LECTURED ON HAWAII

Edwin S. Gill, who recently spent two years in the Hawaiian Islands, delivered an interesting lecture, illustrated with splendid stereoscopic views, to a large audience at the meeting of the Young Men's Club in the Plymouth Congregational church last night. Mr. Gill made his talk particularly interesting by pointing out the way in which the industries of the Hawaiian Islands are becoming every day more important to Seattle and the whole Pacific coast.

His lucid explanation of the various great enterprises, which are growing to such proportions in Uncle Sam's island possessions, illustrated by colored slides, was an education to many who have been wont to think of the islands as an insignificant factor in the commercial world.

Particularly interesting was Mr. Gill's talk on the sugar-cane industry, illustrated with illuminated pictures of the 18 and 12-foot stalks of cane, the wonderful luxuriance and growth of which can hardly be accredited by the cane growers of the southern states. The great pineapple fields of the islands were also spoken of by Mr. Gill and illustrated by splendid tinted illustrations. The rice fields and the taro patches also figured into the panorama of illustrations, and the heavier commercial topics were pleasantly lightened by bits of Hawaiian superstition and tradition, and with interesting happenings connected from the history of the natives.

BEAT HIS WIFE

William Thorogood, a lodging house keeper, got into trouble yesterday over an anonymous letter he received while he was away from home. In a fit of jealous anger he saw fit to chastise his wife with his fists and for this was arrested by Patrolmen Looker and McClurg and locked up.

WITH MANY PASSENGERS

With a large crowd of passengers for the southeastern coast of Alaska the Pacific Coast Steamship company's steamer Cottage City sailed for Skagway at 9 o'clock this morning. She had over 200 passengers, all of whom, with the exception of about 25 that boarded the vessel at Victoria, were from this port. She also carried a large cargo of general merchandise.

We COULD have a big sale and take \$50 to \$150 off the price of each piano--(that is, if we had time to put it on before the sale started!)

Instead we ask just a fair price and sell none but good pianos.

ANIMAL CEMETERY FOR FRISCO

Newspaper-Enterprise Ass'n.

SAN FRANCISCO, April 13.—San Francisco is to have an animal cemetery. A number of well known business men propose to organize a corporation and purchase a ten-acre tract of land in San Mateo county. Several wealthy owners of pet animals have already promised to take blocks of the stock.

The animal cemetery in Paris, which has been established for many years, is a great financial success. The place is beautifully laid out and many handsome monuments are erected to the memory of departed pets. A small fee is charged for admission, and quite a large revenue is realized from this source alone.

There are animal cemeteries in New York, Boston and Philadelphia, and all are financial successes.

A prominent physician, who recently witnessed the grief of a lady over the death of a pet dog, was the originator of the idea to establish an animal cemetery here. The lady was the wife of an army officer, who was ordered to Manila. The dog took sick and the wife remained behind to take care of it, but, despite her attention, the dog died. Her grief was uncontrollable when she found that the dog would have to be buried in a common sand lot, and she expressed a wish that someone would establish a cemetery for the interment of pets. The physician thought the idea a good one, and the result is that the enterprise is well under way.

Fire in the residence of M. A. Bannett at 284 East Olive street yesterday was caused by a defective fuse. The damage by fire and water amounted to \$150.

EGBERT SMYTH DEAD

ANDOVER, Mass., April 13.—Egbert Smyth, professor of ecclesiastical history at the Andover theological seminary, is dead of heart disease. Sixteen years ago he and five others were tried for heresy and acquitted. His brother Frederic lives in California.

HERE'S PRINCE DAVID'S PET

HE'S A TORTOISE 100 YEARS OLD AND WEIGHS A TON

THE ROYAL TORTOISE.

Newspaper-Enterprise Ass'n.

HONOLULU, April 13.—They have tortoises for pets in Hawaii. Prince David has one which is over a hundred years old, and which weighs nearly a ton. To turtle is a monster and has been in the royal family of Hawaii for nearly a century. The tortoise is kept in a pasture on the old royal premises and is treated as a family pet.

Captain John Meek, a sea captain, brought the turtle to Honolulu in 1712 and presented it to King Kamehameha. After the death of the king the tortoise passed into the possession of the late Dowager Kapilani, or rather of her first husband, Nani-akaheha. When Kapilani died it came into the possession of Prince David Kawanakoa, who would have succeeded to the throne had not Queen Liliuokalani been dethroned. The turtle is still cared for by the royal family, and promises to outlive the last of the Hawaiian dynasty.

POLES ARE FLEEING

BERLIN, April 13.—Fifty-five hundred Poles, fleeing from Russia, have arrived at Posen in an endeavor to evade conscription.

The steamer Senator arrived from San Francisco this afternoon. She had a large number of first class passengers, and over 200 Chinese laborers, who are bound for the canal project of the Pacific Packing & Navigation company in the North. As a cargo the Senator carried a large consignment of California fruit and vegetables, hardware, and general merchandise.

INSPECT THE LINE

HONOLULU, April 13.—E. J. Pearson, chief engineer of the Northern Pacific railway company, visited Honolulu yesterday. He was accompanied by L. H. Crosswell, division engineer, having charge of track repair and maintenance of lines of the company west of the Cascade mountains. The object of the present trip is to arrange for the completion of the peninsula line to the reservation and locate sidings and depots along the line.

NO OPPOSITION

AUGUSTA, Me., April 13.—Republican congressional conventions of the Second and Third districts, held today at Lewiston and Waterville respectively, resulted in the renomination of Congressman Charles E. Littlefield and Edwin C. Burleigh. Neither congressman was opposed.

DRIVEN FROM PLACE TO PLACE

PERSECUTED JEWS WANDER THROUGH SEVERAL COUNTRIES TO SEEK REFUGE

(By Scripps News Ass'n.)

BERLIN, April 13.—Fifty Jewish families, numbering 150 persons, who fled from Hongkong, Bulgaria, as a result of the anti-semitic outbreak, sought refuge at Widin, but were driven out. They wandered to Kalamita, Roumania. Here again they were ordered away and are now huddled in the Romanian bank of the Danube, in a pitiable state, bordering on famine.

"LEAVE TOWN" WAS THE ORDER OF JUDGE GEORGE

Allen Egan, who figured in a sensational "knock-out" robbery case in the tenderloin a few years ago, with Steve Lyle and Tom Phillips as partners in crime, was tried on a charge of vagrancy before Judge George yesterday. He was found guilty and given twenty-four hours to leave the city. If found here after the expiration of that time, he will be given a full sentence of 30 days.

Other vagrants, who came before Judge George, were similarly dealt with. All were promptly convicted and ordered to leave the city.

SAYS LABOUCHERE

LONDON, April 13.—Editor Henry Labouchere, in his newspaper, the Truth, today quotes a Russian friend as stating that the impression in Russia is that the war with Japan will be ended during the coming summer. This friend is further quoted as saying that a fight with England over the Chinese expedition is not considered impossible.

THESE BUSY LITTLE BUGS

THEY ARE ACCUSED OF EATING UP THE PILING IN WESTPORT HARBOR

HONOLULU, April 13.—Commissioner Davis went to Westport yesterday and made an examination of the Westport wharf. He finds the entire piling of the wharf practically destroyed by a small bug resembling a water flea. The piling was put in but five years ago and now it is ruined and will be replaced for safety.

Mr. Davis finds the bug hard to work. He cuts off the piles at low water mark, so that an 18-inch piling is found to be within a few inches of being entirely cut off. Cedar, which is usually proof against insects, has no terror for the bug and he cuts this faster than fir. If well driven piling is to last but five years, it means some method must be found to save them or an endless expense is certain.

The insect is known to scientists as the limnolag and is said to be very destructive to wood of this kind. An effort will be made to find a remedy for the pest.
