

It is a Wise Gopher;

The wise gopher avoids the "Better Farming" Poison, that's where he is wise.

The wise bug wants to live. Our "Better Farming" gopher poison means a sudden and violent death.

You cannot really blame the bug.

We are not trying to work up sympathy for the bug. He must die sooner or later anyway, but our "Better Farming" gopher poison kills him quicker than any other.

If you want to send a million gophers to the H. H. G. (Happy Hunting Grounds) buy some of it and give it a trial. We keep it in stock.
