

## HIGH PRICES for HOGS

The past week the prices for hogs on foot went to 23c, the highest prices ever known. It will pay everyone to make an effort to raise their meat. Only healthy hogs are profitable, and it has been proven that Hog-Tone prevents all diseases among hogs and makes them grow. The Glenmora Drug Co. is always looking after the farmers and stock raisers interest, and it will pay you to ask about Hog-Tone.

**Total Asset \$400,000.00**

## POWER PLANT PROPOSITION

As is noted elsewhere in these columns, the proposition of the Town Council to F. P. Joseph to buy the local light plant is presented.

It seems that some of our citizens do not quite understand what is involved if the proposition is accepted.

1. The town is not involved as to bond issue or local taxes.
2. The plant, with its earning capacity, alone is involved.

An inventory of the plant has been made by an expert and while there is considerable difference in the valuation as held by Mr. Joseph and as rendered by the inventory, we trust that the difference will be amicably adjusted and the town come in possession of it, so as to unite the light and water plants.

We further do not hesitate to say, that if the town puts through the deal, that any of its citizens will regret its consummation. There are other things we desire to say, but will wait for further developments before doing so.

Dr. and Mrs. A. L. Peters have as their guest Mr. Carry, a brother of Mrs. Peters.

Mrs. J. M. Patrick was called to Gulfport, Miss., on account of the illness of her mother.

## THE BEST PLASTER

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effective for a lame back than a plaster and does not cost anything like as much.

Make the Best Use of It.  
It is useless to desire more time, if you are already wasting what little you have; for you would only grow more indolent and indifferent.—White's Class Advertising

**"I Didn't Know That My Eyes Were So Weak"**

That's what most people say when they have been properly fitted in glasses, and see the big improvement in their vision. One's eyes weaken so gradually that they scarcely realize to what extent they have become impaired. If there is any indication that your eyes are not as strong as they were at one time—or if you are suffering from headaches or nervousness which is usually caused by weak eyes, you had better drop in and let W. N. WILLIAMSON, Doctor of Optometry, examine your eyes.

## LOCAL NEWS

Mr. and Mrs. Albright recently moved to Arkansas.

Miss Beyl Butter is spending a few days with Miss Myrtle Meneol.

The Misses Andries of Many are the guests of their cousin Ambrose Andries and family.

Our town is offering each progressive citizen an opportunity to become a royal booster for its development. Join the Chamber of Commerce.

Mr. and Mrs. Stuart of the Louisiana Sawmill are away on business and pleasure. Mr. Stuart is in St. Louis buying goods for the company store and Mrs. Stuart is visiting relatives in Arkadelphia, Ark.

## GILL-BRITT

Wednesday evening witnessed the consummation of the happy courtship of Miss Lucy Gill and Mr. Webster Britt as their earthly destinies were united by marriage at the Baptist church, Rev. P. W. Lofton officiating.

Mr. Britt was accompanied to the altar by the bride's brother, Dr. Samuel Gill and the bride by Miss Mary Britt; these were preceded by Rev. Lofton. Sweet music was given by Miss Jessie Meyers who presided at the organ.

After the marriage Mr. and Mrs. Britt repaired to their newly furnished home in East Glenmora, where they will be pleased to meet their many friends, who wish them a happy, fruitful wedded life.

## AGENT DRIES MANY PRODUCTS WITH SUCCESS

Eighteen Different Fruits and Vegetables Dried Successfully By Miss Whitaker.

Fruits and vegetables may be dried in the home by simple processes and stored for future use. Especially when canning is not feasible, or cans and jars are too expensive, drying offers a means of saving large quantities of surplus products which go to waste each year in gardens and orchards. Drying also affords a way of conserving portions of food which are too small for canning.

In Madison Parish the home demonstration agent, Miss Rebecca Whitaker, has dried successfully 18 different Louisiana-grown fruits and vegetables, and the exhibit of these products in her office at Tallulah is said to be one of the most complete ever assembled. It includes string beans, wax beans, corn, peas, peaches, peeled and unpeeled pears, apples, plantains, whole okra, cut okra, pumpkin, sweet potatoes, spinach, celery and Lima beans.

Of 30 public demonstrations given by Miss Whitaker in 1918, 15 were in the drying, drying and curing of vegetables.

Through Miss Whitaker's efforts 34 housekeepers put up 13,001 cans of fruit and vegetables, dried and stored 282 pounds of fruits and vegetables, and brined 117 gallons of vegetables.

Nine canning club girls working under Miss Whitaker's direction put up 325 cans of tomatoes, 500 cans of other vegetables and fruits, 100 pounds of dried fruits and vegetables, and 28 gallons of brined vegetables.
