

CAR LINE WILL BE PAID FOR, NOT OUT OF TAXES, BUT OUT OF PASSENGER FARES

Some persons have asked the question: "How is the city to pay \$15,000,000 for the street railway property if the voters on Tuesday next vote in favor of the purchase?" The answer is simple. The city does not intend to

pay one dollar in cash or incur one dollar's indebtedness for the property. It does not intend to nor can it issue general bonds in payment. It proposes to issue and can only issue special utility bonds, payable out of, and only out of, a special fund created from the gross

revenues of the municipal street railway system. If such revenues prove sufficient to pay the principal and interest at the times agreed on in the bonds, the bond holders will get their money at such times. If, contrary to all expectations and for any reason which can-

not now be seen, such revenues shall at any time be insufficient for such purpose, the bond holders will have to wait for their money until such revenues become sufficient; they cannot compel the taxpayers to pay one cent of either principal or interest.

AUSTRIA IS INVADED!

PARIS PRESS SAYS KAISER ABDICATES

GEN. DIAZ PREPARING TO MARCH ON VIENNA

More than 80,000 Austrian prisoners and 1,600 guns have been captured up to the present, the Italian war office announced today. The Italians crossed the frontier into Austrian territory in the Sugana valley yesterday evening. Both the Cellina and Meduna rivers (paralleling the Tagliamento, four to five miles to the westward) have been crossed.

Several thousand Italian soldiers who were held as prisoners have been released.

Gen. Diaz will begin a march on Vienna if Austria hesitates in accepting the entente terms of unconditional surrender, diplomatic advices today stated.

With Austria-Hungary split up into at least five independent states and Germany also in a serious political situation, the allies are conducting major offensives on three fronts—in France and Belgium, in Italy and in the Balkans.

Three distinct drives are under way in the West. The French and Americans are attacking along a front of nearly 40 miles, from the Aisne to the Meuse. They have advanced four miles, capturing more than a dozen villages and several

important woods and taking over 3,000 prisoners.

The French and Americans also are advancing on a front of more than 12 miles, along the Scheldt, on both sides of Audenarde. In an advance of three miles they have taken Audenarde, Deynze, Nazareth and other important villages, together with more than 1,000 prisoners.

Valenciennes is in the hands of the British. They captured two villages and between 2,000 and 3,000 prisoners in the advance.

Italians, British, Americans and French, on the Italian front, are advancing in the entire region from the Asiago plateau to the Adriatic.

The Asiago plateau has been entirely cleared. Italian patrols are reported to have reached the Tagliamento. Thousands of additional prisoners and hundreds of guns have been taken.

In the Balkans, Serbian troops have reached the outer defenses of Belgrade.

The Austrian war office reiterated that Austrian troops are completely across the Danube.

Last Events of War Are in Progress

Naval Section of Armistice to Germany Arrives in America

ENEMIES MUST SUBMIT

Dispatch From Robert J. Bender
By United Press Leased Wire Direct to The Star

WASHINGTON, Nov. 2.—The next 48 to 60 hours are expected to witness dramatic events on the closing pages of the war.

The naval section of the armistice terms to be given Germany was in possession of this government today. No announcement of the contents was made, but assurance was given by high officials that every safeguard had been taken in these terms, and that they would meet the requirements of "every prudent man," so that travel will be safe on all the seas.

Whether occupation of the German fleet was made a temporary or permanent condition was not stated. But it was suggested that a question such as final possession of the submarine or grand fleet would rest with the peace conference.

Impending developments are rapidly coming to a head. Within the next few days, it is deemed possible in official quarters that:

Austria will submit to armistice terms equivalent to unconditional surrender.

Versailles will finish its armistice task and send surrender terms forward to Germany.

The Kaiser may abdicate.

President Wilson labored late last night and was still early today on the information from the Versailles conference that there was reason to believe that armistice terms fully

open at 10 a. m. and close at 5 p. m., will continue in effect Monday, and probably longer.

"We've got to eliminate crowding in street cars to prevent a big loss of life," he said, "and to do it we must keep up the closing order. Employees must not be kept longer hours, and then released to jam traffic in the rush hour, when industrial war workers are being carried."

Restricted to Drugs

Provided people comply in spirit and action with health regulations, the pandemic is slated for an early departure from Seattle, Dr. McBride stated Saturday, while issuing supplementary regulations in response to the numerous queries which were poured into the offices of the health department regarding the closing orders.

Restaurants are unrestricted as to opening and closing hours, Dr. McBride says, and may serve ice cream and confections with meals, but not as a side issue. Drug stores are prohibited from selling confections, cigars or cigarettes Sunday as well as Saturday.

The public markets will be closely patrolled, and crowds assembling in them broken up, beginning Saturday and continuing thru next week.

In answer to numerous questions, Dr. McBride said Saturday that a person recovering from influenza should remain indoors at least three days, following the disappearance of fever, and that it is not advisable to go outdoors until all coughing, sneezing, etc., have vanished.

ANGERED GERMANS PLAN PUNISHMENT OF WILHELM

PARIS, Nov. 2.—(4:30 p. m.)—Abdication of the kaiser may be considered to be a fact, according to a Geneva dispatch to the Temps. The dispatch said that official publication is being delayed awaiting a favorable opportunity.

WASHINGTON, Nov. 2.—Punishment for the kaiser and the Prussian war lords guilty of German crimes of the past four years will be meted out in summary manner by the German people, diplomatic advices today indicated.

PARIS, Nov. 2.—Terms for an armistice which have been presented to Austria are based on President Wilson's 14 principles, according to a Rome dispatch to La Liberte today.

They render it impossible for Austria to resume the war or to use the armistice to get out of a bad situation. An answer is not expected immediately as the Austro-Hungarian representatives probably will refer it to their superiors.

NEW U. S. PUSH IMPERILS HUNS' WAY OF ESCAPE

Battle Analysis by J. W. T. Mason
United Press War Expert

NEW YORK, Nov. 2.—Gen. Pershing's new advance toward the Luxembourg frontier brings the Americans within eight miles of the great communication center of Stenay.

The direction of the American attack is toward the Metz-Longuyon supply railway, which has been recently under long-distance bombardment of Gen. Pershing's artillery.

The movement is headed straight for Stenay, where the main Luxembourg highway crosses the Meuse.

It is apparently Gen. Pershing's purpose not to concentrate his efforts on the secondary work of hampering the movement of supplies for the German armies in France, but to continue his attempt to cut off the German retreat from France by way of Luxembourg.

Wins Success

The sudden lurch forward of the Americans toward Stenay is the most successful maneuver Gen. Pershing has conducted since his first offensive north of Verdun, over a month ago.

Stenay is now directly menaced. Only two more advances similar to the one made by the Americans in the past 24 hours would be necessary to close the Stenay gap. Thereafter the Germans in Eastern France will have no adequate route to conduct a retreat homeward thru the difficult mountain passes of the Ardennes, except for some fortunate units which may be able to squeeze into the western tip of Luxembourg by way of the 12-mile stretch between Stenay and the Ardennes.

The strong presumption of the American effort at this time to reach the Luxembourg border means that Marshal Foch is bringing to bear on the Germans the only argument about the allies' armistice terms that they can understand.

When the terms are presented to the kaiser, the fact that the Americans are still going ahead toward Luxembourg must exert a profound influence upon the decision of the German general staff.

It is strictly in accord with the higher necessities of the case that the enemy shall be given no rest while unconditional surrender is being demanded of him.

Teutons to Accept Stiff Terms, Diplomats Declare

(By United Press Leased Wire, Direct to The Star)

WASHINGTON, Nov. 2.—"Germany will accept stronger terms than is generally believed," a prominent allied diplomat here said today. He expressed the opinion that Germany probably would yield to almost any limit the allies might go.

Another well informed diplomat said: "The terms which the allies are offering to Germany will be stiffer than those which Turkey was forced to accept."

Italians and U. S. Men Land on Austrian Coast

WASHINGTON, Nov. 2.—Italian forces, accompanied by American troops, have effected a landing on the Austrian coast of the Adriatic, near Pola, a Swiss dispatch received here today thru diplomatic channels announced. It was indicated that the landing party is under the protection of the entente Adriatic fleet, now in absolute control of Adriatic waters.

AMERICANS ON MEUSE SWEEP OVER DEFENSE

BY FRANK J. TAYLOR
(United Press Staff Correspondent)

WITH THE AMERICAN ARMIES IN FRANCE, Nov. 2.—The Americans, with the French co-operating on their left, have advanced more than four miles in an attack on a 20-mile front, between the Aisne and the Meuse, launched yesterday morning.

A deep wedge has been driven into the German lines, increasing the menace to the enemy's vital communications. More than 3,000 prisoners have been taken.

The villages of Bayonville, Landres-St. Georges, St. Georges, Remonville, Chennery, Clery Le Grand and Aincreville have been occupied and important parts of the Frey-Stelling line have been penetrated. The important Loges wood, northeast of Grand Pre, was entirely cleared of the enemy.

"We have captured the formidable positions of Mont. Moulach, Mont. Longars, Mont. Spitz, Sasso Rosso, Mont. Dardo, Lambara and La Maletto di Gallo on the Asiago plateau, taking more than 3,000 prisoners and 232 guns," the statement said.

"At Palsaid, we overcame enemy resistance and entered Belluno. Our cavalry has reached the plains north of Pordenone. Between Saddle and San Sino, infantry has passed the Livizna."

"The fighting yesterday, south of Valenciennes, which was very severe, was continued until this morning on a battle front of six miles," the statement said. "Large numbers of the enemy were killed. Many hostile counter attacks were repulsed. Four thousand prisoners were taken."

The Seventeenth corps, under Gen. Ferguson, and the Twenty-second corps, under Gen. Godley, gained the high ground southeast of Valenciennes this morning, and, pressing forward, seized the village of Preseau.

A Canadian corps, under Gen. Currie, after fighting in the outskirts of Valenciennes, has now passed thru the town, which is wholly in our hands."

Beginning Monday, antitoxin serum, declared by City Health Commissioner J. S. McBride to be almost a sure preventive of Spanish influenza and pneumonia, will be administered free of charge by the city to those whose financial circumstances will not enable them to receive injections from private physicians.

Saturday, Dr. McBride was planning the distribution of the serum at vantage places in the city, where it will be accessible. The stations have not yet been determined.

Working with great intensity, city laboratory men have succeeded in preparing a large quantity of the vaccine, which must pass thru a certain period of growth before it is effective. Two hundred thousand injections have been administered in Seattle since the first of October, Dr. McBride says.
