рано, Ірано. June 2, '93 On Monday evening last Dep uty Sheriff R. M. Henley brought in Alexander McLeod from the middle fork of the Clearwater and placed him in jail. He arrested him in the Cedar Forest

about fifty miles distant. The

prisoner is charged with assault and battery on the person of one of his neighbors, Mr. George Swan, an old soldier. Judge Garber came over Tuesday to ry the case but that being a legal holiday he postponed it until the following day. When the hour set rolled around the prisoner was duly arraigned, but by mutual consent of counsel on either side and by reason of defective warrant and complaint the case was dismissed and the prisoner ordered discharged. He was immediately thereafter rearrested upon a warrant issued by Judge Vincent and brought efore him for examination. In addition to other witnesses for the prosecution there were two al ceremonies on the 3rd inst. (2) Indian women, Mrs. Maggie Hill and Mrs. Lizzie Fairfield. The former (Mrs. Hill) requesting an interpreter, Mr. W. N. Knox, our able and efficient Deputy Recorder, was induced to act in that capacity. Though he modestly disclaimed being an expert in that line he nevertheless performed the difficult task in a manner that is believed to have been quite satisfactory to all parties concerned. Though to some who were present the language of this witness was quite unintelligible she almost told the story in pantomihe. The various attitudes which she assumed were eloquent and suggestive and left but little room for question as to what she meant: Mrs. Fairfield gave her testimony in English. The prisoner was held to appear before the Grand Jury. His bond was placed at \$250.00. This man was arrested last winter by the U. S. Marshal (Stranahan) under the charge of selling

Klearwater Kracklings.

whiskey to Indians but was acquitted.

TAD, SO DO WE THINK!

Salmon River Notes

Salmon River is on the rise again and from the looks of things it will be higher than it was last year.

We are having a survey on both sides of the river which was badly needed. The Doumecq Plains will get a little streak surveyed this time.

E. Richardson died on the 2nd inst., very suddenly. He was hoeing in the garden and fainted. His son carried him into a tent near by after which he lived only about five minutes. Mr. Richardson was a man of apparently robust constitution and had never been sick a day in his life. He was born in Mercer Co., Ohio December 19th 1808, removed to Nebraska and from there to Salmon River. Before his death he death he requested to be buried on his ranch at this place. His wish was carried out with funer-

One of our ferry boats is reported as being in a condition wholly unsafe for travel. Some time since it broke loose with passengers on it and it is a wonder no lives were lost. It looks to us that our commissioners should see to it that the boats on this river are kept in a safe condition and either make the owners keep the same in good repair or require the forfeiture of their charter.

Parties contemplating crossing the river would do well to wait about two weeks until the new ferry boat is completed at the mouth of White Bird Creek.

Our teacher has just closed a six month's term of school. The directors failed to report District No. 27 to the commissioners and in order to settle with the teacher were compelled to raise \$180. We should have directors in charge of our schools who can comply with the laws and give the work their attention and save the annoyance caused by failure to perform their duties.

Mr. Hadorn was down today and is all crippled up with rheumatism but it does not prevent him from taking a hearty laugh. He reports the Roundup progressing finely and a good crop

dale beught a half section of tertaining one or more guests. The other half proved to be state wife are stopping with the Hon. land. A man from Kendrick L. P. Brown they being old time
