(Continued From Page 1)

states are concerned, some now pay over \$20 a week in benefits. Consequently, there will be a tendency to delay action on the measure in the belief that the states can care for the situation.

Are we not today being just as short sighted in our thinking on defense and our preparations for our future security as were the French, the ancient Chinese, and, in fact, all defenses of every nation in the history of the world?

What is security, if it is not walls, navies, planes, armies? What can make a people secure?

Only their own ingenuity, in my opinion. Only in the mind of man can he find the stones for impregnable fortifications. Only by constant alertness and wise leadership can he provide for his safety.

Wisdom, in my opinion, is more important today than navies, ar-

mies and planes because what good are these if they are not put to use.

The robot bomb has now been doubled in size. Nazi-bred rumors predict one eventually which will cross the ocean and descend on New York. The Sunday supplement dreams of warfare are supposed to have come true.

By these and other new implements, many of which we ourselves have alertly developed through necessity, the people have come to realize that weapons of the future will spread greater destruction. Single implements will increasingly kill more and more thousands.

Nevaline Carlton received two blue ribbons for her book ends and spice rack made from ends of orange crate, enameled and decorated.

She received six blue ribbons, three red ribbons and four white ribbons. In her clothing project, a dresser scarf received a blue ribbon, a hand towel a red ribbon and a dress a white ribbon.

A large showing of canned goods came from the Benton City Food Preservation club, Mrs. Mary E. Brooks, leader.

The Whitstran Club, with Mrs. A. Montgomery as leader, brought in a number of exhibits of biscuits, muffins and clothing.
