

The Deering Binder a Helpful Friend

NO reasonable man ever turns down an old friend. Also, when a friend has proved himself particularly helpful and dependable, you have no hesitation in recommending him to other people in need of a friend.

The Deering binder has proved itself a good friend to so large a number of farmers in this neighborhood, and has proved its helpfulness through so many years of successful service, that it has a good claim to consideration from any farmer who has any idea of buying a binder this year. Because of its reputation and years of service, we recommend the Deering binder to every grain-growing farmer.

Don't buy a binder until you have seen the Deering, until you know its record, and until we have had a chance to present all its good points to you personally. Come in and see us.
