Go To Church Sunday

Words of a Clergyman to His Congregation.

A Hint for Others, Perhaps, "The Lord is in His holy temple," except in summer.

"I will come into Thy House in the multitude

of Thy mercy," except in summer. "How amiable are Thy dwellings," except in

"My soul longeth, yea, even fainteth, for the courts of the Lord," except in summer. "God is known in His palaces as a sure refuge,"

except in summer. "Preach the Word Be instant in season and out

of season," except in summer. "Not forsaking the assembling of yourselves to

gether," except in summer. "They continued steadfastly in the Apostles' doc

trine and fellowship, and in breaking of bread, and in prayers," except in summer.

Compliments of the editor of the "Annunciation

"STRAIGHT CHRISTIANITY."

A leading layman said quite recently: "When the rector preaches on social, political and industrial problems, and tells us how to settle them, not by enunciating fundamental principles, but by advocating certain plans, I become a critic. I am probably better fitted than he to deal with these questions. But when he preaches the faith of the Gospel, he speaks with authority and as an expert, and I listen with respect." Bishop Fiske tells us of asking a college student what he would suggest his preaching about to the university. The answer was: "Suppose for a change you give us some straight Christianity; we get mighty little of it from the college preachers."

Go to church on Sunday. Whatever you hear will benefit you. Give it a trial.

In Case of Illness, Death or Other Trouble, Any Minister will be Glad to Help.

STONES KEEP THEIR SECRET

Restoration of Stonehenge Has Revealed Nothing New of Interest to the Antiquarian. The restoration of Stonehenge has

revealed fresh evidence as to the original building of the famous circle There are indications that the entire monument was surrounded by a circle of at least 40 stones, not one of which remains today. The office of works, in conjunction

with the society of antiquaries, is overhauling the monument, replacing the fallen stones and exploring the site. Excavations have revealed sockets for a number of stones that are no longer in existence, but history cannot account for their absence.

During the excavations a number of hammer stones, chisels and burnt tion for 25 years or more, whereas a bones were found, also many articles great many other species rot out in so of more modern origin, scraps of Roman remains, pennies and farthings of is also able to repel the attacks of devarying date even up to the present time. The places where these coins presence of tannin, oils and resins obwere found are a problem in them- noxious to fungi. selves. Why, for example, should a half-penny of George III be found deeper in the earth than a farthing

of James 1? A new map of the monument is to mony the lights in his office went out. be drawn and preserved in the Anti- The bridegroom asked to be excused quaries museum, but the object of the a few minutes, and ran down into the excavations, the discovery of the ori- street, where he saw a lantern which gin and purpose of the famous monu- was used to warn vehicles of a hole ment, is still unsolved by the recent in the ground. work .- London Times. Stenographers Long Employed. It is not generally known that ste-

nography as a profession was followed as long ago as the days of the Roman empire. Poets, who are sometimes ridiculed nowadays for having private stenographers, had them in the tourth century of our era.

The Orderly Pelican. The pelican is not an attractive

bird, but is commendably regular in its habits. The parent birds catch fish, and after eating their fill deposit the others in their pouches and carry them to their young. These pouches will hold from three to eight pounds of fish. They are elastic and when distended to their utmost nearly touch the ground.

A fisherman says that a shoal of about an aerial funeral? Well, that's Plenty of Merring. herring is sometimes five or six miles long and two or the miles broad.

a start in the right direction, anyway.
