

BRADLEY IN COURT

DIVINITY STUDENT MUST EXPLAIN CHARGE OF BURGLARY

Howard Bradley, a former divinity student, accused of breaking into the residence of J. T. Sipe, at Madison park, several weeks ago, is having a preliminary hearing before Justice Gordon this afternoon on a charge of burglary. Bradley was arrested by City Detectives Corbett and Adams. He has made a partial confession, but the strongest evidence against him is that the stolen goods were found in his tent near Sipe's home. A trunk left at 1606 Bellevue was also found to contain clothing belonging to Sipe. It is alleged that Bradley used an axe and a spade to effect an entrance, also that a key he used was found in a bedroom door. Sipe positively identified the key as one he knew that Bradley had at the time the divinity student was rooming at his home.

Bradley will fight the case. He claims that Sipe let him take the stuff.

921 SECOND AVENUE,
Near Madison Street.

A TREMENDOUS BARGAIN. MUST BE SOLD.

160 acres, all bottom land, 80 acres thoroughly cleared; bearing orchard, 100 trees; new \$2,000 house, barn 100 feet square; five modern chicken houses; beautiful stream of water through the center; one of the best farms in Western Washington; it has got to be sold and you can have it for \$7,500 on easy terms of payment.

If you are looking for a farm, or a piece of acreage, close to the city, it will pay you to call at the office. I keep competent men to show you over farming properties at my expense.

ALFRED LAWRENCE
908 1/2 Second Avenue.

CAN RESTORE LIFE

NOTED MEDICAL SCIENTIST WORKING ON METHOD OF REVIVING THOSE DYING OF HEART FAILURE

(Special to The Star)
NEW YORK, Oct. 10.—Adherents of Dr. James Taylor Gwathney, who has been conducting exhaustive experiments with oxygenated chloroform, are confident that he will discover a method of restoring life in recent victims of heart failure.

The doctor has perfected a method of mingling oxygen with anesthetics to deprive them of the dangerous qualities which attend their use on persons of unsound hearts. Dr. Gwathney publicly announced the discovery and the result of his experiments to members of the Academy of Medicine, when he killed several cats with oxygenated chloroform and restored them to life with oxygen. The doctor today when asked if the method might be applied to the restoration of human beings, made the answer: "To a certain extent it may. Take the cases of cats. After submitting them to oxygen-chloroform for 45 to 52 minutes they were pronounced dead. Unmixed chloroform would have killed them in a third of that time. By resorting to mechanical respiration and the use of oxygen I brought the cats back to life. It took ten minutes."

SQUIRE IS ENTERPRISING

(Special to The Star.)

NEW YORK, Oct. 10.—Justice of the Peace John C. Lafacher, of Belleville, N. J., is probably the most enterprising man in the marriage business in the country. Couples who go to him are not invited into a stuffy little office, but into appropriately equipped quarters. A floral bell hangs over the alcove. The couple enters the room ceremoniously at the rear door from a reception room while Miss Cora Lafacher plays a wedding march and Miss Leonore Ayres, the squire's granddaughter, acts as flower girl. Constables are ready at all times to perform the offices of ushers. One is prepared to be the best man if necessary.

There is always a bouquet ready for the bride, and Squire Lafacher often presides the newly married couple with a gift of a handsome parlor lamp or clock.

"JIM" SHEEHAN ASKS DAMAGES

(Special to The Star.)

James Sheehan, a well known Second Avenue saloonkeeper, filed an \$11,000 damage suit today against the Bailey Building company and its city.

Sheehan turned into an alleyway between the Bailey building and the Butler hotel April 14 to avoid a runaway horse. In his haste he stepped down a cellarway, which he charges in his complaint was carelessly left uncovered.

His arm was broken and he suffered other injuries.

SHIPS SUNK

(By Scripps News Ass'n.)

TOKIO, Oct. 10.—The Japanese recently centered the fire from their land positions and from the fleet blockading Port Arthur on the west harbor, and succeeded in sinking three vessels. The failure of the Port Arthur fleet to make a sortie has created the impression that the Russians intend to destroy their ships in case the port falls.

MAY REPORT ON ARCADE

Mayor Ballinger is expected tonight, or a week from tonight, to make his report to the council regarding the ordinance licensing the Arcade theater, which has been sent to him for approval or veto by the council. This morning he said that he did not know whether he would get around to make the report or not.

It is reported that if the mayor approves of the granting of the license at all it will only be on condition that certain changes be made in the conduct of the resort in case the license is granted. He will ask the council to accept or reject his suggestions, thus forcing the council to bear a part of the responsibility of whatever is done.

It is said this afternoon that the mayor will not only suggest certain changes in the running of the Arcade, but in all other similar resorts in the city as well.

HIS RELATIVES FEAR FOUL PLAY

A brother of V. L. McFarland, of Grass Valley, Ore., reports the latter missing since September 16. At that time he left for Alberta, N. W. T. Letters since written to that address have been returned with the information that there is no one of that name there. Friends and relatives believe for that reason he has met with an accident or foul play. He had a considerable sum of money with him when he left home.

McFarland was 21 years of age, smooth shaven and wore a gray hat and clothes when last seen. His hair was red. The police are hunting for him.

BELONGED TO G. H. WOODHOUSE

"The Star" dispatch about "Buffalo," which this paper used so effectively during the launching of the battleship Nebraska on Friday, was chartered from Mr. George H. Woodhouse, of the George H. Woodhouse company, 1908 Second Avenue, and not from Danbury & Woodhouse, as stated in Saturday's issue of The Star.

NORFOLK, Va., Oct. 10.—While bathing in the surf yesterday Mrs. Bessie Wilson, of Clarkburg, W. Va., niece of the late William L. Wilson, former postmaster general and former president of Washington and Lee university, was drowned, and four other young women companions barely escaped drowning.

NEW YORK, Oct. 10.—At the arrest of Howard E. Wooten, S. B. Minden, Manville Thomas, Charles S. Horn, Charles E. Riesley and Walter S. Rockey, the police claim to have unearthed a significant drug epidemic. The men under arrest are charged with counterfeiting well known patent medicines and selling them for genuine.

HERALD, TAILOR, 1329 2nd. ***

LITTLE HAPPENINGS

While L. Markow and family were absent from their home, at 1014 East Alder street, last evening a thief crawled in through a back window. The occupants of the house were not gone over an hour, but on their return discovered that an overcoat, three suits of clothes and a lady's watch had been stolen. The residence of C. Durand, at 1523 Eighth Avenue, was entered Saturday evening, during the absence of the occupants, by a burglar who used a skeleton key on the front door. A gold neck chain and watch were found missing.

While Mrs. McDonald, of 215 Ninth Avenue, was waiting for a car at the corner of Ninth Avenue and Yeeler Way last evening, a purse snatcher grabbed her purse from her hand. She does not know just how much money was in her purse, but was able to give a good description of the thief. Several people were standing near at the time.

"GET THEE TO A WATER CART"

John Brennan, of Kirkland was brought before an insanity commission in the superior court this morning by his neighbors, who believe him to be demented. He was discharged, as the physicians found that his condition was due to an over-indulgence in bad whisky. The man was found wandering in the woods in a half starving condition, looking for snakes.

"My man," Judge Morris said, "there are two institutions in the state filled with men who couldn't pass up whisky. One is the insane asylum and the other the penitentiary. Now go and behave yourself."

JEWELS STOLEN

(By Scripps News Ass'n.)

CHICAGO, Oct. 10.—A tray of jewelry valued at \$5,000 was stolen by a sneak thief from the counter of the wholesale house of the Joseph Maith company, on State street, today.

MARRIAGE LICENSES

Charles H. Black, 25, and Luella Smith, 24, both of Seattle; Emil Van Raes, 34, and May De Graft, 32, both of Seattle; William P. Flint, of Port Townsend, and Anna Louise Johnson, of Seattle, both of legal age.

ON PHILIPPINES

Judge W. E. Morris, of Lincoln, Neb., and a member of the Nebraska lawnuching party, addressed the students of the University of Washington this morning on the subject, "The Philippines." His address was heard with much interest, as he was on the bench in Uncle Sam's island possessions for five years.

JAILED

SON OF CYRUS W. FIELD ACCUSED OF THEFT OF AN OVERCOAT

(Special to The Star.)
NEW YORK, Oct. 10.—Edward M. Field, son of Cyrus W. Field, of

Atlantic cable fame, has been arrested here on the charge of grand larceny. He was locked up at the police station. The specific charge is the theft of an overcoat on October 6. He gave his occupation as "broker."

MELANCHOLY DAYS HERE

FROM NOW ON STREET CONTRACTORS WILL MAKE LIFE A BURDEN

Troubles will come thick and fast for city contractors from now on. Today is believed to mark the beginning of the rainy season, with its attending mud puddles and blocks of impassable streets under process of improvement.

Although it is not likely, with the exception of the Second Avenue regrade, that the people of the city will be as greatly inconvenienced by impassable streets left by procrastinating and careless contractors as they were last year, they will have their share of vexation. The council has been ordering street improvements unceasingly during the summer and many of them are still far from completion, notwithstanding the unusually dry weather of the present fall.

The members of the contractors' trust are loaded up as much as ever with work. There are now more than 65 contracts under way in this city. They include contracts for grading, laying water mains and sewers and constructing concrete walks. The time for the completion of at least a dozen of them has already expired. Of these, the Second Avenue regrade will cause most trouble.

Despondent

RAISIN GROWER, FEARING FINANCIAL RUIN, DRANK CARBOLIC ACID

(By Scripps News Ass'n.)
FRESNO, Cal., Oct. 10.—G. P. Josephian, a prominent and very wealthy raisin grower, committed suicide this morning by drinking carbolic acid. He was despondent over the destruction of his entire crop by last week's storm. He was ruined financially.

BROWNFIELD SET FREE

(By Scripps News Ass'n.)

Clyde Brownfield, the young tramp whom Chief Delaney and his detectives finally decided to prosecute for the theft of a few links of sausage from an Eastlake avenue butcher shop, was set free by Superior Judge Tallman today.

The court held that there was no evidence whatever to prove Brownfield guilty of burglary, and took the case out of the jury's hands.

Brownfield was held in the city jail for several weeks on suspicion of having been implicated in the kidnapping of Prewitt Baker. He was a member of a gang of which John King was one of the leading spirits.

King was held in jail for months on a wild suspicion of having kidnapped the Baker baby, then set free without even an apology.

WILL BE MORE LIBERAL

WILL FIX TREATY SO HIGHER CLASS OF CHINESE CAN ENTER AMERICA

(By Scripps News Ass'n.)

WASHINGTON, D. C., Oct. 10.—Secretary Hay and Sir Cheng Tung began today to lay the foundation for a new Chinese exclusion treaty. It will be submitted to the senate at the coming session. It will contain provisions looking to a more considerate and liberal treatment of the higher class of Chinese seeking to enter American ports.

END NOT YET IN SIGHT

TOKIO, Oct. 10.—The emperor in a message to the nation today commented on the loyalty and bravery of the Japanese forces by which they had advanced by progressive steps. In concluding, he said: "Nevertheless, our prospects for final success are still distant. I earnestly hope that the sincerity of the national spirit will enable us to realize our final object."

FIRST WHALER REACHES PORT

The gasoline schooner Barbara Hermer, Capt. H. E. Huffman, of the Northwestern Steamship company, which is the first of the whaling vessels from this port to arrive from the north, came into port this morning. The vessel has a cargo of 8,000 pounds of whalebone, valued at \$60,000; 14 bear skins, and 12 white fox skins. The skins were brought down from the Point Barrow trading station of the Northwestern Commercial company and are of an excellent quality.

The Hermer caught four whales, all of which were taken in the Arctic ocean to the eastward of Point Barrow. The Hermer left for the north last spring.

The steamer Valencia arrived in port from Skagway and southeastern Alaska this afternoon. The vessel brought 14,000 cases of salmon, which is the largest shipment to come down from the north this fall. The Valencia brought few passengers.

BOSTON WINS

(By Scripps News Ass'n.)

NEW YORK, Oct. 10.—Boston wins the American baseball league pennant. First game, Boston 3 runs, 8 hits; New York, 2 runs, 6 hits, 4 errors. Batteries, Dineen and Criggor; Chesboro and Kleinow.
