

The Wonderful Healing

Properties of Darbe's Prophylactic Emulsi in case of accidents, for Burns, Scalds, Cuts, Wounds, etc. Its prompt use will invariably relieve and prevent Erysipelas, Gangrene, or Proud Flesh. Owing to the cleansing and purifying qualities of the fluid the most obstinate Ulcers, Boils, Carbuncles, and Running Sores, are rendered pure and healthy and speedily cured, no other application being necessary.

We were favored with a good rain last Wednesday afternoon, proving of great benefit to this section.

A new hall at Perry Bridge is near completed and there will be a grand ball given in it on Saturday evening next.

Our friend John A. Fletcher returned a few days ago from a sea-shore trip, where, he says, he had a fine time hunting and fishing.

Mr. R. P. O'Bryan's cotton gin, at Perry Bridge, will be ready for operation in about two weeks. He deserves to meet with success in his new enterprise since he is endeavoring to become a public benefactor.

Abbeville is not without some city features, notably the hoodlum. Some of these bipeds displayed their strength several nights ago by breaking the heavy iron pins holding in place the cross pieces of the turnstiles recently set up in Madeleine Square, thus destroying them effectually. A short time previous they pulled them off and threw them in the bayou. This time they destroyed them.

Some of the old ball tossers of our parish have determined not to let 1887 pass without affording them a little sport. They have reorganized the old clubs and played several games recently. Last Sunday the Rose Hill club met the R. R. R's, of Perry Bridge, on the grounds of the latter, and tried to "sack 'em," but in the first part of the game the R. R. R's, though a newly organized club, walked right away from the old champions of Vermilion, who had to handle the willow with all their skill to tie the game. O'Bryan and Vanslyke did good playing, and promise to make a formidable battery. They are both old members of the Abbeville club, and will, no doubt, be missed when our boys make their appearance on the field.

Mount Carmel Convent.

We take pleasure in announcing that the next session of this excellent school will open on Thursday next, September 1st. Parents and those contemplating patronizing the school are requested by the Mother Superior to call upon her and make arrangements for terms. It is desired that all the pupils should be in attendance for the opening day, so as to be properly classed. This school is in every way deserving of the patronage of our citizens, and we trust they will accord it a hearty support. A thorough English and French course is taught, with music, painting and fancy work. The building is complete in all its apartments, with well ventilated rooms, and both rooms connected with the main building; also beautiful shady play grounds for the children within the enclosure. No pains or means has been spared on the part of the Sisters to make this institution of learning one of the most desirable in the State. Why not, then, educate your children at home when the facilities for doing so are as good, if not better than abroad.

The public schools of this parish will be opened Monday, September 5th, and the examination of teachers to take place on the 31st of the present month.

Don't forget the excursion next Thursday given by the French Benevolent Society of this place. This will be the last one of the season. If you wish to have a good time generally, visit Southwest Pass with our French friends, they will spare neither pains nor money to cater to your pleasure.

Mr. Gas Godechaux has had his lots near the Masonic cemetery fenced in and built a neat stable on the rear end of the place. We hear that he contemplates erecting a handsome residence in the near future. The town is slowly but surely improving. Would not a building loan association do things a little?

A neat market-house is being erected on State street, opposite the telegraph office. It will be occupied by Messrs. Jacob Gastal & Frangois Larroquette, a new firm of butchers. Larroquette is an old and experienced butcher, and the new venture will, no doubt, find ample patronage. The more the merrier, and the cheaper the meat! Young's levee across Gross Isle swamp is being raised and thoroughly repaired under the superintendence of Mr. James Huff. When completed the road will be above high water, and afford a safe and convenient thoroughfare at all times. It will require some weeks yet before the traveling over it becomes smooth and easy.

We regret to chronicle the departure of our gifted and genial young friend, Mr. J. E. Tolson, who, having sold out his interest here, has concluded to open a lumber yard in Abbeville. Emory's place in our social circles will be hard to fill, but we congratulate our friends of Abbeville on their acquisition. Being a thorough going business man, he is bound to succeed in his new position. The best wishes of the Sentinel go with him.—Acadia Sentinel.

Free Trade. The reduction of internal revenue and the taking of revenue stamp from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's Signal Flower and Bushberry's German Syrup, as the reduction of thirty cents per dozen, has been added to increase the size of the bottles, containing these remedies, thereby giving one-fifth more medicine in the same size. The Signal Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung trouble, have perhaps the largest sales of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and ailing, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size.
