are prepared in Libby's Great White Kitchen.
Just try a package of any of these, such as Ox Tongue, Vienna Sausage, Pickles, Olives, etc., and see how different they are from others you have eaten.
Libby, McNeill & Libby, Chicago

Concrete barges.
Re-enforced concrete barges and pontoons of considerable size have been in use for some time in Italy and have proved so satisfactory that the Italian Government has contracted for several large barges for use in harbor work. The first of these boats is of sufficient size and has been in use long enough to furnish a test of its utility. It is a double pontoon, built in 1897, 67 feet long and 27 feet out-to-out of the two parts, on which is built a boathouse for the Rome Rowing Club. In 1906 the Italian Navy Department built the Liguria, a re-enforced concrete barge of 150 tons burden, 57 feet long and of an 18-foot beam. This was first put upon the harbor work near Rome but has since been towed to and from many of the ports of Italy. The Liguria was so successful that the government built another 100-ton barge, on the model of which four others are now under contract. In several other places in the kingdom, notably across the River Po, near Pavia, pontoons of re-enforced concrete are used to carry small or light bridges.—Engineer.

Wiles and deceit are female qualities.—Aeschylus.

To Drive Out Malaria and Build Up the System
Take the Old Standard Grove's Tasteless Chilli Tonic. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effective form. For grown people and children, 50c.

Poverty, like a lamp, shows everything bad and annoying.—Aristophanes.

BEYOND CRIED AND SCRATCHED
All the Time—Was Covered with Torturing Eczema—Doctor Said Sores Would Last for Years—Perfect Cure by Cuticura.

"My baby niece was suffering from that terrible torture, eczema. It was all over her body, but the worst was on her face and hands. She cried and scratched all the time and could not sleep night or day from the scratching. I had her under the doctor's care for a year and a half and he seemed to do her no good. I took her to the best doctor in the city and he said that she would have the sores until she was six years old. But if I had depended on the doctor my baby would have lost her mind and died from the want of food. But I used Cuticura Soap and Cuticura Ointment and she was cured in three months. Alice L. Dowell, 4700 Easton Ave., St. Louis, Mo., May 2 and 20, 1907."

To fear death is very great folly, for it is fated to all men to die.—Antiphones.

Hicks' Capidine Cures Nervousness
Whether tired out, worried, overworked, or what not, it refreshes the brain and nerves. It's Liquid and pleasant to take. 10c, 25c, and 50c at drug stores.

PEARL INDUSTRY DECLINES.
Drop in Prices Has Put Business in Bad Way.

Reduction of the price of mother of pearl from \$2,000 to \$600 a ton on the London market during the last six years has seriously affected the pearling industry in Australasia, from where the greater part of the world's supply is obtained.

The most important centres of the industry are Thursday Island, Port Darwin and Broome. As the amount secured averaged four tons per boat per annum, and the expenses were comparatively small, large profits for crews were realized. The divers and crews working on the pearling luggers are introduced under agreement with the Federal government. They are imported for a period of three years, and the master is compelled to furnish a bond of \$500 for every man employed, as a guaranty that at the end of three years that man will be deported to Singapore, the port from which the divers are recruited. Formerly the pearlers paid the divers 10c per month, \$100 to \$175 per ton bonus, and, in many instances, from 5 to 15 per cent. for the pearls won. Though arriving at raw oolites, some of these Asiatics earned from \$1,000 to \$2,000 per annum, with keep.

The divers, most of whom are Japanese, are well organized, having their clubs and benefit societies, and every Japanese, whether belonging to the crew, tender or driving staff, is compelled by his countrymen to join.—Kansas City Journal.

SELF DELUSION
Many People Deceived by Coffee.

We like to defend our indulgences and habits even though we may be convinced of their actual harmfulness.

A man can convince himself that whisky is good for him on a cold morning, of beer on a hot summer day—when he wants the whisky or beer.

It's the same with coffee. Thousands of people suffer headache and nervousness year after year but try to persuade themselves the cause is not coffee—because they like coffee.

"While yet a child I commenced using coffee and continued it," writes a Wis. man, "until I was a regular coffee fiend. I drank it every morning and in consequence had a blinding headache nearly every afternoon.

"My folks thought it was coffee that ailed me, but I liked it and would not admit it was the cause of my trouble, so I stuck to coffee and the headaches stuck to me.

"Finally, the folks stopped buying coffee and brought home some Postum. They made it right (directions on pkg.) and told me to see what difference it would make with my head, and during that first week on Postum my old affliction did not bother me once. From that day to this we have used nothing but Postum in place of coffee—headaches are a thing of the past and the whole family is in fine health."

"Postum looks good, smells good, tastes good, is good, and does good to the whole body." "There's a Reason."

Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pgs.

Ever read the above letter? A new one appears from L.L. to full time. They are genuine, true, and full of human interest.

REVIEW CROP SITUATIONS

The Louisiana Planter is Not Discouraged

BUSINESS OUTLOOK IS BRIGHTER

Board of Equalization Getting Down to Work. Spanish War Veterans are Remembered. Convicts on Public Road.

The plant and holdings of the Schwartz Foundry Company were sold at a receiver's sale for \$216,000. It is said to be practically assured that New Orleans would handle a fair share of Western grain exports.

An army canteen lost by Charles Palfrey at the battle of Chancellorsville has been returned to Mr. Palfrey after forty-five years.

Charles Letten was allotted a clerical position in the Penitentiary at Baton Rouge and will not be sent to Angola.

State Immigration Agent Dykers stated that the demand for labor in Louisiana was greater than the supply.

A wholesale exodus of negroes is being led by Hecker, La., because of threatened extermination of the blacks.

John Robert Petrich was placed on trial on the charge of having embezzled funds of the Postal Telegraph Company.

The Hotel and Restaurant Association of Louisiana was permanently organized with Joseph Voegtli as president.

H. R. Speed, trustee in bankruptcy of E. Karpe & Co., Limited, brought suit against H. C. Newman Limited for \$250,000.

It is stated that the building of a proposed Central American railroad would make New Orleans the greatest coffee market in the world.

It was planned to make up a solid trainload of delegates from New Orleans to the Lakes-to-the-Gulf Deep Waterways Convention at Chicago in October.

More suits were filed by foreign insurance companies against the Board of Assessors of Orleans parish, making eighty-three now before the Civil District Court.

Hunters report that the dove shooting will be good this year. However, the doves cannot be shot until Sept. 1. Under the old law the open season began Aug. 1.

Because of damage from floods the Louisiana Equalizers will likely reduce by 50 per cent the assessment on farming lands in the Red and Black River sections.

Dr. Ashton Blanchard, son of Ex-Governor Blanchard, has abandoned his candidacy for councilman at large in Shreveport, La., and announces that he will shortly leave for Germany.

George W. Windsor was arrested at Oakdale, La., and charged with counterfeiting. His brother-in-law, Justice of the Peace J. W. Young, held at Vicksburg, is alleged to have operated with him.

Spanish War Veterans.
The secretary of the Spanish-American War Veterans' Fund Commission has mailed checks to all of the 1342 claimants whose applications have been approved by the commission to date. All those who placed applications with the commission and who have failed to receive their checks are requested to notify the secretary of the failure to receive same. When writing it is imperative that the veterans state their company and regiment, as this is the only means by which they may be traced or identified.

Board of Equalization.
The State Board of Equalization, which has been in session for a month, will begin this week to reach some final decisions regarding the assessments of property. The Board is beginning to hear from the Assessors of the parishes that were overflowed by the high water during the months of June and July, giving the number of acres that were inundated. These reports have been secured for the purpose of making a retraction on all of the overflowed lands along the Red and the Black rivers.

Preparing State Ticket.
Preparations are being made for the printing of the State ticket that will be sent out by the end of next week to the Chairman of the Parish Executive Committees to be used in the State primary, Sept. 1. The ticket is a rather mixed-up and complicated affair because of the different districts in which the elections will be held. The ticket will be different for the different districts.

To Use Convicts on Roads.
The police jury of Acadia parish has decided to employ convict labor in improving the roads and drainage of the parish. A gang of convicts will start out Monday morning under Deputy Coon to open the road drains.

Railroad Tangle Means Suit.
The police jury of Acadia parish refused to pass an ordinance the object of which was to submit to the adjudication of the courts the question of whether the parish shall extend the period allowed the Frisco for the completion of its line from Deguincy to Baton Rouge. The extension of time was asked for on the ground that by reason of high water in the Atchafalaya it was impossible for the Frisco to build a bridge across the river.

Green Goods Artists.
The operations of a bold band of green goods artists who are believed to be responsible for the recent flood of raised greenbacks in several small towns in Louisiana, Mississippi and Texas, have been frustrated by the alertness of the Secret Service agents, who have applied themselves assiduously to the task of running the criminals to earth. Three men are in custody in New Orleans charged with the crime of raising the denominations of bills of small amounts.

Heavy Hains.
The heavy rains which prevailed last week throughout the sugar district have gradually ceased and although the current week witnessed more or less rain-fall it was not of the persistent and torrential character previously experienced. At the present writing the weather appears to have changed in character quite markedly and an opportunity is being had for the water-soaked and in many cases flooded fields to resume something like a normal condition. That no harm has been done to the cane crop is quite apparent, except off at the top here and there under the influence of the gale which accompanied the rain. The corn crop and the pea vines suffered quite severely from the wet weather and, of course, this means a distinct money loss to our cane planters. The cane crop itself, however, is in good shape and growing vigorously everywhere.

Great Southern Mills Resume.
W. H. Sullivan General Superintendent of the Great Southern Lumber Company, has been engaged in perfecting arrangements looking toward the commencement of operations by the plant at Bogalusa. He will enter actively into the preparations that were begun in his absence to have the mill in readiness to commence work on Sept. 1.

Demand For Crude Oil.
The demand for crude oil in the Jennings market seems to be increasing, and the Houssiere-Latreille Oil Company, one of the three largest oil companies operating in Jennings, completed a deal for its entire production for a period of two months, the contract price being 63 cents per barrel.

Helping the State Fair.
The Shreveport City Council is to be commended for its action in appropriating \$5000 for the purpose of erecting a machinery hall on the State Fair grounds. This is the second appropriation made by the city for the State Fair, and it serves to show that Shreveport has entered heartily into the work.

Two Hundred Sign Petition.
A Shreveport newspaper published a petition signed by about two hundred prominent men condemning the State Board of Pardons for pardoning Robert Warner, who, after serving six years on a life term for murder was released. He was convicted of killing John Dunmore, a Kansas City Southern ship foreman.

Ready to Build Railroad.
Col. Nichols, chief engineer of the Monroe, Farmerville and Hope railroad, is in receipt of a letter from President Taylor in New York informing him that he has made all financial arrangements for the building of the road. The delay has been occasioned by the unsettled financial condition of the country.

Lincoln Parish Fair.
The Lincoln Parish Fair Association will hold its fair at Ruston on September 22 to 25, and will prepare an exhibit to be entered at the State Fair in competition with other parishes. The Lincoln Parish Fair is one of the finest in its agricultural display and live stock exhibit.

To Widen Ship Canal.
The Board of Directors of the Atchafalaya Bay Ship Channel Company held an important meeting at which they decided to make a proposition to the government to take a contract to widen the channel to 200 feet and deepen it to twenty feet and then turn it over to the government.

Reduction of Assessments.
The State Board of Equalization took the initial steps towards making a reduction in the assessment of the overflowed lands in the Red river and Black river sections of the state by adopting a resolution asking the assessors to report the number of acres affected by the overflow.

Rice Milling Season Opens.
The Jeanerette Lumber Company opened by the Star Rice Mill, which started up on a small lot of Hondur rice received from Eunice. All the local mills have been overhauled and made ready for the season. Hundley, Brooks & Bernard received a lot of 125 sacks and sold it for \$4 a barrel.

To Begin Work Shortly.
News was received from the New Iberia office that the Central Railroad of Louisiana, which railroad has done nine miles of grading, to run from Leesville to New Orleans, crossing Bayou Lafourche at Napoleonville, would begin work shortly.

Manuals for Teachers Institutes.
The Department of Education will begin shortly sending out the manuals for the direction of the teachers institutes to be held throughout the state under the State Institute Board and State Institute Conductor Alleman of that bureau.

\$112,000 Planting Company.
The Blanchard Planting Company Limited, was organized at Napoleonville with a capital stock of \$112,000.

Activity in Industrial Lines.
Operations in the line of progress at Winfield are beginning to assume a more active phase. The bonds for a system of water works have been floated and this work will soon be inaugurated. In connection with this the electric light system will be enlarged. The tremors of these public improvements are seen in the preliminary inauguration of the improvement of the thoroughfares. A creosoting plant is already in course of construction.

Growth of Baton Rouge.
That the growth of Baton Rouge is attracting attention is evidenced by the following from the Manufacturers' Record regarding the Capital City of Louisiana: "Baton Rouge, situated 130 miles above New Orleans by water, 76 miles by rail and about 72 miles on an air line, is the third city in commercial importance in Louisiana. With a population of 26,000 and with all the natural advantages necessary for a thriving city, it bids fair to reach the 50,000 mark in the next five years."

The Agents.
When a large bewhiskered agent comes snooping to your door, you can sit the dog upon him, you may pound him with the floor, you may send for all your neighbors, who, if they are wise, will quite cheerfully assist you when you burn him at the stake. But alas! you're left defenseless when the "lady agent" comes, when with white bejeweled fingers on your humble door she drums; for it would not do to swat her with the poker or broom, and you simply have to show her to your little sitting room. Then that female "lady agent" her old telescope unstraps, and she shows a lot of samples of a lot of useless traps; and she springs a tearful story of misfortunes she has known, and her sad, resigned expression, it would melt a heart of stone; and she soaks you for a tinner for a book not worth a wheel, and you hire a hall and lecture on "The Ladies' Age of Steel"—Emporia (Kan.) Gazette.

In some good time, His good time, I shall arrive; He guides me and the bird.—Browning.

CAB SERVICE IN MEXICO.
Close Tab on the Hackmen—Different Kinds of Vehicles and Charges.

"In the City of Mexico there is the most complete inspection of the cab service I've ever seen anywhere," said Col. J. M. Strange, of St. Louis.

"The police in the capital of the sister republic keep close tab on the hackmen that it is the rarest thing for any argument to ever rise between a cabby and his fare. The stranger speedily finds out that there is an easy way of telling the difference of tariffs in the public conveyances. The cabs are differentiated by the flags they carry and stripes on the side of the vehicle. It is a color scheme. Blue cabs are \$1 an hour and red cabs only 75 cents. The blue flag rigs are of course a trifle smarter and have horses a shade better than the cheaper ones denoted by the red flag and crimson stripes. Also the pilgrim from the United States must take notice that if the top of the carriage is thrown back he must pay an additional 25 cents per hour.

"Hack inspectors are kept at regular stations through the city. When a cab is seen to leave the railway station it is stopped by one of these officials, who takes its number, the number of passengers, their destination and the time. This information goes to the central office and is recorded. All this trouble is taken in the interest of the public, and that is why one gets good service and is rarely imposed on by the public jehus of the Mexican capital."—Baltimore American.

NECESSITIES.
Dashaway—"I'm going to a house party. Wonder what I need to take along?"

Cleverton—"About a quart of \$5 gold pieces to tip the servants with, a flannel shirt, dress suit, pajamas and a half-dozen engagement rings.—Life

IT'S DOUBTFUL.
"Women are beginning to use the typewriter more in their personal correspondence."

"I wonder if it will stop them from writing criss-cross?"—Pittsburg Post.

THE TIME TEST.
That is What Proves True Merit.

Doan's Kidney Pills bring the quickest relief from backache and kidney troubles. Is that relief lasting?

Let Mrs. James M. Long, of 113 N. Augusta St., Staunton, Va., tell you. On January 31st, 1903, Mrs. Long wrote:

"Doan's Kidney Pills have cured me" (of pain in the back, urinary troubles, bearing down sensations, etc.). On June 20th, 1907, four and one-half years later, she said: "I haven't had kidney trouble since. I repeat my testimony."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Between bridge and stream the Lord's mercy may be found.—St. Augustine.

Capidine Cures Indigestion Pains, Belching, Sour Stomach and Heartburn from whatever cause. It's Liquid. Effects immediately. Doctors prescribe it 10c, 25c, and 50c at drug stores.

Kubelick's Fingers Insured.
The fingers on the right hand of Kubelick are known to be insured for two thousand dollars, and the total disbursement of his hand would net him fifty thousand dollars. A like sum covers Paderewski's digits, while Hoffman, the pianist, carries five hundred dollars on each of his fingers. Patti, until recently, at least, had fifty thousand dollars on her voice, and paid a staggering premium—one hundred and twenty-five dollars—for each appearance.—Scrap Book.

Habitual Constipation
May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine Syrup of Figs and Elixir of Senna manufactured by the CALIFORNIA FIG SYRUP CO. ONLY SOLD BY ALL LEADING DRUGGISTS one size only, regular price 50c per Bottle

Is Pe-ru-na Useful for Catarrh?

Should a list of the ingredients of Pe-ru-na be submitted to any medical expert, of whatever school or nationality, he would be obliged to admit without reserve that the medicinal herbs composing Pe-ru-na are of two kinds. First, standard and well-tried catarrh remedies. Second, well-known and generally acknowledged tonic remedies. That in one or the other of these uses they have stood the test of many years' experience by physicians of different schools. There can be no dispute about this, whatever. Pe-ru-na is composed of some of the most efficacious and universally used herbal remedies for catarrhal diseases, and for such conditions of the human system as require a tonic. Each one of the principal ingredients of Pe-ru-na has a reputation of its own in the cure of some phase of catarrh or as a tonic medicine.

The fact is, chronic catarrh is a disease which is very prevalent. Many thousand people know they have chronic catarrh. They have visited doctors over and over again, and been told that their case is one of chronic catarrh. There is no doubt as to the nature of the disease. The only trouble is the remedy. This doctor has tried to cure them. That doctor has tried to prescribe for them.

No other household remedy so universally advertised carries upon the label the principal active constituents, showing that Pe-ru-na invites the full inspection of the critics.

What ripens fast does not last.—Shakespeare.

John R. Diekey's old reliable eye water cures sore eyes or granulated lids. Don't hurt, feels good; get the genuine in red box.

This ought to be our endeavor, to conquer ourselves, and daily wax stronger, and to make a further growth in holiness.—Thomas a Kempis.

Southern University.
GREENSBORO, ALA.

Last session most successful for several years past. All departments well organized. Excellent library and reading room. Well equipped chemical laboratory. New gymnasium with excellent equipment.
