

ADVERTISEMENTS

At six o'clock each evening one of the church bells in our city rings as a call to prayer for world peace and asking God's blessing for our boys who are defending our freedom and fighting under the banner "In God is Our Trust."

The Methodist church will ring their bell this week and the Christian church will ring a bell next week.

Help Save Grape Crop

Conserving food is a vital task in this critical war year! You can help Kennewick save the grape crop by signing up now for work at the Church Grape Juice Plant. Housewives, teen-age vacationers, retired folks — here's a chance for you to help!

Workers are needed urgently for the grape pressing period which starts about September 20. Here are jobs at good wages, where experience is unnecessary, for men, women, boys and girls (over 16). Work will continue for 30 days from date of starting.

Sign up today! Tell your friends about these jobs! You are doing a real service to your government and your community by helping to save the grape crop, a valuable food supply!

Registration Is Easy

Make your application at the Church Plant—do not wait until time for work to start—sign up NOW! A Certificate of Availability is required. Church's will help you get this if you are eligible.

The World's War-Free Frontier! ... be ready to drive right over

No fierce border forts or haughty garrisons separate the U.S. and Canada, where peace-loving good neighbors welcome you. But there's fight in the fish up there. "When the lights go on again, all over the world," you can steer for the Canadian Rockies or quaint Quebec, without even a passport. You'll need a car, of course, but re-designing and re-tooling for new cars will take long months. So for prompt recreation after hard-earned Victory you'll need your present car!

But note: Rationed mileage that might seem to conserve your car now, may actually be destructive, because it encourages the inroads of engine acid!

You don't want that, and that's why to have your engine OIL-PLATED by changing to Conoco Nth motor oil. It's popular-

priced but includes the modern synthetic whose strong "magnet-like" force attaches OIL-PLATING and maintains it—even for days—on inner engine surfaces, sort of "walling them off" from corrosive acid.

Always produced by combustion, this acid was little worry when constant driving kept the heat on it. Yet now, despite aggravated conditions, acid can be still less worry!—because you can OIL-PLATE with Nth today, for your engine's future. Continental Oil Company
