PAY AS YOU WANT TO FURNISH YOUR HOME NOW

The new store's credit system is "take the goods, pay as you want to."

There is no store in the United States more liberal in giving credit than the new store—you simply make your own terms.

This is especially interesting to you, since no store in the northwest has a more complete stock of the best values for the money to choose from—in furniture, carpets, draperies, stoves, etc.

If you have tried the new store methods you are a new store customer—this information is for strangers to the store.

Get those things for the home that you want—get them now at the new store—pay on your own terms.

RAILROADS DEMAND IT

CITY COUNCIL ASKED TO PROHIBIT TICKET "SCALPING"

Councilman Bowen last night introduced in the council a blank ordinance aimed to put ticket "scalpers" in this city out of business. It was referred to the license and revenue committee. The bill provides a license of \$50 for all ticket brokers and contains other provisions aimed to prohibit the practice. The railroads have raised the chief objections to "scalpers" and have succeeded in getting ordinances passed in Tacoma, Spokane and Portland regulating the matter as far as possible.

At the meeting of the license and revenue committee yesterday afternoon a renewal of the license of the Louvre saloon, among others, was granted.

Corporation Counsel Gilligan presented his opinion as to the legality of licensing all vehicles in the city, holding that it could be done.

The license asked by Tom A. Williams to run a grill room at the corner of Pike and Second avenue

INVENTED SNOW AUTO

J. D. THORP SAYS HE CAN
MAKE 30 MILES AN HOUR
WITH HIS NEW MOTOR

J. D. Thorp, a Klondike and Nome pioneer, who has spent several years in both districts, announces

that he has invented a motor sled which is capable of making 30 miles an hour over either soft snow or ice. Thorp invented his machine while putting in the winter of 1903 and 1904 in the vicinity of Nome and says he has made repeated trials with sleds, all of which turned out in the most successful manner.

The sled is constructed with four iron wheels about three feet in diameter. Attached to the wheels are eight paddles set at an angle in order to pack the snow thoroughly by the time full pressure is brought to bear on them in propelling the sled along. These paddles are fitted with several large spikes, which prevents them from slipping when the sled is traveling over ice or hard snow and are in shape much like the ordinary snowshoes. The strain on the wheels is relieved by a spring attachment on which the axles are fastened. The springs are securely held in an iron frame set in an upright position on the top of the frame. The sled is propelled by a four or five horse power gasoline engine and is capable of carrying from 1,000 to 1,500 pounds of freight.

The steering apparatus of the contrivance consists of a steel blade which acts as a rudder and also for a brake when going down grade. Thorp has patented his machine and intends to manufacture a number of them while in Seattle this winter. He intends to use them in freighting supplies into the Yukon river districts during the closed season.

BRADLEY IS HELD

Howard Bradley, a young divinity student, charged with burglary, was bound over to the superior court for trial yesterday afternoon by Justice Gordon. The state presented a strong case, which materially strengthened the confession made by Bradley soon after his alleged housebreaking stunt. Bradley did not testify at the hearing yesterday.

Prison rates between Seattle and Valdez have been announced by Lieut. Col. R. E. Thompson, in charge of the local cable office. From this city to Valdez, Sitka, Juneau, Skagway and Fort William H. Seward the rate will be 3 cents per word, with a minimum charge of \$1.

The Ballard whist club met last evening at the chambers of M. H. Ingerson to organize for the coming winter. They have decided to meet regular, as in the past.

Inventions are out for a ball to be given by the Order of Washington on October 29, at the Junction hall.

WHEN YOU COME TO WORK YOU'LL FIND YOUR NAIL DRIVEN IN"

"THERE AIN'T ANY OLD-TIME PRINTS ANY MORE," SAYS THE WANDERER. "THEY'RE ALL DEAD OR IN THE CHILDREN'S DREXEL HOME!"

"...and stay out of here!" the foreman of the shop shouted from the top of the stairs to the figure at the foot.

"All right, guy," said the figure. "If you come here again I'll have you pinched."

"That's gratitude for you," the

wrinkles in his trousers told of sleeping on park benches and in hallways.

"It's not professional courtesy," he said. "Got a dime? Yes, thanks, that buys the story. Ain't much of one. Yes, I'm one of the old-time prints." No, I ain't. There ain't no old-time prints' any more. They are all either dead or out in the Childs-Drexel home at Colorado Springs.

"They wanted to get me in that home once, but—shucks! what's the use?"

"The game ain't what it used to be. Why, even when I was readin' telegraph on the Chicago Tribune it was different. If a fellow kept even with the game he was all right. I could see the change comin', but I wasn't wise enough to get next."

You've got to be ahead of the game now to be even with it. It used to be, 'Be live and let live.' Now, it's 'live' and the 'let live' ain't type high anymore.

"To be a printer now you must be sober—that lets me out—well educated and quick-witted. Of course, there's one department that hasn't changed—the 'ad' department. There's where accuracy is essential. The figure 'I' doesn't take up much space, but you drop it out of \$1.79 in a Monday bargain sale and see what happens. When you come in to work you find your nail driven in the wall—you ain't got no place to hang your coat."

"Never hear about the nail? That's the old way of firing a man."

figure muttered. He was tall, gaunt, emaciated, almost cadaverous looking. His eyes were sunken, but full of fire, his cheek bones stuck out, his cheeks were sunken. His hat had been worn for many years and

How to Find Out

Fill a bottle or common glass with your water and let it stand twenty-four hours; if a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the linen it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder, and every part of the urinary system. It relieves inability to hold water and scalding pain in passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need medicine you should have the best. Sold by druggists in five cent and one-dollar bottles.

You may have a sample bottle of Swamp-Root, the great kidney remedy, and a book that tells all about it, both sent absolutely free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.

When writing be sure to mention that you read this advertisement in the Seattle Star. Don't mail money, but remember the name, Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

—just drive in his nail—or turn out the gas over his case.

"First time I ever ran up against the gas proposition it was new to me. An' when the feller turned it out I 'soaked' him. Next mornin' the police judge wiped out what was comin' to me in my week's pay envelope. Yessir, wiped it clean out an' added 10 days to th' works."

"In the old days 75 per cent of the boys were hard boozers. The old-time print 'ud put on a sub, likewise his coat, and go out on a 'toot.'

"But it ain't so now. You go into the print shops an' you'll see a lot of well-dressed, fine-looking young fellers. Any one o' 'em owns his home and draws from \$25 to \$45 per week; \$70 is the biggest pay check I ever saw, and before they barred me from the composing room I was always there to see, too. Yep, they don't let me light no more—say I'm a disgrace to the trade.

"Nowadays your printer puts in overtime until he runs his check up to a fat size—or as high as the union'll let him. Does he get drunk? Not much. Then he goes out to the ball game, or fishing, or hunting, or does a little bowling. He is well-balanced, he doesn't booze, he pays his bills with checks and his name is at the bottom of 'em, too.

"No, there ain't no old-time prints no more. Why, when I was readin' telegraph on the Trib—thank you, sir, you've saved an old man from going—thirsty."
