The money order system was established in 1865 with 419 offices. Now there are about 31,000 offices and the number is increas ing yearly. Of these 26,737 are domestic offices and 4,263 transact international business in addition to domestic business.

Every column in a newspaper contains from 10,000 to 22,000 distinct pieces of metal, the displacement of one of which would cause a blunder or typographical error, and yet some people think it strange when they find an error in a newspaper.-Ex.

It is said that a young officer at the front wrote to his father: "Dear Father-Kindly send me \$50 at once; lost another leg in a stiff engagement, and am in the bune. hospital without means." The answer was: "My Dear Son-As this is the fourth leg you have lost, according to the letters you have written, you ought to be accustomed to it by this time. Try and wobble along on any others you may have left."-Ex,
