URIC ACID IN THE SYSTEM

URIC ACID IN THE SYSTEM

BY LEE H. SMITH, M. D.

Urle acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order urle acid accumulates within the body in superabundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do, and so the poisons remain in the blood and float around until they find a place to lodge, in form of urate salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—your back may ache and your head may be dizzy—but the trouble is not where the pain appears. The trouble is in the kidneys, and what is the first thing to de? You must get that excess urle acid out of your system, which can be done by taking Anuric Tablets, the splendid remedy which Dr. Pierce, of Buffalo, N. Y., has put on sale in the drug stores at a low price. Anuric Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar or salt into hot water, and it will disappear. In precisely the same way do these Anuric Tablets dissolve uric acid. Of course, after riding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life, but Dr. Pierce will advise you fully on proper food and correct living if you write and ask him. He makes no charge for such advice. Take Anuric Tablets today, by all means, and get that uric acid out of your system. Don't, don't don't, put the matter off, Adv.
