

SIX NATIONAL PIANO LEADERS

There is a lot of real satisfaction in selecting a piano from a complete stock—particularly when the display represents the Leading American Makes—including

Chickering Kimball Mehlin
Marshall-Wendell Brewster Behr Bros.

In our Piano Department you will see all the different models from these leading makers and there is no "urge" to buy this or that instrument. Each has its particular features and we are glad to recommend any one of them—or they would not have a place on our floor. Call and we will be glad to demonstrate the various makes and explain our

WESTERN GROUP TO TALK NEEDS

Californians Will Give Dinner Saturday Night

SAN FRANCISCO, June 24.—The needs of the great western states and of Alaska, Hawaii and the Philippines will be discussed at a dinner which the California delegation will give to the delegations from the West to the democratic convention Saturday evening, Gavin McNab explained today.

McNab reiterated his declaration that no effort will be made to line up conventional votes for any candidate.

Irrigation and reclamation questions, disposition of mineral and oil lands, navigation matters affecting Alaska and the Hawaiian Islands principally will be among the subjects discussed, McNab said.

McNab was noncommittal on the Japanese question.

"It doesn't affect other Western states as it does California," he said, "but I can't say whether the delegates will discuss it."

The delegates at the dinner will be from Oregon, Washington, Idaho, Nevada, Utah, Wyoming, Arizona, New Mexico, Colorado, Alaska, Hawaii and the Philippines.

Community Kitchen O. K.

Cheaper, Says Woman Who Proposed It

Tenants Adopt New Plan

The community kitchen is a sort of compromise between living in a flat and keeping house.

There are all the advantages of cooking what you want just the way you like it, without the embarrassment of having the lace curtains saturated with the odor of corned beef and cabbage when company calls.

It is cheaper, too.

All this was figured out by Mrs. May Moses before she opened Seattle's first community kitchen at the Kingsley hotel, 1726 Summit ave.

"I do not claim that the idea is all mine," says Mrs. Moses. "They have community kitchens in the East, you know. But my system is original, and I think will prove more practical and popular."

SAVE LAUNDRY BILLS ON LINEN

Down in the basement of the hotel—which is not a hotel at all, but an apartment house—there is a spacious kitchen, fitted up with a nine-hole gas range, a sink, and all those little things that warm the cookies of a true cook's heart.

There is a private pantry locker for each domestic unit in the building, where skillful and other legal tender locked up for the night.

Next door to this is the dining room. There is a table for each family here. Nice tables with hardwood tops that may be used minus a tablecloth without making one feel pish. They are especially appropriate when serving corn bread and country sausage for breakfast.

EVERY ONE MUST BE CONSIDERATE

"Suppose all 12 cooks wanted to use the kitchen at the same time?" we wondered.

"Well," replied Mrs. Moses, "they never do."

So that disposes of that.

"But suppose Mrs. Jones is frying sandabs next to Mrs. Smith's milk toast?"

"That's where the community part comes in," she said. "Everybody is considerate of the rest." "But say, we have lots of fun out of it, too," she added. "We have a bachelor who is just learning to cook. For the first few days he ate out, but finally he screwed up enough

courage to buy a skillet and a coffee pot and some dishes and things down at the 10-cent store, and last night he tried his hand at getting supper.

AND THE BILL IS NOT SO EXTRA HIGH

"He didn't know much about it. But before the meal was over he had hot biscuits, rhubarb pie, and everything. We all helped out a little."

Mrs. Moses' guests declare that the new system has cut their eating expenses in half.

"For instance," said one of them, "here is what my family of four had for supper the other night: Veal chops, new potatoes, asparagus, combination salad, bread and butter, strawberries, cake and coffee. And it cost us just 50 cents apiece."

Can you visualize your restaurant check for a menu like that?

No wonder that Seattle's premier community kitchen is popular!
