

Nothing Like Independence!

Nothing like being able to do something for yourself—in spite of handicaps! It's unfortunate but true that each year crippling illness or accident strikes a large number of people, young and old. Earnings stop. A whole new mode of living has to be planned. In such emergencies the family agencies of your Detroit Community Fund go to work—assisting, teaching new crafts, finding jobs that can be done at home or at institutions that employ the handicapped. The family is helped in every possible way to become self-sustaining. And that's just one phase of many things that Community Fund agencies do to help keep families intact, as happy and useful members of the community.
