My Hit Cigars have been on the market for a length of time hence their popularity at Davidson & Avery.

The author whose name occurs oftener to the teamsters during the grinding season is Hall Caine (haul cane).

Joe Campbell, colored, was caught between two cane cars on Argyle plantation this week and had both of his shoulders broken and one hand badly mashed. Although badly used up he will recover.

My Hit Cigars have no equal for 5 cents at Davidson & Avery.

Vim, vigor and victory—these are the characteristics of DeWitt's Little Early Risers, the famous little pills for constipation, biliousness and all stomach and liver troubles. L. J. Menville.

Mary Lagarde, a negress, residing on bayou Terrebonne was shot in the hip by her husband, Robert Lagarde, this week. While the wound was a very painful one the woman will recover. Domestic complications and alleged unfaithfulness on the part of the husband is said to have led up to the shooting. Lagarde was arrested and locked in jail, and afterward released on bond.

The fall term of the State Normal School, Natchitoches, La., will begin Monday, Nov. 22nd. Every student should be provided with a health certificate signed by the parish or city health officer stating that the bearer has not been in any infected place within ten days. On account of the delay in opening the school the session will not close the last of May but will extend through June. The usual Christmas and Easter vacations will not be given this year.

Dr. Sylvester's Hoof Oil has no equal or the cure of diseased Hoofs of Horses and Mules—at J. D. Wilson.

Dr. Thomas W. Evans the great American dentist died in Paris last Monday. For a number of years Dr. Evans has lived in Paris and has done more than any other dentist in putting "crown heads" in the mouth of crown heads. He was the first dentist to introduce in Europe gold filling for teeth. After the battle of Sedan Doctor Evans brought himself into prominence by assisting the Empress Eugenie to escape from Paris. He leaves a fortune estimated at from \$25,000,000 to \$35,000,000.

Minnie Wallace Walkup is again before the public. Shortly after the close of the New Orleans Exposition Minnie Wallace, a girl 15 years old was married to a Mr. Walkup, Mayor of Emporia Kan. Walkup was 60 years old and very wealthy. He died under suspicious circumstances in 1885 and his young wife was accused of murdering him. Although a post mortem revealed the fact that Walkup's death was caused by arsenic poison, Minnie was acquitted. Last September Minnie was married in Milwaukee to a millionaire banker by the name of John B. Ketcham. A few days ago Ketcham died suddenly; but no trace of any kind of poison was found, and it is probable that Minnie will get possession of her husband's property valued at \$500,000.

HEAVY FROST.

The deadly jack-the-yellow killer came last Thursday morning.

Tuesday, when Kerkam said that a cold wave would soon be here people laughed for that day, at 12 o'clock, the thermometer registered 85 degrees in the shade. But Kerkam knew what he was talking about for about 3 p. m., the mercury plunged downward, a la Texas blizzard, and in six hours there was a fall in the temperature of 27 degrees. Wednesday the wind died out and Thursday morning a heavy white frost covered the earth.

Yellow fever germs must have turned up their toes and died without offering any resistance. The cold spell has removed entirely all danger of a further spread of the fever this year. There no doubt will be occasional cases recorded in the infected places until January; but there is absolutely no danger of a spread until warm weather of spring comes.

This cold spell will certainly hasten the removing of quarantine restrictions against all points. Most of the parishes have already removed quarantine against western points, and we learn that it was decided by the health officers of different parishes who met in Lafayette last Wednesday to do away with all quarantine except that on household goods on the 25th of this month.

RIDE ON A COW CATCHER.

An attempt to jump, a slip of foot, and a horribly mangled boy.

An early morning accident at the switch table on the Houma Branch R. R. near Houma.

It was a case similar to that of the pitcher that went to the well once too often; only it was an unfortunate boy that rode on the cow-catcher once too often. In the first instance a pitcher got broken, a frail inanimate pitcher that one piece of silver could replace, while in the other instance a living being with animated bust and imperishable soul was the victim—a victim that the combined wealth of all the world could not animate again.

When, some time ago, THE COURIER called the attention of parents to the danger of allowing children to swing on and off the Houma train while it was in motion, it foresaw that unless the warning was heeded some dreadful fatality would result. The railroad officials foresaw it too and did what they could to prevent it. They had notices printed and tacked up in conspicuous places warning boys to keep of the property of the Railroad, and if we mistake not, even went so far as to arrest or threaten to arrest several boys who did not heed the warning.

But notwithstanding the utmost precautions of the train and station officials young boys would swing on and off moving trains. Sometimes they would swing on to the steps of the coaches and at other times would stand on the cow-catcher of the engine.

Early last Wednesday morning while the engine was switching three negro boys jumped on to the cow-catcher. After riding a short distance two of the boys jumped off, and the third, Alfred Green, aged 14 years, attempted to jump;

but his foot slipped and he fell under the engine. The locomotive, with its weight of many tons, passed over the unfortunate youth cutting off both legs near the thigh.

A number of persons soon assembled around the mangled lad, and a surgeon dispatched for; but little could be done for the boy except to allay his suffering, and he died several hours afterward.

Accept Thanks.

THE COURIER, for the people of Houma, as well as for itself, wishes to thank Snpr. Owens and the local Southern Pacific officials, Messrs. Chauvin and Thompson, for their courtesy in furnishing yellow fever news during the past epidemic in New Orleans.

For at least a month these bulletins furnished news twenty-four hours in advance of other sources, and during the remaining period four or five hours in advance.

THE COURIER's bulletin board was the center of attraction, every morning, during the fever, and we could not have made it so, had it not been for courtesy of the above mentioned gentlemen in supplying us with copies of the daily bulletins.

We assure them that their kindness is appreciated by the people of the community.

The Best Remedy for Rheumatism.

From the Fairhaven (N. Y.) Register. James Rowland of this village, states that for twenty-five years his wife has been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy. She sent Mr. Rowland for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and secured a bottle of it. His wife did not approve of Mr. Rowland's purchase at first, but nevertheless applied the Balm thoroughly and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and says that it always gives relief. He says that no medicine which she had used ever did her much good. The 25 and 50 cent size for sale by The Standard Drug Store.

Baby Mine! Every mother feels an indescribable dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger of the ordeal make its anticipation one of misery.

MOTHER'S FRIEND is the remedy which relieves women of the great pain and suffering incident to maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is removed by its use. Those who use this remedy are no longer dependent or gloomy; nervousness, nausea and other distressing conditions are avoided, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. It is a blessing to woman.
