POLICE JURY PROCEEDINGS.

(Continued from page one.)

Wood be authorized to have bridge at Brandon repaired as cheaply as possible, the parish to pay actual cost of said repairs.

Mr. LeSassier was empowered to have road to Brandon made passable as cheaply as possible, cost not to exceed \$50.00.

Route of road machine: from town to complete 2nd ward, back to town, out upper Jackson road to Lester's to Mississippi line, and back down to Thompson's creek.

To the Honorable President and Members of the Police Jury of the Parish of West Feliciana:

During the first week of May of this year, a representative committee of citizens of the Parish of East Feliciana met a body of citizens of this parish and put before them a plan worked out by them whereby, with the co-operation of West Feliciana, a reinforced concrete bridge could be constructed to connect the two parishes, crossing at Thompson's creek near the old Jackson ford.

At this meeting a committee was appointed, composed of the undersigned, to go over the situation with a like body from East Feliciana, to investigate conditions, get approximate cost of the bridge and to co-operate with East Feliciana in ascertaining the feasibility of constructing the same.

Accordingly this committee, together with Elrie Robinson of the True Democrat, met in Jackson on the 24th day of May, and were shown proposed locations for bridges and on the same day a mass meeting of the citizens of East Feliciana was held and the whole matter was discussed with this committee.

There it was proposed to construct three bridges at points indicated in the attached sketch, being respectively 100, 280 and 300 feet in length. (This sketch was printed in The True Democrat several weeks ago.) A carefully drawn blue print was submitted showing the style of bridge contemplated, and estimates were submitted by competent engineers who stated that a series of three bridges could be constructed on this plan at a cost of from \$12,500 to \$14,000, with all necessary approaches, and including a reasonable profit to any contracting firm who undertook the work.

Another plan was submitted to construct two bridges of similar design, one at the main ford of Thompson's creek or a little below and one at Decker's ford about one mile above Jackson. This latter plan would require about 100 feet more of bridge construction than the plan first above submitted, and would likely cost considerably more on account of the necessity of going to a greater depth to get a sufficient foundation for the piers at the lower ford.

On Tuesday the 1st day of June this committee made its report to the citizens of West Feliciana after calling for a mass meeting for that purpose, and for the further purpose of obtaining an expression from them on the subject in question.

After the report of this committee was submitted to mass meeting and considerable discussion was had on the subject, a motion was made, seconded and carried that this committee be continued for the purpose of taking the subject up further with your honorable body and submitted to you for your consideration.

A further motion was made, seconded and carried, that this committee be instructed to ask your honorable body to place this whole question in some manner before the whole people of this parish for the purpose of ascertaining their sentiments and ideas in the matter and also their willingness to support the measure of bridge construction, and also the Police Jury should see fit to act, it being the sense of the meeting that these bridges should be constructed. And they were further
