Cut Glass

A very cheap LIME GLASS imitation of Cut Glass is being turned out this year and has been taken up by some of the largest Eastern Stores. REAL CUT GLASS is cut on pure

LEAD GLASS is one of the chief elements of the cost of Cut Glass, and is what gives to the glass its permanent beauty and brilliancy.

LIME GLASS is the cheapest and commonest glass made, and heretofore has been used only in manufacturing the most ordinary necessities. The use of it in cut glass very much reduces the cost, and its initial brilliancy closely approaches the real lead glass, but this brilliancy is of very transitory duration.

LEAD GLASS retains its brilliancy for all time. LIME GLASS loses its brilliancy in a very short time.

Fortunately the test for real cut glass is a very simple one, and our main object in presenting these lines to your notice is to tell you how to test Lead Blank or

Lead Glass when tapped with a pencil or any other object will emit a pure, clear, ringing sound, like the clearest bell. Lime Glass when tapped in the same manner emits a dead and dull sound without the ring.

We Will Not Permit a Piece of **Lime Cut Glass** to enter our store. We guarantee every piece of Cut Glass we sell as real Cut Glass. Every piece of Cut Glass entering our store comes from the factory of some standard and reputable manufacturer.

IN USED PIANOS AND PLAYER PIANOS.

For a Few Days Only We need the room and they've got to go regardless of value.

The daily arrival of our new Spring Stock of Pianos and Player Pianos is so crowding our house or warehouses that we are compelled to sacrifice a number of high-grade used pianos to secure the necessary exhibition space. Never before have we had such a large collection of such instruments, and possibly never again will such an opportunity present itself to buy on such terms and at such prices.

MAGAZINE AND NEWSPAPER SHOWER.

Sounds queer, don't it? But it means just what it says. We want the housewives who are interested in The King's Daughter's work to help make this shower a great success, by searching through their lockers for all the old magazines and newspapers they can find and send them to Mr. J. Creighton Mathewes' store by the 26th of this month. They will be assorted and sent to headquarters and you can rest assured you have served a good cause.

FINGER CUT OFF.

Theodore Dubret, whose butcher business is located in the new market in Teche street, suffered a very painful accident Monday morning when he lost part of one finger and severely injured another by getting his hand into an electric meat grinder. His wound, while very painful, is not serious.

FAMOUS OLD BATH HOUSE.

One of the best-known places in the old section of the town is the Old Famous Bath House, located at 828 Conti street, which is presided over by Hon. Chas. Hantel as proprietor, and A. Dorvin as manager. This place, which has been in existence for a good many years, has given relief to dozens of people who have availed themselves of the benefit derived by the different kinds of baths, such as steam, Turkish, Russian, and sulphur baths. The place is large enough to give accommodation for fifty persons at a time without taxing its capacity. A trip through this wonderful place is more than interesting, from the fact that it reveals to those not acquainted with this class of treatment, why it is beneficial to patronize a public institution of this kind. There are many compartments in the place where one may enjoy any temperature he desires, from 60 degrees to as high as he can stand, and there is every available convenience offered, through attendants, to make these baths as nearly perfect as possible. Everything is clean and in sanitary condition, and the place enjoys quite a large patronage from people on this side of the river. Mr. Hantel, who is well known here, takes especial pride in showing people from Algiers through here and in catering to their wishes. In a short while an addition will be added for the accommodation of ladies, which will be up-to-date and arranged like all first-class places are in the East. Special days will be set apart for the ladies, also.
