H. T. BROWN.

Some people have no just conception of the duty of postmasters. A good citizen the other day asked postmaster White to receive and deliver some mail matter free, and seemed hurt because his request was not complied with.

As a proof of what liberal advertising will do, we find on looking around our streets that the houses who advertise freely are doing the main business—Woodberry & Fortis for instance. They have close by sold out their winter goods by liberally advertising.

The reading matter on our 1st and 4th pages is more than usually interesting, and not one of our readers could fail of being benefited by a careful reading of same. We always try to select such matter as will instruct as well as interest.

J. A. Ward, M. D., Troy, Mo.

It will not disappoint you. It is the best article known for purifying the blood and building up the health and strength. For 25 years erysipelas broke out in blotches on my face. I found no cure until I used Parker's Tonic two years ago. It is the medicine for me. E. C. H.

AGENTS.—The Woodruff Plaiting Machine makes over 700 kinds of dress trimming and is the easiest and fastest selling article that has ever been invented, for agents to canvass with. We sell county and State rights. For terms, etc., call on J. J. D. WOODRUFF, Prescott House.

Some progressive, public spirited (?) merchants say it will not do to advertise when trade is dull, and when trade is lively say it is not necessary and will not therefore pay them, so they advertise not at all. Such stingy, close men, are to advantage or help to any town.

Mr. N. T. Richmond has donated his large rattlesnake to the reptile department of the St. Louis zoological gardens. His snakeship has been sent a prisoner by Mr. R. since Sept 24th 1884, nearly seven months, and has never eaten

anything at all, though he drank water occasionally.

Mr. H. M. Barham, of Boughton, gave us a pleasant call Thursday. He informed us he had just started a shingle mill in connection with his saw mill, and could lay good cypress shingles down at Boughton for \$2.00 per 1000. He has contract for furnishing a large quantity to the Hope Lumber company.

TO MERCHANTS AND HARDWARE MEN.—I have made arrangements with a factory at Evansville, Ind., to manufacture my combination harrow and cultivator. It is the cheapest and most complete machine of the kind made. Parties wishing to handle them or get descriptive circulars, etc., can address me at Warren, Arkansas.

H. L. LYON.

The Camden Beacon of last week, had this to say of our friend Isham Mack, of this county, and we trust he is now a full-fledged benedict, enjoying all of the immunities and pleasures accruing therefrom: "Isham Mack passed through this city this week, as rumor puts it, on his way to Bradley county, to get him a partner for life. As you travel east for that purpose, Mack, we pronounce it praiseworthy."

DISSOLUTION NOTICE.—The firm of Tidwell & Haltom, Bonland's Store, has been dissolved by mutual consent, J. T. Haltom retiring. P. J. Tidwell assumes all liabilities of the old firm and will collect all debts. He will continue in business at the same stand, and will be glad to serve patrons of old firm. Parties indebted to the old firm must come up at once and make settlement.

Mr. Thos. W. Holland has moved to Murfreesboro, Pike county. We regret to lose such a good citizen, but our loss is Murfreesboro's gain. Messrs Holland and P. C. Hamilton have bought the saw mill, gin and grist mill there, and Mr. H. is to take charge of it. Over 500 bales of cotton were ginned at this gin the past season. Mr. Hamilton will move over early this fall and go into merchandising.

Hatley & Christopher.

The above firm is now one of the institutions of Prescott—live, progressive merchants and honorable gentlemen. No mercantile house in Southwest Arkansas, keeps a more complete and full stock of general merchandise, dry goods, groceries, etc., than they do. Owning the large brick business house they occupy and buying goods for cash in car-load lots, they cannot be undersold, "live and let live" proving true with them, thus proving the friend of the poor man. This firm is selling large quantities of goods by fair dealing and honorable business principles. We are not given to flattery and the above is written in the sense of friendship, and because we believe the statements made to be true.

COUNTY NEWS.

Contributed by the Special Correspondents of the Picayune.

Emmet Etchings.

Our farmers are busy sowing oats.

That was a nice joke the young ladies played on the boys last Sunday evening at singing.

Rev. John Haynes preached an able sermon at the Baptist church last Sunday.

The people in school district 33, have built a new school house, and will have a ten months free school this year.

Dr. L. J. Gillespie, who has been attending a medical college in St. Louis for the last four months, returned home the other day.

Mr. H. Weaver will put in a saw mill as soon as the winter is over. He will put it near the Roberson old mill place, on the Carotte.

I wonder why Bob Donald goes to see Ed. Eaves every Sunday. Bob is a young widower, and a sly one, too, but he can't fool every one.

Miss Mattie Snell, one of Emmet's belles, who has been for some time visiting relatives in Texas, returned home the other day. I guess Frank and Jim will soon be the log again.

Several of the boys were very slow in leaving the singing at Capt. Eaves last Sunday evening, until the young man who sat in the rocking chair moved up a little, then the rest of them left.

Boughton Briefs.

Weather cloudy, cool and windy. Farmers are beginning to shuffle around their farms.

Logrolling and rail splitting is the order of the day.

Mr. Mark Garmon is one of our proudest men, and it was all caus-

TALK IS CHEAP! LOOK TO YOUR OWN INTEREST.

We have just purchased the large stock of General Merchandise of Brooks, Hamilton & Co.

ALL KINDS OF DRY GOODS AND GROCERIES.

In fact Everything necessary to eat and to wear we keep, and mean to sell cheap. No house in this section can undersell us. We have bought cheap and will give our customers Bargains, and We Want all the People to know it.

We will exchange goods for all kinds of barter, such as corn, oats, wheat, hides, dried fruit, butter, eggs, etc.

Yours truly, Mulhollan, Russell & Co., WEST MAIN STREET, PRESCOTT, ARKANSAS

ed last week by the arrival of a little stranger boy.

Mr. Richard Anderson has superseded Messrs A. J. Jones and E. H. Friary, as log-hauler at the saw mill of Mr. H. M. Barham.

Mr. G. W. Wilson took a run over to Biene last week to see Dr. Wilson, (his brother) who is very low and is not expected to recover.

Plenty of candidates, but it is not because it is election year, but because there are several of our young men, who are teeth and toe nails in love.

There is not being much lumber shipped from here now, but our mill man, Mr. H. M. Barham, informs us that he will make it boom as soon as the weather will permit.

Here is the place for to begin, To find yourselves a lovely girl; Come right along my little men, For their hair is banged and curled.

Come along, come along, my boys, And see who can first win the day; Lessen their troubles, share their joys, And you will surely make it pay.

RICK.

Falcon Facts.

The health of the neighborhood is good.

We are having some pretty farming weather, and it is very much needed.

Cook Meaks and Pate Strong fell out and Meaks stabbed Strong during the affray.

A little more talk of a railroad, and some of the people will put on a billed shirt, I think.

We have a good school at this place, though Mr. Cook, our efficient teacher, is having some trouble with some of the larger boys, those that you would reasonably suppose would know how to behave.

I see continually that brother Ausley, and sometimes others, still keep up an effort to spread strife and confusion among the people. A man of his age and standing in society, should be making an effort to bring peace out of confusion. Brother Ausley, lay aside those old harness you are trying to fit on your friends, and fall in rank with one of the other parties and accomplish something. The people saw enough of a third party in '59. Our little town is on the improve. Brother Drake has had his blacksmith shop recovered and his hair shingled. Pelt & Pelt have had the steps before their store house repaired.

T. J. W.

Budcaw Bits.

Farmers are preparing for another crop.

Health continues good in the neighborhood.

It appears that spring of the year is at hand and if so, farmers are behind with their work. Very few have done any planting yet. Work will all come on at one time—oats to sow, and corn land to prepare, cotton land to bed up, gardens to prepare and plant. Let us have more corn, potatoes and peas and raise more hogs and more to eat and wear at home. Then there will be less hard times throughout the country. Small cotton patches and large cornfields would build up our country and this is what we need. Do not rent your lands out—sow them in oats as it will pay better.
