THE BEST MEDICINE  
FOR COUGHS AND COLDS

Miss Ivy Gray, Fairview,  
Kentucky, writes:

"I have taken Peruna, and  
would say that it is the best  
medicine for coughs and colds I  
ever saw. I find that it always  
cures a cold in a short while. It  
also strengthens and builds up  
the system."

## WORLD NEWS IN BRIEF

The Japanese troops are taking  
drastic action to put down the rising  
in Korea and have killed and injured  
many thousand people and imprisoned  
32,000 according to Korean reports.

Japanese interests, after years of  
effort, have succeeded in obtaining  
large land concessions in Lower Cali-  
fornia, Mexico. The United States  
government, which sees a possibility  
of Japan obtaining a naval or mili-  
tary base on American soil, is investi-  
gating the transaction.

The National American Woman  
Suffrage association at St. Louis,  
March 28, adopted resolutions endors-  
ing the league of nations and urging  
the United States government "to  
bring about prompt redress of all  
legitimate grievances" as a safeguard  
against revolution by violence.

Dr. Bernhard Denburg, former  
chief of the German propaganda  
service in the United States, writing  
in the Tageblatt of Berlin, declares  
that the German people will not sign  
a treaty of peace which does not  
contain a league of nations in which  
Germany is admitted with full rights  
and will only consent to disarmament  
when other members of the league  
disarm.

## United War Veterans.

The United War Veterans, a  
national organization, has been  
formed to include in its active mem-  
bership all veterans of the Civil war,  
Spanish war and World war.

It aims to unite in fraternal bonds,  
through national, state, local and  
foreign organizations, all soldiers and  
sailors of the United States; to per-  
petuate Memorial Day, as established  
by the Grand Army of the Republic,  
and to preserve from neglect the  
graves of our nation's dead; to secure  
employment for and to assist  
comrades, their widows, orphans and  
dependent relatives; to promote  
loyalty, mutual aid and co operation  
among them in all lines of endeavor,  
etc. The national headquarters are  
at Kalispell, Montana. The com-  
mander-in-chief is commandant of the  
Montana State soldiers' home.

## DO YOU SLEEP WELL?

To be at his best a man must have  
sound, refreshing sleep. When wake-  
ful and restless at night he is in no  
condition for work or business during  
the day. Wakefulness is often caused  
by indigestion and constipation, and  
is quickly relieved by Chamberlain's  
Tablets. Try a dose of these tablets  
and see how much better you feel with  
a clear head and good digestion.

"You're old  
enough to know  
better," says Hogan

"Figure the real  
tobacco satisfaction  
you get out of a  
small chew of genu-  
ine tobacco and the  
way it lasts—and  
good old Gravely  
has got your or-

dinary plug backed  
off the map."

Good taste, smaller chew,  
longer life is what makes Gen-  
uine Gravely cost less to chew  
than ordinary plug.

## What Is Intelligence

University of Idaho, Moscow.—In  
answer to the many inquiries as to  
what intelligence really is, Professor  
H. B. Reed of the Psychology depart-  
ment makes the following statement:  
"Intelligence is not knowledge. It is  
the capability for adjustment or the  
power to size up a new situation and  
decide what is to be done.

"Intelligence is not knowledge,  
memory, imagination, attention,  
dignity, courage or industriousness.  
Neither is it the ability to talk long  
on every subject under the sun; to  
ask questions on every subject a pro-  
fessor talks about in class nor to dress  
better than any other person in town.

"An intelligent person need not be  
courteous, obedient, proud, or have  
the air of being busy and self import-  
ant. That ability called "sticktoit-  
iveness", or a good pluggger need not  
be a sign of intelligence. It is not  
necessarily common sense. But an  
intelligent man is usually superior in  
all these things to a less intelligent  
man.

An intelligent man knows, remem-  
bers, and talks more and has greater  
stock of common sense than one with  
a lower grade of mentality, Professor  
Reed explains. Such an individual  
is more industrious, alert, humble,  
obedient, and probably makes a better  
appearance than the less intelligent  
one.

But tho these capabilities go along  
with intelligence, they should not be  
identified as meaning the same thing.

"Intelligence," says Professor Reed,  
"tells us how to adjust ourselves in a  
new or changing environment. If it  
is fixing an automobile, the intelli-  
gent man is characterized by ability  
to locate the trouble and find a solu-  
tion quicker than a non-intelligent  
worker. If it is running a grocery  
store, it is ability to forecast the  
market and wants of people and  
supply the commodities when  
demanded. If teaching, it is ability  
to know what a student can under-  
stand and then speak in the best way  
to convey that meaning.

"The intelligent student is able to  
understand the assignments on first  
hearing; to select significant points  
from a reading or lecture; and organ-  
ize these facts so they can be remem-  
bered.

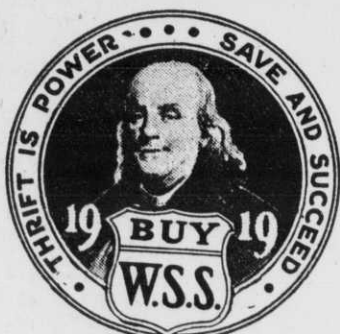

The intelligent students do not  
necessarily get the best grades, he  
cautions, because grades are a  
function of other things, such as  
industry, good will, and obedience.  
However, he gets his lessons in less  
time, spends more time in diversions  
and is engaged in more activities.

"Intelligence is inherited. It is  
not acquired in or out of college.  
Altho information and education  
may help and improve ability to  
adjust oneself to environment, it does  
not improve the native intelligence  
at all. If a student makes a high  
grade in the intelligence test, he owes  
the greater part of his success to his  
parents.

"The mental process involved in  
intelligence includes the power to  
remember and recall what is relevant  
to a problem; to discriminate between  
ideas as they come in a field of con-  
sciousness and coordinate those that  
will accomplish a solution of the  
difficulty.

"A good intelligence test is one  
that tries the faculties of analysis,  
synthesis, discrimination, ability to  
make new combinations and do all  
work quickly, and for that reason the  
time element is important.

"Often the power to save a life  
depends upon some individual's  
ability to understand a dangerous  
situation, think of a correct solution  
and carry it out, all in a few seconds."

## Idaho State News Items.

D. S. Wallis of Lewiston has been  
appointed deputy state farm markets  
director for northern Idaho.

The state land board Friday fixed  
at \$25,000 the official bond of I. H.  
Nash, new state land commissioner.

The Johnson-Farady bill intro-  
duced in the last legislature which  
legalizes 20 round boxing contests in  
the state of Idaho did not carry an  
emergency clause and therefore will  
not become effective until 60 days  
after its approval.

The Park Highway garage at  
Bonners Ferry was destroyed by fire.  
It contained 17 autos, which were a  
total loss, and \$4000 worth of sup-  
plies. The loss is \$20,000, which was  
partly covered with insurance. The  
origin of the fire is not known.

Senator M. B. Yeaman of Bonne-  
ville county, and Representatives  
Ezra P. Monson of Franklin county  
and A. H. Morgan of Washington  
county, will supervise the expendi-  
ture of \$25,000 to be used to investi-  
gate state departments in checking  
up their books and accounts.

Approximately 100 men are en-  
gaged in engineering work for the  
state, preparatory to a road building  
program to be launched this spring,  
which will mean expenditure of  
thousands of dollars in every county  
for road building during the present  
biennium, according to H. C. Allen,  
state highway engineer.

Men in charge of the Victory Lib-  
erty Loan campaign in Idaho are  
combatting the arguments that the  
banks can take care of the coming  
loan. They hold that it will be  
absolutely necessary for the people to  
purchase these bonds out of their  
savings if the industry of the country  
is to be restored to normal.

The first Idaho fatality from  
Lethargic encephalitis, or sleeping  
sickness, to be officially reported, was  
announced to the state board of  
health Friday by a Rigby physician.  
Walter Hogan, aged 37, was the  
victim. According to the reporting  
physician Hogan's case was typical  
of the disease. The doctor gave no  
information as to how the case  
developed.

Discharged soldiers of the state are  
already commencing to get together  
for the purpose of forming organiza-  
tions and associations from which  
they hope to derive benefits in a  
business and social way. Organiza-  
tions have been perfected at Lewiston,  
Twin Falls and Pocatello and the  
indications are that returned  
service men in Boise will organize at  
a very early date.

## VICTORY DRIVE MEDALS

Medals made from captured  
German cannon will be awarded  
by the Treasury Department to  
volunteer workers who take  
part in the Victory Liberty Loan  
drive for \$5,000,000,000 which  
will start April 21.

Inscribed on the face of the  
medal will be the name of the  
worker and the service for  
which the medal was awarded.

## IF I WERE A FARMER.

If I were a farmer I would keep at  
hand a few reliable medicines for  
minor ailments that are not so serious  
as to require the attention of a phy-  
sician, such as Chamberlain's Colic  
and Diarrhoea Remedy for bowel  
complaints.

Chamberlain's Cough Remedy for  
coughs, colds and croup.

Chamberlain's Liniment for  
sprains, bruises and rheumatic pains.  
Chamberlain's Tablets for stomach  
troubles, biliousness and constipa-  
tion.

By having these articles at hand it  
would often save the trouble of a trip  
to town in the busiest season or in  
the night, and would enable me to  
treat slight ailments as soon as they  
appear, and thereby avoid the more  
serious diseases that so often follow.
