

A cream of tartar baking powder. Highest of all in leavening strength.—U. S. Government Report, Aug. 17, 1889.
ROYAL BAKING POWDER CO.,
109 Wall Street, New York.

Evening Tobacco-Leaf Chronicle.

MONDAY EVENING, JULY 28.

15 CENTS PER WEEK.

Louisville & Nashville Railroad.

Trains leave Clarksville as follows:
SOUTH:
No. 101, Fast Mail, daily..... 8:20 P. M.
No. 102, Fast Express, daily..... 7:15 A. M.
NORTH:
No. 103, Fast Express, daily..... 8:54 P. M.
No. 104, Fast Mail..... 5:15 A. M.

Harvey Hogg and wife spent the Sabbath here.

Edwin Turnley was able to sit up a little yesterday.

Joseph Clarke, a tobacco dealer of Hopkinsville, is in the city.

Paul J. Marable came in from the Springs this morning.

Mrs. J. R. Oldham and Miss Kate Herndon are at Dawson.

Miss Maggie White is visiting her brothers at Fulton, Ky.

J. C. Dickinson and Wm. Wright went to Trenton yesterday.

N. R. Byars, one of Todd county's fine stockmen, is in the city to-day.

The U. B. F., a colored organization, are having a big celebration to-day.

T. H. Puryear and family, of Paducah, are at the Cave, with a very sick child.

John W. Faxon returned from his Eastern trip last night. He reports a pleasant time.

Miss Ida Blumenstiel, of Hopkinsville, is visiting Misses Mary and Ella Sullivan, on Franklin street.

Jas. Bettman, the well known Cincinnati drummer, spent yesterday as the guest of J. G. Joseph.

For several days past the ferry boat has been able to run across the bar, indicating rain somewhere.

Dr. Lupton will preach at the new church on the Nashville pike, three miles from the city, next Sunday at 4:30 p. m.

Miss Minnie Herndon will leave in the morning for St. Joseph, Mo., to visit Rev. A. G. Dinwiddie's family.

The seven-mile ferry boat has been remodeled and repaired, and is now the best boat between Clarksville and Hyde's ferry.

A letter from Chicago last night by the family conveyed the pleasing intelligence that Miss Pearl Graham was much better.

After spending two weeks with her Clarksville friends, Mrs. Seymour Kellogg returned to her home at Decatur, Ala., Saturday.

The Wabash railroad gave George Hankins \$40,000 damages for the great mare, Huntress, that was killed in the Warrenton wreck.

Dr. T. H. Marable went to the south side yesterday on a professional visit to Chas. M. Lowe, who is suffering from heart disease.

Mrs. Golliday, of Trigg county, came up yesterday on a visit to her daughter, Mrs. Edwin Turnley, bringing little Nettie home.

Miss Nannie, daughter of W. J. Broadus, of the Erin News, died at Erin on the 21st instant. She had been an invalid for seven years.

A. T. Reeves, who murdered Father Ashfield in Memphis, has been brought from Philadelphia, where he was arrested, to Nashville.

Protracted meeting commenced at Little Hope yesterday. During the week the pastor, Bro. Adams, will be assisted by Rev. Thompson, of Nashville.

John Rudolph has just returned from Trenton. Ask him if he went to hear the "Kansas Cyclone" or speak or listen to the zephyr-like whispering of a fair one's voice.

One of Clarksville's small kids rode through on his wheel to Trenton, Ky., last Friday, making the trip in one hour and fifty minutes. Jeff. Herndon had better look to his laurels.

Rev. Mr. Neal, the new pastor of the Baptist church in New Providence, preached to good congregations yesterday morning and night. He is a young man of promise, and is doing a good work.

DEATH FROM POISON.

A Mistake that Resulted in the Death of Mrs. Etta Downing.

A fatal mistake was made in taking medicine in South Clarksville about noon yesterday. Mrs. E. Downing, wife of Cyrus Downing, who came here with the Bending Works people from Collins, O., was taken with a slight attack of dysentery and took corrosive sublimate for laudanum.

When the family left Collins, O., they gathered up all the medicine in their home and put it in a box and shipped it here. When Mrs. Downing was taken ill yesterday she and her husband went to the medicine chest and got out what they supposed was a bottle of medicine she should use. They both tasted of it and were certain they were right. The lady took a large dose of the deadly drug and died in great agony forty minutes thereafter. Drs. Runyon and Marable were summoned, but were too late to save the unfortunate woman's life.

The remains were embalmed by John F. Coats and shipped to Collins, Ohio, this morning for interment.

L. N. McKesson, one of the proprietors of the Bending Works, accompanied the remains to Ohio.

Mrs. Downing was twenty-three years old, and had been married four years. She had been in the city only a few weeks, and was almost a stranger, but is spoken of by her old neighbors and friends who came with her as a most excellent woman and a consistent member of the Methodist church.

Society Notes.

The society boys of the city were knocked out, using a street phrase, this morning by the news coming in from the Springs that a Micawber party would be given out there tomorrow night. They had heard of progressive euchre parties, lawn parties, pink teas and such like, but a "Micawber party" downed them. Not one of them knew anything about it. It was gotten up by a party of young ladies at the Springs, and the man who brought the news to town could not enlighten the curious on the subject. A lady informed a LEAF-CHRONICLE reporter, however, that the "party" is founded on Dickens' well known character in David Copperfield, Wilkins J. Micawber, who was always expecting some circumstance to present itself whereby he would be benefited. By this it would seem that the party of young people will assemble at the Springs, and whatever circumstance comes up by which amusement for the evening can be had the program will be followed out. It is new and will attract quite a crowd from the city.

Cerulean is getting up a "Garden Party" for tomorrow night. Several young gentlemen are intending to go from here to the party.

His Farewell Sermon.

Dr. D. C. Kelley delivered his farewell sermon to the Gallatin congregation last night. He took the following passage of Scripture for his text: "Ye blind guides which strain at a gnat and swallow a camel." The sermon is pronounced by the America's correspondent as the master sermon of the preacher's life. He assumed the position that both political parties had promised the prohibitionists much and done little in the way of fulfilling these promises.

As the hart panteth after the water-brook, so Philip Lieber & Son pant after trade. Their advertisement to day is aimed directly at the bipeds and contains a clause for all ages and classes, from the small kid in bifurcated knee garments to his paternal ancestor and his brothers, uncles and cousins of the male persuasion. If you are not a lady, read it.

The terms of L. Bloch and C. M. Barker, school commissioners for the 12th district, expire with the coming August election. Let every voter see that their names are on his ticket and that they are re-elected.

Meeting To-night.

There will be a meeting at the court house to-night at half past 7 o'clock for the purpose of organizing a prohibition club.

The native watermelon is late getting in this year and the Georgia trust is having a good time—so are archills, bilious fever, cramp colic and the doctors.

Mrs. Beulah Rossington, wife of Geo. A. Rossington, of Chattanooga, is reported quite sick at her home in that city.

W. E. Beach and wife are expected home this evening, he from Eastbrook and his better half from Nashville.

Miss Ella D. Sullivan, of County Kerry, Ireland, arrived in the city Sunday and will reside here in the future.

A. R. Gholson, Dr. N. L. Carney and perhaps W. B. Anderson will leave Wednesday morning for a trip through the West.

Stock holders in the Inter-State B. & L. must come forward and settle up to avoid being fined. Office at Franklin Bank. Jy 24 1894. B. E. ATKINS, Sec'y.

The Tobacco Outlook.

The LEAF-CHRONICLE's statements and predictions concerning the tobacco situation, and especially the dark crop, are being verified from all quarters. The Western Tobacco Journal, Cincinnati, has full reports from all growing sections, from which we make extracts. That paper says editorially:

It is evident that the discouraging news as to the acreage and condition of the crop of dark tobacco out this year is affecting values in the market centers for this class of tobacco, and it looks as if the advances has only begun on the better grades, though it is predicted by many that all grades will show a decided advance before the year is over. Outside of Kentucky and Tennessee it is evident the product in the West will cut a very little figure, and if the reports we hear from these States are anything near the true situation, the 1894 dark crop will be almost if not the smallest crop since 1874, and some even claim that it will be really as short as the 1875 crop.

Cumberland county, Ky., reports 2) per cent. of an average crop planted while the condition is very low.

Green river district reports dark tobacco still selling under cost of production.

Last year we made a half crop compared with 1888—that is, 80,000 hogheads against 143,000 for 1888—a reduction of 63,000 hogheads in present stocks. The crop this year is not over 40 per cent. of the 88 planting which will greatly reduce the stocks for 1891. The prospect for the growing crop is very poor.

Illinois, practically has no crop, only about 200 hogheads as compared with 5,200 hogheads in average years, and dry weather prevails. This indicates a shortage of 5,000 in nondescript grades and should stimulate planters of the Clarksville district to do their best to make a fine crop in quality this year.

Missouri presents a very gloomy outlook. The drought is very severe; Carroll, Livingston, Linn, Macon, Randolph, Howard, Saline and Chariton counties report the planting not over one-third of last year's crop, mostly late planting. Virginia, North and South Carolina present a more favorable prospect. The planting is nearly equal to last year's crop, while good rains have prevailed lately.

There can be no doubt that this will be the shortest crop raised since 1874, especially in dark grades, and our farmers will only have to make a good quality, keep the worms off, let it ripen well, give good house room and handle neatly, to secure good prices. The market is already too high for the Regie contractors, and the fight is to meet the German and other open market demands and let the Regies wait for the 1891 crop.

District Convention Aug. 9th.

According to a resolution adopted at the last county convention every district in the county will hold meetings at their respective voting precincts Saturday, August 9th, to appoint delegates to a county convention to nominate candidates for the legislature and elect members for the Executive Committee. The County Convention will appoint also delegates to the senatorial and floater conventions.

'Squire Zopher Smith is a man of too much prudence to carry his face into Cumberland Association without a mask. The church having delegated him to attend, should now furnish the mask or he will under the necessity of borrowing 'Squire Sam Caldwell's conference mask. While this might be some improvement, if the brethren will think about the matter, it is not safe to take a Methodist mask into a Baptist meeting.

Frank G. Wake returned Saturday morning from making an inspection of the tobacco crop. He has been all over the country and reports that, though in some localities rain has been plentiful, there are many places where the crops have been materially damaged by dry weather. The present tobacco crop, he thinks, will be short, though how much he is not ready to say.

The Wonderful Tower.

The highest structure in the world is Eiffel Tower, at Paris, 1,000 feet high. But the great discovery of Dr. Franklin Miles is certain to tower far above it in promoting human happiness and health. This wonderful nerve medicine builds up worn out systems, cures fits, spasms, headache, nervous prostration, dizziness, sleeplessness, monthly pains, sexual troubles, etc. Mrs. John R. Miller, of Valparaiso, Ind., and J. D. Taylor, of Logansport, Ind., gained 20 pounds a month while taking it. Finely illustrated treatise on "Nervous Diseases" and sample bottle of the Restorative Nerve free at Owen & Moore's.

Cumberland Association.

Cumberland Baptist Association meets at Gallatin the Second Tuesday in August (12th). Dr. Sears, F. F. Fox, Z. Smith, Davis Turnley and Norman Smith have been appointed delegates to represent the Clarksville church.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Ayer's Sarsaparilla. The use of this medicine, by giving tone and strength to the assimilative organs, has made innumerable cures of chronic dyspepsia. Price \$3.00. Worth \$5.00 a bottle.

The Hopkinsville colored brass band serenaded the LEAF-CHRONICLE office about noon to-day. The music was highly entertaining.

COL. YOUNG'S \$20,000 WATCH.

A Memento of the Thrilling Events of July 28, 1864.

This is the day that a number of our citizens held sacred in memory—events that tried men's courage.

It is the twenty-sixth anniversary of the battle of Atlanta, in which so many of our boys were engaged. Col. W. F. Young commanded the 49th and 42d Tennessee regiments and was leading the charge on the enemy's musket works on Lick Skillet road amid a shower of bullets, when sixty-three brave men fell. Col. Young still has the silver watch which he carried in his left vest pocket at the time, and which stopped a mile-half that was going straight to his heart. Three balls passed through his clothing and two through his right arm, cutting it off. Capt. Dunlop, of Charlotte, was killed in the act of carrying Col. Young from the field, and Capt. Thos. H. Smith assumed command of the regiment after six of his superior officers had fallen. Polk G. Johnson, C. H. Bailey, Jas. Wells and many other Clarksville boys were in this severe struggle. Robt. Goostree and Capt. Jas. B. Howard were killed in this fight. One singular circumstance, Polk G. Johnson, who was in this fight, and whom his comrades loved as a brother for the many and noble traits that ever characterized his life, died one year ago to-day, the 25th anniversary of this battle, and just at the hour that the regiment entered the fight.

Col. Young says the watch saved his life long enough for him to earn \$20,000 and therefore it is worth that sum, and he would not part with it for any consideration.

Fire at Glenellen.

Jno. B. Ferguson, of Glenellen, lost a barn, a considerable amount of feed stuff and a mare by fire at 3:30 Saturday evening. The fire was caused by a negro smoking a pipe in the barn. A spark fell from the pipe into a lot of hay and caused the damage. The loss is estimated at something over \$500. A brood mare was in a rear stall and was forgotten until it was too late to save her.

Thousands Poisoned.

In a recent work on Heart Diseases Dr. Franklin Miles, the noted specialist, gives many new and startling facts. Thousands of people are slowly poisoning themselves, weakening their hearts by the use of tea, coffee, tobacco and alcohol. These are heart whips, causing blood to beat rapidly, thus gradually wearing it out, producing shortness of breath when exercising, pains in side and shoulder, hunger and faint spells. Finally heart failure and sudden death. For weakened and irritated hearts the press everywhere highly recommend the New Heart Cure discovered by Dr. Franklin Miles, which is for sale at Owen & Moore's.

The new barber shop on Second street in the Bailey building now has Dave Moore at the first chair, M. J. Edmondson at the second, Neal McFall at the third, Howard Filzey at the fourth and Thurston Hollingsworth, the proprietor, at the fifth. Go there when you want a good shave, haircut, or both, or a shine. Jy 28-tf.

College Street Improvement.

The LEAF-CHRONICLE understands that the local members of the board of University trustees have finally taken the position that the Board has no right or authority to give off ten feet of the University grounds for the widening of College street. With all due respect for the gentlemen controlling this matter, we must unhesitatingly say, if this be true, they have taken a short-sighted view of the situation. They should have a right to do whatever will benefit the institution, and no one can deny that the widening and grading of College street will greatly benefit the property. The University has a large front lawn and can spare more than ten feet of ground that would never be missed. It is not worth one dollar to the University as it now stands, but by cutting off ten feet to the street and grading it down properly it will give the University buildings a more sightly and attractive elevation, besides making it the best and most popular street in the city. The city Board is unanimous in favor of this improvement. The citizens all along the street are anxious for it and freely give off the required ten feet. The citizens of the town are for it because of the pride they feel in the University and the desire to see College converted into a beautiful driving street ornamental to the city.

The city of Clarksville has done a great deal for the institution and proposes by the enterprise to spend more money in that direction that will benefit the University ten times the worth of the ground asked, and with such general sentiment prevailing in favor of the improvement the trustees cannot, in our opinion, afford to hesitate one moment on so whimsical a technicality. They cannot satisfy the community that they have no such a right under the circumstances.

Tobacco Items.

It pays to raise fine tobacco of any kind, and the man who can hit it on Burley is sure to get there. The Louisville Farmer's Home Journal notes the sale of ten hogheads Burley by A. M. Shook, of Shelby county, Ky., through the Globe house at \$33.00 to \$20.50, making an average of \$29 per hundred for the crop.

Butler county some weeks ago put the average planting at 30 per cent. now the estimate is reduced to 20 per cent. in acreage and very bad condition. The prospects in Carroll, Owen, Henry and Trimble are worse than ever known.

The Lexington Gazette says J. D. Sutton grew 14 acres tobacco last year which yielded 13,550 pounds, which he sold for 19 cents pound.

The evils resulting from habitual coiffiveness are many and serious; but the use of harsh, drastic purgatives is quite as dangerous. In Ayer's Pills, however, the patient has a mild but effective aperient, superior to all others, for family use.

Jas. Rutherford, who has been sick for several days, is on the streets to-day.

Henry L. Clark is a candidate for constable of the Twelfth district and solicits the votes of the public. Jy 28-tf.

BEEF TONGUES!

Have just received lot of NEW DRIED BEEF TONGUES, FINEST QUALITY OF Hams, Breakfast Bacon and DRIED BEEF; also large SPRING CHICKENS AND FINE BUTTER. Respectfully, KEESEE & NORTHINGTON.

STILL "PANT"-ING!

For larger sales in our Pants Department. In a few words we can tell you why. FIRSTLY, we still have too many fancy trousers left from our first spring purchases.
