HARDWOOD MILL AT SWAYZEE LAKE

SHREVEPORT INTERESTS WELL ADVANCED IN ERECTING MONSTER LUMBER PLANT

Shreveport interests, it is stated, are backing the big hardwood sawmill now being erected at Swayzee lake, on the Opelousas branch of the Texas and Pacific road. The same people building this mill are also in control or own the mill at Williamson, two miles west of Swayzee.

The new mill is on the east bank of the lake and everything is being done to rush it to early completion. A large crew of carpenters and other laborers are at work daily on the project.

There is a vast acreage of hardwood timber in the vicinity and this timber will be converted into merchantable lumber. Just now the hardwood market, due to existing industrial condition is practically at a standstill. This, however, can not last indefinitely, and soon an awakening of the market is expected and with its coming the mills manufacturing that class of lumber will begin to get busy to supply the new demand. The new mill is making preparations to secure its share of that demand and as it has a splendid supply of fine timber will be in a position to meet whatever demand that may follow the industrial awakening.

The building industries along the line of the Opelousas branch of the Texas and Pacific portends well for future traffic for the road. In the spot where this mill is going up, as well as the mill at Williamson, only a few years ago an unbroken wilderness stood, the inhabitants of which were the wild animals that roved the forest. There are thousands of acres of virgin soil suitable for agricultural purposes, which soil is as fertile as any on the American continent, and within a generation or so should, and no doubt will, be under cultivation.

L. S. U. OFFERS SUMMER COURSES IN JOURNALISM

News writing and editing, and newspaper practice, are the two courses to be given by the department of Journalism of the Louisiana State University summer session in Baton Rouge, June 13 to 27.

The Baton Rouge State-Times, an evening daily newspaper, will be used as a laboratory for both the journalism courses. The aim will be to provide as fully as possible the actual working conditions of a newspaper office.

In the first course, practice will be given in writing all types of stories covered by a reporter, with class discussion to aid the student in learning news values and styles.

The course in newspaper practice will include instruction and practice in copy reading, headline writing, proof-reading, making up, rewriting, and other desk work.

I'd walk a mile for a Camel

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.
