

NO INVESTIGATION OF INSTITUTIONS IS NOW POSSIBLE

House Kills Measure to Create Commission Proposing to Locate Them Definitely and Permanently.

GRANT APPROPRIATIONS

Northern Idaho Allowed, Bridge, Lava Hot Springs Funds for Improvement and Madison and Jefferson County Money to Curb Snake River.

Permanent location of state institutions will not be determined by a commission of five members appointed by the governor, as proposed by the state affairs committee of the house of representatives. The lower assembly Tuesday afternoon killed the measure, house bill 203, so providing. It was indefinitely postponed without debate on motion of Representative Carpenter of Nez Perce county. When the viva voce vote was taken there were but a few feeble nay votes. The object sought by this bill was to remove, if possible, the biennial unrest caused when the legislature is in session and proposals are made to either remove institutions or consolidate them. The commission was empowered under the terms of the measure to investigate the present sites of all state institutions or other sites for them that might be offered, to receive proposals and offers and to report its findings and recommendations to the sixteenth legislature in 1921.

FOR IMPROVEMENTS.

The house showed its consideration for the several extreme sections of the state by allowing them improvement appropriations. Boundary county was given \$10,000 for the erection of an interstate bridge between Idaho and Montana across the Kootenai river at Lenora. Montana has already passed a bill carrying a \$10,000 appropriation for the same purpose. The forest service will appropriate \$20,000 also. For the improvement of the Lava Hot Springs, \$52,000 was appropriated. It is proposed to build bath houses, improve the plunges and make the water resort one of the most attractive. The Glechrist bill to make improvements along the Snake river in Madison and Jefferson counties so as to protect the lands along the shores from washing away when the flood waters come down, and appropriating \$30,000 therefor, was also passed. All three are senate measures. They therefore go to the governor for his approval. The Greenwood resolution proposing an amendment to the state constitution to provide that the state may own, control and develop its own water power sites, was killed because the Republican majority has passed a similar resolution in keeping with the party platform pledge.

Representative White, of Twin Falls county, held the improvements for the Lava Hot Springs to be no more important than the tuberculosis hospital bill and she informed the house she thought the measure should be held up until the senate passed the hospital measure. On the roll call, however, she voted for the act.

MEASURES PASSED.

The following measures were passed: House bill No. 253, by committee on immigration, labor and statistics—Authorizing cities to charge fees in municipal employment offices. House bill No. 202, by state affairs committee—Providing for education of persons of foreign birth and appropriating \$5000 therefor. House bill No. 41, by Gudmundsen—Giving independent and high school

FOR ACID STOMACH TAKE BI-NESIA

Instant Relief or Money Back

If you suffer from dyspepsia, indigestion, pain after eating, gastric, heartburn or any stomach trouble due to acidity or food fermentation—and over ninety per cent of stomach complaints are due to these causes—go to your druggist and get 50 cents worth of Bi-Nesia. The next time you eat or have pain in the stomach take a teaspoonful in a little hot water and note how quickly all pain and discomfort ceases. Chronicists say that its almost invariable success is due to the fact that Bi-Nesia instantly neutralizes the excess acid and stops fermentation, thus promoting healthy natural digestion. Being absolutely harmless as well as an expensive Bi-Nesia should be kept on hand in every home where economy and the good health are sought.

Bi-Nesia is obtainable in both powder and tablet form of Joy, Whitehead and other leading druggists everywhere. Each package contains a binding guarantee of satisfaction or money back and the druggist of whom you buy it stands back until you are satisfied. Stop eating, eat what you want, then take Bi-Nesia—the wonderful remedy that costs nothing if it fails.—Adv.

district right to issue funding bonds until September 1, 1919. House bill No. 109, by Bowman—Creating game preserve within Pocatello national forest. House bill No. 141, by Storey—Appropriating \$3000 for road from near Neal to Arrowrock. House joint resolution No. 4—Appropriating \$600 to pay Ben Oppenheim for legal services performed for legislature. House joint resolution No. 14, by Shroder and Foley—Calling for adoption of flag showing number of emigrants who entered service of country during war.

House bill No. 276, by committee on revenue and taxation—Requiring public utilities to make return on valuation to state auditor. Senate bill No. 178, by Walker—Appropriating \$10,000 for the construction of a bridge across the Kootenai river at Lenora between Idaho and Montana. Senate bill No. 119, by Nelson and Nash—Repealing the old direct primary law, for which a new primary convention law has been substituted. Senate bill No. 119, by Nelson and Nash—Repealing the direct primary law to make way for amendatory act. Senate bill No. 137, by livestock committee—Providing for control of infectious diseases among stock. Senate bill No. 24, by Whitcomb—Excluding agricultural lands from cities and towns. Senate bill No. 30, by Glechrist—Appropriating \$30,000 for improvement of Snake river in Madison and Jefferson counties. Senate bill No. 104, by Helms—Authorizing cities and towns to sell electric power to those outside corporate limits. Senate bill No. 83, by Lowe—Authorizing audit into school district accounts. Senate bill No. 98, by livestock committee—Providing for registration of livestock brands. Senate bill No. 111, by Kerriek—Providing for consolidation of irrigation districts. Senate bill No. 9, by Wittly—Appropriating \$52,000 for improvement of Lava Hot Springs. House bill No. 214, by committee on fish and game—Amending the fish and game laws of the state.

Figures prove our airplane training fatalities to be less than those of any other country. The monthly average in the United States has been only one fatality for each 3200 hours flown.

TRANSPORT ROCHESTER ARRIVES; 370 ON BOARD

New York, March 5.—The transport Rochester has arrived here with 370 officers and men from Brest. The organization aboard were units from the 167th aero squadron, including four officers and 133 enlisted men; mobile hospital 200 and casual company 121. The transport Sibony arrived with the following organizations: Twelve convalescent detachments from Bordeaux, 45 officers and 1287 men; detachment 348th infantry; detachment of headquarters 40th division; sanitary detachment 348th infantry and 28 casual officers. The men were disembarked today.

BOISE IS GOING TO HAVE BUILDING

Y. M. C. A. Workers Determined to Build Handsome Edifice for This City—Workers Enthusiastic.

They're off, like a high strung bunch of Kentucky racers, the teams in the \$165,000 drive that means one of the finest Y. M. C. A. buildings on either side of the Rocky mountains for Boise. Boise is going to have that building. Thirty-seven thousand three hundred and seventy-five dollars of the \$165,000 was reported raised Tuesday.

The enthusiasm at the luncheon of the workers at the Y. M. C. A. caused Chairman C. A. Barton, Dick Randall, Judge Dietrich, C. C. Anderson, Dr. Taylor, Division Manager Crooks and ditto Manager Newhouse and the rest of the executive committee and so forth to smile all over the landscapes of their various countenances. Every table was filled. Every captain reported. Everybody joined joyously in the enjoyment of the unusually agreeable luncheon served by the ladies of the First Congregational church and the good natured "spizzier-inium," which nobody but the abbreviated Scottish noonian without a title except "general secretary of the Boise Y. M. C. A.," or Mogge for instance knows the meaning of but was nevertheless handed around with spontaneous alacrity.

LIVE WIRES ACTIVE.

When a couple hundred live wires get together as they've gotten together in this drive to give the boys of Boise—Boys all the way from the size of "Billy" Jones, the 65 pound track fiend, to boys like Major Fred R. Reed or Tom Martin—ample opportunity for the release of physical exuberance in a properly equipped Y. M. C. A. gymnasium and so forth, there isn't a shadow of doubt but what they'll put it over. The first half day's work in the \$165,000 dash for the new "Y" building means a lot. It means the workers have jumped into the collar, bounced into their stride, hit-th-grit or whatever you want to call it, in a manner that insures a clean, beautiful finish. The two teams, the "Americans" and the "Nationals," are about a length apart on the first lap with the daylight shinin' on the tall-board of the "Nationals."

The "Americans" reported \$2958.00 to noon yesterday. The "Nationals" made the official marker score \$7818.50 to their credit. But a gigantic oath was taken by the "Americans"—sotto voce or in such a manner—and the oath was, "We'll catch 'em on the next turn!" Each day through the drive the workers will meet at a noon luncheon at the Y. M. C. A. and report. The meeting adjourns at the big clock on the corner of Main and Ninth, where the team captain turning in the best report for the day will have the honor of climbing the ladder and setting the hands of the clock at the proper mark so the whole wide world may see the progress of the drive. Yesterday that honor was won by Captain R. R. Alexander of team 11 of the "Nationals." The way he hugged the ladder when he went up it didn't exactly qualify Captain Alexander as an impromptu human fly or anything. However, it was exceedingly entertaining to the audience. Team 11 reported \$2170.00 for the first half day's drive. The motto is: "One hundred and sixty-five thousand dollars or nothing!" If I were bettin', which I wouldn't do for me to do, being mixed up with this Y. M. C. A. thing the way I am, but if I were bettin' I'd risk quite a bit it will be the \$165,000.

TEAM STANDING.

The following are the team standings:

AMERICAN DIVISION.		
Team.	No. Sub.	Amount.
1—Pope	9	\$ 360.00
2—Martin	3	420.00

Dangerous Weakness Follows Influenza

There Is Real Danger in the After-Effects of This Treacherous Disease

Those who have survived an attack of dreaded influenza find their strength taxed to the utmost, and the entire system in a weakened and nerve-shattered condition. For this disease is intense in its severity, and its after-effects are as much to be guarded against as the disease itself.

The pain-racked body is in such a debilitated condition that the vitality is at a low ebb, the strength returns very slowly, and the patient becomes dependent because of his helplessness. And unless there is a full restoration to his former robust condition, he is liable to fall an easy prey to any ordinary illness. In other words, there is danger of a permanent injury to the system.

You owe it to yourself to regain your full strength and health just as completely and promptly as possible, and to take all precaution to avoid the after-effects of the disease. This you can do by giving nature such assistance as is needed in rebuilding the waste tissue and restoring the strength and vitality.

All waste tissue must be rebuilt and all lost strength must be restored through the blood supply, for through this vital fluid alone can the damage be repaired. And after its battle with the germs of gripe and

REPUBLICAN CHIEFS MEET TO ORGANIZE FOR NEW ASSEMBLY

For First Time in Eight Years a G. O. P. Committee Enjoys Privileges of the Majority Caucus Room.

Washington, March 5.—Republican leaders met today to organize the next house of representatives for the business of the first session of the 66th congress.

For the first time in eight years the Republican committee on committees met in the majority caucus room of the house office building under leadership of Representative Mann of Illinois. Until noon yesterday this room was reserved for Democratic gatherings. The first business of the committee on committees, which is made up of 26 members, one from each Republican state delegation, is to choose a floor leader and a steering committee of which the floor leader will be chairman. Next thing will be the assignment of members to the various house committees and the drawing up of rough details of a legislative program which Republicans hope to start before the next congress is many days old.

MAY CONTINUE WEEK.

The meetings of the committee may continue for a week, Mann said today. The one chosen floor leader will be without any assignment on any legislative committee. Under the Democratic organization, the chairman of the ways and means committee was floor leader.

No Republican today would venture a prediction as to who would get the job that ranks in importance with the speakership itself. Representative Mann, present floor leader, said he will not have it. Representative Longworth, Ohio, is known to be the choice of Representative Gillett, slated to be next speaker. Others mentioned are Representatives Moore, Pennsylvania, and Mondell, Wyoming. Committee chairman in all probability will be chosen under the seniority rule by which the oldest Republican on a committee, in point of service will get the chairmanship.

NO OUTSIDE ASSIGNING.

This leaves little in the way of committee assigning outside the placing of new members and the determination of the proportion of Democrats and Republicans on each committee. Tentative Republican plans call for the meeting of the more important committees, such as the ways and means, appropriations, naval and military affairs, within the next few weeks to draw up legislation for presentation at the reopening of the session. The ways and means committee plans to start the framing of a new tariff bill at the earliest possible moment.

Senate bill No. 9 by Wittly—Appropriating \$52,000 for improvement of Lava Hot Springs.

CAN'T BEAT "TIZ" WHEN FEET HURT

"Tiz" for Sore, Tired, Puffed-Up, Aching, Callused Feet or Corns.

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "Tiz" and only "Tiz" takes the pain and soreness out of corns, callouses and bunions. As soon as you put your feet in a "Tiz" bath you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet. Get a 25-cent box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.—Adv.

GREENLEAF

Greenleaf, March 5.—President Pennington and Professor Perisho, of Newburg, Ore., have been spending a few days in the neighborhood in the interests of Pacific college. Miss Pearl Greivie, of Caldwell, spent the week-end with her sister, Mrs. Ambrose Tish. Miss Ruth Knapp, of Deer Flat, is staying at the Armstrong home. Mr. and Mrs. Ralph Hinshaw were made happy by the arrival of a daughter March 2. A mass meeting was held at the church Friday evening in the joint interests of Pacific college and Greenleaf seminary. The speakers of the

LKS WEDNESDAY MARCH 5th ELECTION

Come and select your officers for the ensuing year. Boise Lodge No. 310, B. P. O. Elks.

NOTICE

Idaho stands second in the United States for its clean Manhood, according to the Official Statement from the office of The Adjutant General in Washington, and why is such the case? Because we have treated successfully a great number of men inducted and these have passed the physical test and have been found suffering with no venereal disease. We have done our bit in the war as we have placed fighters on the sea and on the land to make The World Safe for Democracy. We treat and eradicate Acute and Chronic Diseases of Men and Women as well as Skin and Blood disorders. The Old Standing Bladder and Prostatic troubles of men as well as those who by abuse of excesses have lost that ambition essential to virile manhood. Our results speak for themselves and by the report sent out we have been weighed in the balance and found that we have delivered the goods. Consultation free and invited. Everything in strictest confidence.
