WHY LADIES SHOULD READ NEWS-PAPERS,-The Albany Times says it is a great mistake in educating a young lady to keep her time and attention devoted to only the fashionable literature of the day. If you would qualify her for conversation, you must give her something to talk about, give hereducation with the actual world and its transpiring events. Urge her to read newspapers and become familiar with the present character and improvement of our race. History is of some importance; but the past world is dead-we have nothing to do with it. Our thoughts and our concerns should be for the present world-to know what it is and improve the condition of it. Let her have an intelligent opinion, and be able to sustain intelligent conversation conceruing the mental, moral and religious improvement of our times. Let the gilded annuals and poems on the centre-tables be kept part of the time covered with weekly and daily journals. Whole he is without a rival in our history.
