Mrs. Funke and small son expects to join Mr. Funke in about a month.

Dr. Orr was overheard to remark the other day "that this is the worst week I ever put in in Cottonwood" and the cause of it all is the absence of his Buick car which he was compelled to leave in Spokane recently on account of the roads being blocked with snow. It does not seem natural to the natives to see the doctor walk. He perhaps travels more miles in a car than any other person in the county.

The Leggett Mercantile Co., served steaming hot coffee last Saturday and made many friends by this friendly act. The day was cold and the coffee was appreciated. Mrs. Williams did the serving as well as the making and proved that she knows how to make a good cup of coffee as well as to direct a minstrel for she is equally proficient in either role. They estimated that at least two hundred fifty persons were served Saturday.

Mrs. Robert Pugh of Grangeville was a guest at the George Medved home Sunday.

Mrs. M. M. Belknap and son Donald were passengers Wednesday morning for Lewiston where the young lad received medical treatments.

Joe Nuxoll who has been spending the past six weeks in Lewiston returned home Saturday evening. Joe tells a good joke on himself while in Lewiston and for fear that may have a libel suit on our hands we are going to let him tell you. It's a good one. Ask Joe.

M. M. Belknap and W. W. Flint attended the mass meeting held in Lewiston, Tuesday in regards to the Gooding wheat guarantee price. The meeting was attended by more than 300 farmers and business men. A favorable resolution was passed by the mass meeting supporting the Gooding bill.

W. C. Frick is this week busily engaged in packing his household goods, which he will ship to Lewiston where the family expects to reside in the future. Mr. Frick returned from Lewiston Saturday evening and while there accepted a position with the Idaho Foundry and Machine Works, at a very good salary. Mr. Frick is an A. No. 1 mechanic and as a lathe man he has few equals. The Fricks expect to get located in their new home by March first.

While some business houses report times a little slow this does not prove to be the case with Cottonwood's two garages. Overhauling jobs are coming to the Service Garage and the Cottonwood Garage from every section in the county. Cottonwood has long had the reputation of having the best mechanics in the county and this fact is proven conclusively by the work they receive from outside points.

Dr. W. F. Orr was called to Grangeville, Saturday morning, having been called there by the serious illness of Miss Ada Sweet who is critically ill with pneumonia. Her attending physician, Dr. Stockton, and Dr. Orr held a consultation regarding her case. At the present writing she is reported to be improving and while the crisis has not yet passed the doctors hold out great hopes for her recovery.

The Chronicle this week received a letter from L. M. Harris the well known real estate agent of Grangeville, who is spending the winter at Fresno, California and requests us to send the Chronicle to him. Among other things he says that Fresno is a live city and it has grown from a population of 30,000 in 1920 to a population of 70,000 at the present time. All three of his sons, Harold, Lee and Basil, are located there and doing well. Mr. Harris plans to eventually locate there himself.

While in the east he said he was on the go continually and everyone there wanted to know something about the west. Financial conditions there are very good according to Mr. Wassmuth and he attributes this to diversified farming and small farms. Up to the time of leaving Effingham winter conditions were ideal. One thing that impressed Mr. Wassmuth was the absence of travelers as coming and going he found the main line trains almost empty.
